Preface.....	vii
--------------	-----

Keynote Lecture

Biodiversity patterns in cultivated landscapes: experiences and first results from a nationwide Austrian survey

Th. Wrбка, E. Szerencsits, D. Moser and K. Reiter.....	3
---	----------

Session 1. Spatio-temporal heterogeneity in land-use processes

Detection of forest fragmentation gradients and intensities

J. Bogaert, D. Salvador-Van Eysenrode, P. Van Hecke and I. Impens.....	21
---	-----------

Modelling the contribution of land cover and crop heterogeneity to biodiversity in a Scottish river catchment

P. Dennis, I. S. Downie, A. L. Milligan, K.J. Murphy, D.I. McCracken, J.A. Milne, G.N. Foster, A. Waterhose and R.W. Furness.....	31
--	-----------

Prospects and limitations of the application of landscape metrics for landscape monitoring

F. Herzog and A. Lausch.....	41
-------------------------------------	-----------

Landscape heterogeneity and multiple scale nature of ecological continuity in planning for equitable landscape change

P. Mariota, Mv. Mininni and F. Papadimitriou.....	51
--	-----------

Session 2. Landscape patterns: mapping and modelling

Describing variation in the spatial pattern of British landscapes using data from Countryside Surveys

M. Gillespie, C. Barr, D.C. Howard and R.G.H. Bunce.....	65
---	-----------

Landscape structure and scale: comparative studies on some landscape indices in Germany and the UK

T. Blaschke and J. Petch.....	75
--------------------------------------	-----------

<i>Biodiversity patterns in cultivated landscapes: modelling and mapping with GIS and multivariate statistics</i>	
Ph. Jeanneret, B. Schüpbach, A. Lips, J. Harding, J. Steiger, M. Waldburger, F. Bigler and P.M. Fried	85
<i>A GIS approach linking grassland community types and landscape position on the South Downs</i>	
N.G. Burnside, R.F. Smith and S. Waite	95
Plenary lecture	
<i>Population dynamics in heterogeneous landscapes: towards a theoretical framework</i>	
D.J. Murrel, R. Law and C. Dytham	107
Session 3. Ecological dynamics of landscape-species interactions	
<i>The role of animal decisions in the development of vegetation dynamics</i>	
J.A. Beecham, S.P. Oom and A.J. Hester	121
<i>The colonization of wild flower strips by insects (Heteroptera)</i>	
K.S. Ullrich and P.J. Edwards	131
<i>Amphibian habitat fragmentation – a case study of an area and the consequences for a translocated five species community</i>	
J. Taylor, S. Banister, R. Parkinson and L. Eccles	139
Session 4. Evaluation and planning of landscape character	
<i>Changing approaches to landscape character evaluation and their implications for landscape ecological planning</i>	
P.H. Selman	151
<i>Drawing on natural capital: a landscape ecological model for countryside access in the Sussex Downs & East Hampshire AONBs</i>	
C.L. Wale, R.H. Haines-Young, C. Watkins and A.P. Murdoch	159
<i>River patterns in landscapes</i>	
S.M. Haslam	169

Session 5. Management and restoration of diverse landscapes

<i>A habitat restoration trial in farmland in lowland England</i> R.C. Thomas and J.P. Isaacs	179
<i>Application of landscape ecological concepts for the restoration of the woodland habitat in Sherwood Forest</i> P. Nikolakaki and N. Dunnett	189
Closing lecture	
<i>Heterogeneity at the landscape scale across Europe</i> R.G.H. Bunce, D.C. Howard and J.W. Watkins	201
Poster papers	
<i>The use of metapopulation models and GIS in environmental studies preceding linear infrastructure construction</i> G. Pain, J. Baudry and F. Burel	213
<i>Landscapes for biodiversity: landscape character & ecological integrity</i> E.A. Simmons, G.H. Griffiths and S. Warnock	219
<i>Habitat fragmentation in England's ancient woods: implications for managing biodiversity</i> S.-A. Bailey, R.H. Haines-Young and C. Watkins	225
<i>The role of farm woodlands in local biodiversity action plans</i> D. van der Horst, A. Gimona and G.P.A. Willems	233
<i>Spatial patterns of gastropod occurrence and herbivory in a field-scale habitat mosaic in winter</i> E.J.P. Marshall, A.J. Grant and S. Fairburn	239
<i>Heterogeneity in berry abundance along a species-rich hedgerow: sampling methods and spatial patterns</i> M.J. Maudsley, T.M. West and E.J.P. Marshall	245

<i>The dynamics of land use diversity in Thailand</i> F.Th. Papadimitriou and P. Mairota	251
<i>Geometrical modelling and mapping of ecological data: three unsolved geometrical problems in landscape ecology</i> F.Th. Papadimitriou	259
Poster abstracts	
<i>Dispersal and establishment limitation of species in differently managed grasslands: experimental approach and preliminary results</i> S. Studer, P.J. Edwards, E. Meister and B. Koch	267
<i>Enhancing insect diversity in agricultural grasslands: the role of management and landscape structure</i> M. Di Giulio, P.J. Edwards and E. Meister	269
<i>Evaluation of biodiversity in agricultural landscapes</i> N. Millan-Peña, A. Wolff, F. Burel, J. Baudry and A. Butet	271
<i>Monitoring land cover change in Scotland: the limits of detectability for semi-natural vegetation</i> A.J. Comber, R.V. Birnie and M. Hodgson	273
<i>Insect communities in newly-created woodlands</i> J. Dunn, C. Dytham and R. Law	275
