

TABLE OF CONTENTS

Preface	xi
Basic Research	
Single Trial Analysis of Cortical DC-Potentials Versus Conventional Averaging During Language Processing: Correlation to Behavioural Data <i>E. Altenmüller, J. Kahrs, and C. Thomas</i>	3
Cortical DC-Potentials During Mental Search for Synonyms Reveal Sex Differences <i>E. Altenmüller, H. Pfäfflin, and H. Uhl</i>	9
An Event-Related Potential (ERP) Analysis of the Effect of Sentence Context on the Repetition of Ambiguous Words <i>M. Besson and M. Kutas</i>	17
Localisation of the Intracranial Dipoles Caused by Perception of Complex Visual Stimuli <i>K. Bötzel, H. Plendl, and W. Paulus</i>	25
Animal Model of Mismatch Negativity <i>V. Csepe, G. Karmos, and M. Molnar</i>	29
Impulse Noise Effects on Evoked Responses from Hippocampus and Auditory Cortex <i>E. Emmerich and M. Biedermann</i>	35
First Observations of the Magnetic Contingent Negative Variation (CMV) Recorded by a Multichannel System <i>P.B.C. Fenwick, J. Vieth, P. Grummich, J. Lumsden, H. Kober, G.W. Fenton, and E. Weise</i>	41
An Exploration of Spatial Selective Attention During Reading <i>T.C. Gunter, J.L. Jackson, G. Mulder, and B.M. Buijink</i>	47
The Steady (DC) Potential of the Brain and Task-Related Slow Potential Shifts <i>R. Haschke, M. Tennigkeit, H.-J. Lehmann</i>	53

Effects of Auditory Priming and Word Frequency upon ERP and Task Performance During Word Recognition <i>A. Heine, N. Roth, Th. König, and M. Knye</i>	61
Dissociation of Auditory P300, Differential Brain Response to Target and Novel Nontarget Stimuli <i>J.S. Holdstock and M.D. Rugg</i>	71
Pattern Recognition and Parametrization of VEPS <i>M. Jobert and E. Poiseau</i>	79
Evidence for Intracortical Generation of the Auditory 40-HZ Response in the Cat <i>G. Karmos, J.P. Mäkelä, I. Ulbert, and I. Winkler</i>	87
Animal Model of Middle Latency Auditory Evoked Responses - Intracortical Generators of the Mismatch Negativity <i>G. Karmos, I. Winkler, M. Molnár, and V. Csépe</i>	95
P300 Component of Event-Related Brain Potentials Elicited by Visual and Auditory Stimuli-Application of Scalp Current Density Mapping <i>L. Kircheis, P. Ullsperger, K. Grune, M. Mölle, and T. Baldeweg</i> .	103
Do ERPS Predict Later Recognition Performance?: Report of Three Failures <i>A. Knehans, T.F. Münte, and H.J. Heinze</i>	111
Event-Related Potentials in Response to Acoustic Stimuli Moving in the Horizontal and Vertical Plane <i>B. Kukowski and K.-P. Schäfer</i>	121
Single-Trial Analyses of Auditory Evoked and Potentials Fields <i>B. Lütkenhöner, C. Pantev, and M. Hoke</i>	125
In Search of the Internal Model: P300 Amplitude in a Multiple Stimulus Paradigm <i>A. Mecklinger, P. Ullsperger, and T. Baldeweg</i>	131
Presaccadic Cortical Potentials and the Type of Saccadic Eye Movements <i>Th. Mergner, C.H. Lücking, and I. Evdokimidis</i>	137
Contributions of Stimulus-Evoked Increases in Extracellular Potassium to Cortical Field Potentials <i>U. Mitzdorf</i>	147

Emotionality and the Late Positive Complex of the Event-Related Potential <i>E. Naumann, D. Bartussek, O. Diedrich, D. Vogelbacher, and S. Mehrrens</i>	157
Spatio-Temporal Difference of Brain Potentials According to Positive Versus Negative Emotional Stimulation <i>W. Pfleger, D. Schellberg, C. Besthorn, and T. Gasser</i>	163
P300 and Cortical Disfacilitation <i>B. Rockstroh, M. Müller, R. Cohen, and T. Elbert</i>	169
Challenging the Neurochemical Model of the Contingent Negative Variation (CNV) <i>A. Rothenberger, C. Dumais-Huber, H. Müller, and W. Müller</i>	173
Human Information Processing: Continuous Flow or Discrete Stages? <i>H.G.O.M. Smid</i>	181
ERPS and CNV Influenced by Preceding Slow Potential Shifts (PSPS): Effects of Intertrial-Interval <i>M. Trimmel</i>	189
Effects of Memory Load on P3 Latency: Dependent on Perception and Response? <i>R. Verleger, F. Flössel, and R. Groggel</i>	197
Sequential Analysis of Pitch Discrimination and ERPS During Auditory Selective Attention and Distraction: Evidence for Facilitation and Inhibition <i>M. Wagner, K. Alho, J. Lavikainen, K. Reinikainen, W. Teder, and R. Näätänen</i>	203
Visual Evoked Potentials and Slow Potential Shifts in Rabbits- Is there a Relation to the Actual Cortical Activation Level? <i>C. Wicher, F. Richter, A. Leichsenring, W. Haschke</i>	213
Event-Related Brain Potentials to Infrequent Partial Omissions in Series of Auditory Stimuli <i>I. Winkler and R. Näätänen</i>	219

Clinical Applications

Test-Retest Reliability and Age Effects of CNV
and PNV in School Children

C. Dumais-Huber, W. Woerner, and A. Rothenberger 229

P300 Amplitude is Correlated with the Negative
Syndrome of Schizophrenia

G. Eikmeier, E. Lodemann, D. Zerbin, M. Gastpar, and J. Pach . 237

Cognitive Potentials in Abstinent and Relapsed Alcoholics:
P300 and 'P600'

*H. Frank, R. Mader, R. Marx, B. Marx,
M. Fritsch, and E.Ch. Zach* 245

Left Hemispheric Laterilization of the Bereitschafts Potential
in Endogenous Depressives

C. Haag, G. Laakmann, and W. Günther 253

P300 Decline in Progressive Mental Deterioration:
Neurophysiological Findings in a Patient with Suspect
Creutzfeldt-Jakob-Disease (C-J-D)

H.C. Hansen, S. Zschocke, and K. Kunze 259

Anticholinergic Agents and P300 Wave - A Pilot
Study with Biperiden

G. Heinz, A. Haaß, and M. Karst 267

Chemosensory Evoked Potentials in Patients
with Parkinson's Disease

T. Hummel, G. Kopal, and T. Mokrusch 275

Triiodothyronine Effects on Event-Related Potential
Correlates of Selective Attention

K. Kathmann, I. Rohn, M. Bommer, M. Wagner, and R.R. Engel . 283

Bereitschaftspotentials in Patients with
Cerebral Ischemia

C. Kessler, R. Verleger, D. Stamm, and D. Kömpf 289

Impaired Visual Information Processing in Patients
with Phenylketonuria. Results of a Clinical Study Using ERP

J. Pietz, A. Kutscha, B. Kobialka, B. Kobialka, and D. Sontheimer 297

Visual and Auditory P300 in a Case of Bilateral Destruction of the Medial Temporal Lobes Following Viral Encephalitis <i>D.D. Potter, C.D. Pickles, R.C. Roberts, M.D. Rugg, K.A. Paller, and A.R. Mayes</i>	303
P3-Waves Recorded Prior to and During Intracarotid Amobarbital Test (WADA Test) Using Surface and Subdural Electrodes <i>B.M. Reuter, M. Kurthen, D. Linke, C.E. Elger, and H.F. Durwen</i>	313
Event-Related Potential Correlates of Selective Attention in Children at Genetic Risk for Schizophrenia <i>H. Schreiber, G. Stolz-Born, H.H. Kornhuber, and J. Born</i>	319
The Effects of Amantadine on Event-Related Potentials (P300) in Mild Dementia <i>H.V. Semlitsch, P. Anderer, and B. Saletu</i>	325
Recovery from Aphasia in Stroke Patients: Transient Right-Hemisphere Activation During Language Processing <i>C. Thomas, E. Altenmüller, and G. Marckmann</i>	331
The Pattern of Delayed Components Differs Between Normal Aging and Senile Dementia <i>R. Verleger, D. Kömpf, and W. Neukäter</i>	337
Late Cognitive Event-Related Potentials in Adult Down's Syndrome <i>P. Vieregge, R. Verleger, H. Schulze-Rawa, and D. Kömpf</i>	345
Event-Related Potentials in Alzheimer's Disease <i>R. Zimmer and H. Walther</i>	351
Contribution of Magnetoencephalography to the Further Understanding of the Voluntary Movement Organization <i>R. Kristeva, D. Cheyne, and L. Deeke</i>	359
Significance of the Amplitude and Area Measure (Integral) in the Visual P300-Complex <i>A. Taghavy, H. Hamer, and A. Krätzer</i>	365
The "Bereitschaftspotential" is Abnormal in Cerebellar Ataxia <i>K. Wessel, R. Verleger, G.P. Huss, D. Nazarenius, and D. Kömpf</i>	371
