

Contents

<i>Chapter 1</i>	
Introduction	1
Food Law	2
The Scope of Sugar Confectionery	3
Health and Safety	3
<i>Chapter 2</i>	
Basic Science	5
Stability	5
Colligative Properties	6
pH	7
Polarimetry	8
The Maillard Reaction	9
Densimetry	13
Refractive Index	14
Analytical Chemistry	14
Water Content	14
Sugar Analysis	16
Emulsions	18
The Chemistry of Oils and Fats	19
References	22
<i>Chapter 3</i>	
Ingredients	23
Sugars	23
Dairy Ingredients	28
Vegetable Fats	33
Gums and Gelling Agents or Hydrocolloids	35
Chewing Gum Ingredients	58

<i>Chapter 4</i>	
Emulsifiers, Colours and Flavours	59
Emulsifiers	59
Colours	65
Flavours	75
Reference	80
<i>Chapter 5</i>	
Confectionery Plant	81
Steam Injection Cooking	82
Vacuum Cooking	83
Continuous Plant	84
<i>Chapter 6</i>	
Sugar Glasses in the Chemistry of Boiled Sweets	85
The Formulation of Boiled Sweets	86
Manufacturing Processes for Boiled Sweets	88
<i>Chapter 7</i>	
Grained Sugar Products	92
Fondant	92
Fudge	93
Chocolate-covered Liqueur Sweets	93
<i>Chapter 8</i>	
Pan Coating	95
Hard Panning	96
Soft Panning	97
Problems in Coating Almonds and Other Nuts	98
Glazing and Polishing	98
Process Control Systems	99
Automated Systems	99

*Chapter 9***Toffees and Caramels**

101

Cooking Toffees

102

A Typical Toffee

103

The Process

106

Toffee as an Ingredient of Other Products

108

*Chapter 10***Gums, Gelled Products and Liquorice**

110

Pastilles, Gums and Jellies

110

Making Gums and Jellies

112

Liquorice

118

*Chapter 11***Chewing Gum**

124

Gum Base Characteristics

124

Texturisers

125

Antioxidants

125

Sugars

125

Loss or Gain of Moisture

126

Flavours

127

*Chapter 12***Aerated Products**

128

Marshmallows

128

Nougat

129

*Chapter 13***Sugar-free Confectionery**

131

Laxative Effects

132

The Sugar Substitutes

133

Making Sugar-free Products

138

Reducing the Energy Content

139

Sugar-free Products

139

Controlled Calorie Products

142

<i>Chapter 14</i>	
Lozenges	144
Making Lozenges	145
Drying	145
Cream Paste	146
<i>Chapter 15</i>	
Tabletting	148
Granulation	148
Avoiding Granulation	150
Tabletting Additives	150
<i>Chapter 16</i>	
Experiments	151
Health and Safety	151
Sugar Crystallisation Experiments	151
Lozenge Making	153
Fudge (or Grained Caramel)	154
<i>Chapter 17</i>	
The Future	157
Subject Index	158
