1	The boundaries of awareness	6
	<i>The neural substrate</i>	7
	<i>Anatomy</i>	9
	<i>Electrical activity</i>	11
	<i>Chemistry</i>	13
	<i>Information processing</i>	14
	<i>Exotica</i>	16
	<i>The unconscious</i>	18
	<i>Sleep</i>	19
	<i>Hysterical and related phenomena</i>	20
	<i>Psychosis</i>	21
	<i>Regional energy use</i>	23
	<i>Neurological abnormalities</i>	24
	<i>Conclusions</i>	27
2	Time and awareness	31
	<i>Minimum perceptual duration</i>	32
	<i>EEG temporal codings</i>	34
	<i>Evoked potentials</i>	36
	<i>The libet experiments</i>	37
	<i>Conclusions</i>	41
3	The nature of matter	44
	<i>Complex numbers</i>	45
	<i>Collapse of the wave function</i>	46
	<i>How real is the wave function?</i>	50
	<i>Non-locality</i>	52
	<i>Bose–Einstein condensates</i>	53

	<i>Time in quantum theory</i>	54
	<i>Conclusions</i>	56
4	Various theories	59
	<i>Traditional dualism</i>	60
	<i>The mainstream</i>	61
	<i>Penrose</i>	66
	<i>Quantum consciousness?</i>	68
	<i>Marshall</i>	70
	<i>Brain quantum objects and the qualia problem</i>	73
	<i>Conclusions</i>	76
5	On the track of awareness	81
	<i>EEG coherence studies</i>	83
	<i>The Southampton experiments</i>	85
	<i>'Psi' experiments</i>	90
	<i>Conclusions</i>	92
6	Free will, free won't and other topics	95
	<i>Attention</i>	99
	<i>Sleep, dreams and hallucinations</i>	101
	<i>Understanding</i>	103
	<i>Beauty</i>	105
	<i>Conclusions</i>	107
7	The functions of awareness	109
	<i>Biological perspectives</i>	109
	<i>What might awareness do for the brain?</i>	112
	<i>The 'quantum society' revisited</i>	115
	<i>What does the brain do for awareness?</i>	117
	<i>Conclusions</i>	119
8	Medicine and the PM paradigm	121
	<i>Psychosomatic medicine</i>	122
	<i>Are there any psychic illnesses?</i>	125
	<i>Archetypes</i>	131
	<i>Cures for the psyche?</i>	133
	<i>Treatment settings</i>	140
	<i>Conclusions</i>	145
9	Towards a science of the soul?	148
	<i>Glossary</i>	155
	<i>Name index</i>	162
	<i>Subject index</i>	164
