Contributors xi  
Preface xiii

## 1

---

### **The Neurology of Inhibition: Integrating Controlled and Automatic Processes**

Robert Rafal and Avishai Henik

I. Introduction 1  
II. Inhibitory Mechanisms in Spatial Orienting 3  
III. Neural Mechanisms for Exogenous and Endogenous Orienting 12  
IV. Summary of Inhibitory Effects in Spatial Orienting 29  
V. Inhibitory Mechanisms in Word Processing 30  
VI. Concluding Remarks 43  
References 44

## 2

---

### **A Model of Inhibitory Mechanisms in Selective Attention**

George Houghton and Steven P. Tipper

I. Introduction 53  
II. Theories of Attention 54  
III. A Model of the Dynamics of Selective Attention 64  
IV. Model Simulations 79  
V. Conclusions 106  
References 107

**3**

---

**Categories of Cognitive Inhibition with  
Reference to Attention****Raymond M. Klein and Tracy L. Taylor**

- I. Introduction 113
- II. Inhibition in the Conceptual Nervous System 114
- III. Reduced Access to Attention 117
- IV. Reduced Activation Level of a Psychological Pathway 122
- V. Reduced Ability of a System to Function 132
- VI. Inhibition of Return: Inhibition of Attention 134
- VII. Epilogue 145
- References 147

**4**

---

**Temporal Allocation of Visual Attention:  
Inhibition or Interference?****Kimron L. Shapiro and Jane E. Raymond**

- I. Introduction 151
- II. RSVP Techniques 152
- III. The Attentional Blink 159
- IV. A Similarity-Based Model of the Attentional Blink 173
- V. Related Phenomena 178
- VI. Conclusions 184
- References 186

**5**

---

**On the Ability to Inhibit Thought and Action:  
A Users' Guide to the Stop Signal Paradigm****Gordon D. Logan**

- I. Introduction 189
- II. The Stop Signal Paradigm 189
- III. Stop Signal Inhibition 192
- IV. Ballistic Processes and the Point of No Return 194
- V. Complicating the Stopping Process 199
- VI. Aftereffects of Inhibition 204
- VII. Mechanisms of Inhibition 205
- VIII. The Race Model 207

- IX. Setting Stop Signal Delay 222
- X. Detecting Deficient Inhibition 232
- XI. Stopping in the Future 235
- References 236

## 6

---

### **Directed Ignoring: Inhibitory Regulation of Working Memory**

Rose T. Zacks and Lynn Hasher

- I. Introduction 241
- II. Ignoring Concurrent Environmental Distraction 244
- III. Ignoring To-Be-Forgotten Material:  
Directed Forgetting Studies 245
- IV. Ignoring No Longer Relevant Material 248
- V. “Enriched” Working Memory Contents and Retrieval from  
Long-Term Memory: The Fan Effect 256
- VI. Broader Implications and Conclusions 259
- References 261

## 7

---

### **Mechanisms of Inhibition in Long-Term Memory: A New Taxonomy**

Michael C. Anderson and Robert A. Bjork

- I. Introduction 265
- II. Retrieval-Induced Forgetting as a Paradigm Case of  
Retrieval Inhibition 268
- III. Models of Retrieval Inhibition: A New Taxonomy 270
- IV. A Criterion for Inhibition in Long-Term Memory 308
- V. Three Challenges for a Theory of Retrieval Inhibition 312
- VI. Summary and Conclusions 318
- References 320

## 8

---

### **Inhibitory Processes in Perceptual Recognition: Evidence for a Center-Surround Attentional Mechanism**

Dale Dagenbach and Thomas H. Carr

- I. Introduction 327

- II. Semantic Memory and Modifications 328
- III. Alternative Accounts of Semantic Memory and Priming 334
- IV. Empirical Studies of Inhibitory Semantic Priming 336
- V. Tests of the Failed Retrieval Hypothesis in Vocabulary Acquisition Studies 341
- VI. Tests of the Center-Surround Theory 345
- VII. Conclusions 353
- References 355

## 9

---

### **Inhibitory Processes in the Recognition of Homograph Meanings**

Greg B. Simpson and Hyewon Kang

- I. Introduction 359
- II. Context Effects and Ambiguity: A Brief Review 360
- III. The Context of Repetition 363
- IV. Summary and Conclusions 376
- References 378

## 10

---

### **Phonological Inhibition in Auditory Word Recognition**

Kathleen M. Eberhard

- I. Introduction 383
- II. Cohort and TRACE Models of Auditory Word Recognition 385
- III. An Examination of the Empirical Evidence 393
- IV. Additional Sources of Empirical Evidence 396
- V. An Examination of the Evidence from Phonological Priming Studies 399
- VI. Summary and Conclusions 404
- References 406

## 11

---

### **Inhibition in Interactive Activation Models of Linguistic Selection and Sequencing**

Gary S. Dell and Padraig G. O'Seaghdha

- I. Introduction 409
- II. Interactive Activation 411

III. Functions of Inhibition in Interactive Activation Models of Language Production	412
IV. Paradigmatic Choices and Lateral Inhibition	414
V. Syntagmatic Processes	427
VI. Summary and Conclusions	447
References	448
Index	455
