| | |
|---|-----------|
| Preface | vii |
| Acknowledgements | ix |
| How to use this guide | xi |
| | |
| 1 Introduction Module | 1 |
| 1.1 Levels of Explanation | 1 |
| 1.2 Reductionism and holism | 5 |
| 1.3 Functional and causal explanations | 8 |
| 1.4 The nerve cell | 11 |
| 1.5 Brain and spinal cord | 15 |
| 1.6 Brain anatomy and function | 18 |
| | |
| 2 Neuron Module | 25 |
| Link from Introduction to the Neuron Module | 25 |
| 2.1 The resting condition | 25 |
| 2.2 Basis of the action potential | 30 |
| 2.3 The classical neuron | 36 |
| | |
| 3 Neuronal Systems Module | 43 |
| Link from the Neuron Module to Neuronal Systems | 43 |
| 3.1 Gill retraction reflex of <i>Aplysia</i> | 43 |
| 3.2 The visual system | 52 |
| 3.3 Responses to tissue damage | 61 |
| | |
| 4 Learning and memory module | 67 |
| Link from Neuronal Systems to Learning and Memory | 67 |
| 4.1 Definitions and levels of analysis | 68 |
| 4.2 Approaches to learning | 70 |
| 4.3 A natural history approach | 75 |
| 4.4 Psychological and neurophysiological approaches to memory | 78 |
| 4.5 Structural change and biochemistry | 81 |
| | |
| 5 Motivation Module | 85 |
| Link from Learning and Memory to Motivation | 85 |
| 5.1 Definitions and levels of investigation | 85 |
| 5.2 Ingestive behaviour | 89 |

Contents

| | |
|---|------------|
| 5.3 Sexual behaviour | 92 |
| 5.4 Interactions between motivational systems | 94 |
| 6 Theoretical Issues Module | 99 |
| Link from Motivation to Theoretical Issues | 99 |
| 6.1 Mind and brain | 99 |
| 6.2 Some issues raised by reductionism | 103 |
| 6.3 Beyond freedom and dignity? | 106 |
| 7 Some notes on experimental design | 109 |
| Answers to self assessment questions | 117 |
| References | 127 |
| Index of concepts | 129 |
