About the Authors	iii
Preface	iv
Acknowledgments	v
A Note to Users	vi
I Competitive Markets	1
1 Supply and Demand	3
An Apple Market	3
Buying and Selling	3
Transactions, Rounds, and Sessions	5
Some Advice to Traders	5
Warm-up Exercise	6
Discussion of Experiment 1	7
In Search of a Theory	7
A Model of Competitive Markets	8
Graphing Supply and Demand	9
An Example	9
Making a Supply Table	10
Making a Demand Table	11
Drawing Supply and Demand Curves	11
Finding Equilibrium Price and Quantity	14
Profits of Buyers and Sellers	17
Reservation Prices and Consumers' Surplus	17
Calculating Profits and Consumers' Surplus	18
Other Implications of Competitive Theory	20

Who Trades in Competitive Equilibrium?	20
Efficiency and Competitive Equilibrium	21
Lookup Page for Supply and Demand Curves	23
Lab Notes for Experiment 1	25
Recording Transactions and Profits	25
Recording Market Fundamentals	25
Predictions of the Theory	28
Homework for Experiment 1	29
2 Shifting Supply	39
A Village Fish Market	39
Instructions	39
Warm-up Exercise	40
What Do You Expect to See?	41
Discussion of Experiment 2	42
Shifting the Supply Curve	42
What Happened to the Supply Curve?	42
What Happened to the Demand Curve?	44
An Example	44
Commodity Markets	44
Supply and Demand in the News	44
On the Economics of Farming and Fishing	46
Lab Notes for Experiment 2	48
Recording Transactions, Prices, and Profits	48
Recording Market Fundamentals	48
Computing Market Statistics	48
Homework for Experiment 2	53
II Market Intervention and Public Policy	57
3 A Sales Tax	59
Instructions	59
Warm-up Exercise	60
What Do You Expect to See?	61
Discussion of Experiment 3	62
The Effects of a Sales Tax	62
A Sales Tax Paid by Sellers	64
A Sales Tax Paid by Buyers	65
The Effects of Sales Taxes	67

Equivalence of Taxes Collected from Sellers and Buyers	67
Sharing the Burden of a Sales Tax	68
Profits, Tax Revenue, and Excess Burden	68
Tax Rates and Tax Revenue	73
The Effects of a Subsidy	75
Drawing the Curves	78
Lab Notes for Experiment 3	79
Recording Transactions, Prices, and Profits	79
Recording Market Fundamentals	79
Computing Market Statistics	79
Homework for Experiment 3	85
4 Prohibition	91
Instructions	91
Suppliers' Instructions	91
Demanders' Instructions	92
Warm-up Exercise	93
What Do You Expect to See?	94
Discussion of Experiment 4	95
Illegal Markets	95
Supply and Demand of Illegal Goods	96
How Does Confiscation and Destruction Affect the Supply Curve?	96
How Does Confiscation and Resale Affect the Supply Curve?	99
How Does Punishing Suppliers Affect Demanders?	99
Drug Policies that Affect the Demand Curve	101
Information and Treatment	101
Punishing Demanders	103
Effects of the War on Drugs	104
Topics for Discussion	106
Lab Notes for Experiment 4	108
Recording Market Fundamentals	108
Recording Prices and Buyer Values	108
Computing Market Statistics	108
Homework for Experiment 4	113
5 A Minimum Wage	119
Instructions	119
Workers' Instructions	119
Employers' Instructions	120

A Tip for Employers	121
Warm-up Exercise	121
What Do You Expect to See?	122
Discussion of Experiment 5	123
Labor Markets	123
The Marginal-Value Product Rule	123
Two Definitions and a Warning	124
A Working Example	124
A Firm's Labor Demand Curve	126
The Market Demand Curve for Labor	129
Labor Supply and Unemployment	129
Market Equilibrium with a Minimum Wage	130
Market Equilibrium with a Nonbinding Minimum Wage	133
Minimum Wage Laws in the News	133
Losers and Gainers from the Minimum Wage	134
Minimum Wages—Another Look	135
Price Floors in General	137
Rent Control and Price Ceilings	138
Lab Notes for Experiment 5	140
Recording Wages, Profits, and Unemployment	140
Recording Market Fundamentals	140
Calculating Market Statistics	140
Homework for Experiment 5	145
Experimental Results	145
Predictions of Supply and Demand Theory	146

III Imperfect Markets 153

6 Externalities 155	
A Polluting Economy	155
Instructions	155
Warm-up Exercise	157
Discussion of Experiment 6	159
Competitive Markets and Externalities	159
A Pollution Tax to Regulate Externalities	162
Marketable Pollution Permits	165
Supply and Demand for Pollution Permits (Optional)	165
A Remark on Information	167
Positive Externalities	168

Lab Notes for Experiment 6	171
Recording Market Fundamentals	171
Calculating Pollution Damage	175
Homework for Experiment 6	177
Prices, Quantities, and Profits—Experimental Outcomes . . .	177
Prices, Quantities, and Profits—Competitive Predictions . . .	180
7 Monopolies and Cartels	185
I'll Scratch Your Back	185
Session 1—Finding the Monopoly Output	185
Session 2—Cartel Behavior	186
Ticket Demanders' Instructions	186
Suppliers' Instructions	186
Session 3—Can the Cartel Endure Secrecy?	187
Session 4—The Cartel Offers Student Rates	187
Warm-up Exercise	188
Profit Maximization for a Monopoly	188
Profit Maximization for a Cartel	190
Student Discounts	190
What Do You Expect to See?	191
Discussion of Experiment 7	192
Monopoly	192
Comparing Monopoly and Competition	196
Cartels	198
Price Discrimination	200
Perfect Price Discrimination	200
Pricing in Separate Markets	203
Monopoly with Smooth Curves	205
Monopoly Pricing and Elasticity (Optional)	209
Food For Thought	210
Lab Notes for Experiment 7	212
Distribution of Demanders	212
Sales, Revenue, and Distribution of Buyer Values	213
Homework for Experiment 7	217
IV Firms and Technology	223
8 Entry and Exit	225
The Ins and Outs of the Restaurant Business	225

Instructions	226
Stage 1–To Open or Not to Open a Restaurant?	226
Stage 2–Posting Prices and Selling Meals	227
Later Rounds of Trading in Session 1	227
Session 2–Introducing a Sales Tax	227
Warm-up Exercise	228
What Do You Expect to See?	229
Discussion of Experiment 8	230
Realism and the Restaurant Experiment	230
The Short Run and the Long Run	231
The Short Run	231
The Long Run	232
Short- and Long-Run Equilibrium: An Example	232
Food for Thought	236
Lab Notes for Experiment 8	238
Recording Market Fundamentals	238
Recording Transactions, Prices, and Profits	238
Homework for Experiment 8	243
Short-Run Competitive Equilibrium–Session 1	243
9 Network Externalities	249
Instructions	249
A Network of Picture Phones	249
Competing Standards	250
New and Better	251
Warm-up Exercise	252
Warm-up for Session 1	252
Warm-up for Session 2	253
Warm-up for Session 3	254
Discussion of Experiment 9	255
Network Externalities	255
Shared Infrastructure	255
Network Externalities and Demand	256
The No-Regrets Demand Curve	257
Equilibrium with Network Externalities	258
Gaps Between Buyer Values	261
A Brief History of the Fax Machine	265
Competing Standards	267
Examples of Competing Standards	267
Network Externalities, Lock-in, and Innovation	269

Further Reading	271
Lab Notes for Experiment 9	272
Market Data for Session 1	272
Homework for Experiment 9	277
10 Measuring Productivity	283
Paper Airplane Factories	283
Instructions	283
Product Specifications	284
Production Rules	284
Warm-up Exercise	285
What Do You Expect to See?	285
Discussion of Experiment 10	287
Diminishing Returns	287
Inputs and Output	288
Food for Thought	289
Lab Notes for Experiment 10	291
Recording the Outputs of Firms	291
Homework for Experiment 10	293
11 Comparative Advantage	295
Two Island Economies	295
Session 1–Economies Without Trade	296
Session 2–Free Trade Between Countries	296
Warm-up Exercise	297
What Do You Expect to See?	298
Discussion of Experiment 11	299
The Free-Trade Debate	299
Absolute and Comparative Advantage	300
Production Possibilities and Trade	301
Individuals' Production Possibility Sets	302
National Production Possibility Sets Without Trade	304
International Production Possibility Set	305
Two Exercises on Comparative Advantage	307
Competitive Equilibrium with Free Trade	310
Comparative Advantage and Gains from Trade	312
The Tale of the Mad Inventor	312
Food for Thought	314
Lab Notes for Experiment 11	315
Recording Market Outcomes	315

Homework for Experiment 11	317
V Information, Auctions, and Bargaining	321
12 Adverse Selection	323
A “Lemons” Market	323
Instructions	323
Warm-up Exercise	326
Discussion of Experiment 12	327
Markets with Asymmetric Information	327
Adverse Selection	327
Moral Hazard	328
Demand and Supply in a Lemons Market	329
Example 1	329
Example 2	332
Lessons from Lemons	335
The Private and Social Value of Certification	335
Remarks on Multiple Equilibria	337
Food for Thought	338
Lab Notes for Experiment 12	340
Recording Sales Information	340
Homework for Experiment 12	343
13 Auctions	351
Four Kinds of Auctions	351
An English Auction	351
A Dutch Auction	352
A Sealed-bid, First-price Auction	353
A Sealed-bid, Second-price Auction	353
Warm-up Exercise	354
What Do You Expect to See?	355
Discussion of Experiment 13	356
Auctions in the Real World	356
Real-world Background of Experimental Auctions	357
Private Values in Auctions	358
Information Environments	358
English Auctions with Private Values	359
Sealed-bid, Second-price Auctions	359
Equivalence of Auctions	361

Reserve Prices	362
Common Values in Auctions	364
Two Common-Values Experiments	365
An Escalation Auction	366
Optimal Bidding Strategies (Optional)	368
Lab Notes for Experiment 13	370
An English Auction	370
Homework for Experiment 13	373
14 Bargaining	377
Deals for Wheels	377
Instructions	377
A Single Ultimatum	377
A Two-stage Bargaining Process	378
A Three-stage Bargaining Process	379
Warm-up Exercise	380
Discussion of Experiment 14	382
Session 1—The Ultimatum Game	382
Session 2—Two-stage Bargaining	385
Session 3—Three-stage Bargaining	386
Conclusion	387
Food for Thought	391
Lab Notes for Experiment 14	392
Recording Bargaining Outcomes	392
Homework for Experiment 14	397
A Further Economic Principles	401
A.1 Smooth Supply and Demand Curves	401
Algebra of Linear Supply and Demand Curves	401
A.2 Comparative Statics	403
A Market for Motel Rooms	403
Two Riddles about Supply and Demand	406
A.3 Elasticity of Demand and Supply	408
The Price Elasticity of Demand	410
Elastic and Inelastic Demand	412
The Price Elasticity of Supply	412
A.4 Demand Elasticity and Total Revenue	413
A.5 Taking It to the Limit (Optional)	416
A.6 Real-world Investigative Projects	420
