

CONTENTS

<i>Foreword</i>	XI
R. Diez Lobato, <i>Historical Note on Cajal's Work "Degeneration and Regeneration of the Nervous System"</i>	1
G. Raisman, <i>Regeneration in the Nervous System: Morphological Studies</i>	13
– <i>Discussion</i>	19
J. Verhaagen, W.H. Gispen, <i>Peripheral Nerve Regeneration, Neurotrophic Factors and Neuropeptides</i>	21
– <i>Discussion</i>	43
M. Jeannerod, <i>Behavioural Recovery: a Staged Process</i>	45
– <i>Discussion</i>	63
L. Rakić, <i>Experimental Models of Restoration of Functions After Brain Lesions</i>	67
– <i>Discussion</i>	81
K. Shibib, M. Brock, G. Buljat, G. Gosztonyi, G. Schoknecht, <i>The Effect of Functional Polarity on Nerve Regeneration; Fibers Growth in Central Anastomoses</i>	83
– <i>Discussion</i>	95
V. Beneš Jr., <i>Recent Research in Spinal Cord Functions Reconstruction</i>	97
J.H.C. Voormolen, F.C. de Beer, E. Marani, R.T.W.M. Thomeer, <i>Spinal Cord Regeneration: an Experimental Study in Cats</i>	107
– <i>Discussion</i>	117
J. Lobo Antunes, <i>Regeneration of the Hypothalamic Magnocellular System Following Section of the Pituitary Stalk and Hypothalamic Lesions</i>	119
– <i>Discussion</i>	127
F. Cohadon, <i>Recovery of Automatic Motor Activities After Severe Traumatic Coma: Facts and Hypothesis</i>	129
– <i>Discussion</i>	141

C.A.F. Tulleken, P.C. van Rijen, A. van Dieren, <i>The Transorbital Revascularization of a Chronic Ischemic Brain Area in the Monkey</i>	143
A.J. Strong, <i>Cerebral Ischaemic Boundary Zones and Recovery of Function Following Stroke</i>	151
- <i>Discussion</i>	159
J. Zimmer, B. Finsen, T. Sørensen, N.Aa. Sunde, P.H. Poulsen, <i>Brain Grafts: A Survey with Examples of Repair and Xenografting of Hippocampal Tissue</i>	161
- <i>Discussion</i>	185
M. Brock, <i>Regeneration of the Nervous System - An Update</i>	189
