<i>List of Figures</i>	viii
<i>Preface</i>	xv
<i>Acknowledgements</i>	xvi
Introduction	1
The schism between quantitative and qualitative perspectives	1
Two quantitative perspectives	2
Orientation	11
The International Social Survey Program	11
Introduction to the workbook	13
Introduction to SPSS for windows	13
Getting started on SPSS	14
Some minor adjustments to SPSS	18
Loading a data file	19
Saving to a disk	25
Printing your SPSS output	27
1	29
Data Input	29
Cases and variables	29
'Rectangular' format	30
Inputting data into SPSS	31
Editing data	44
Conclusion	49
2	53
Listing and Exploring Data	53
Introduction	53
Levels of measurement	53
Frequency tables	54
Measures of central tendency	57

	Measures of dispersion	58
	Descriptive statistics and charts in SPSS	59
	Other graphs and charts	72
3	Data Selection and Manipulation	87
	Introduction	87
	Data selection	87
	Weighting	98
	Data manipulation	99
	Altering individual codes or groups of codes (recode)	101
	Arithmetical operations on a variable's codes (compute)	112
	If – using logical statements to create a new variable	113
	Transformations using count	118
	New variables	120
4	Hypothesis Testing and t-Tests	123
	Confirmatory statistics	123
	Confirmatory statistics: t-tests	127
5	Crosstabulation	141
	Introduction	141
	The Chi-square (χ^2) test	144
	Measures of association	145
	Crosstabs in SPSS	145
	Chi-square: a second example	150
6	Multiple Response Sets	161
	Introduction	161
	Using multiple response	166
	Conclusion	180
7	Analysis of Variance (ANOVA)	183
	Introduction	183
	How to do a simple ANOVA using SPSS	184
	Two-way analysis of variance (ANOVA)	189
	Conclusion	198
8	Correlation and Regression	199
	Scattergrams	199
	Pearson's product-moment correlation coefficient (r)	204
	Regression	209
	Conclusion	239

9	Factor Analysis	241
	Introduction	241
	Using factor analysis in SPSS	242
10	Logistic Regression	257
	Binary logistic regression – worked example	258
	Multinomial logistic regression – worked example	269
11	Loglinear Analysis	279
	Introduction	279
	Loglinear analysis – specific examples with SPSS	282
	Conclusion	302
Conclusion		305
	Choosing the correct statistical test	306
	A note of caution	308
	<i>Appendix 1 The Dataset Variables: A Quick Guide</i>	311
	<i>Appendix 2 SPSS Syntax</i>	341
	<i>Glossary</i>	347
	<i>References</i>	357
	<i>Index</i>	359
