

CONTENTS

PART I. METHODS AND RESULTS

CHAPTER	PAGE
I. PURPOSE, METHODS, AND PERSONNEL	3
Two approaches to the problem of genius, 3. Purposes of the follow-up investigation, 7. Schedule of tests and information, 8. Personnel, 11. Sources of error, 12.	
II. FOLLOW-UP PROCEDURES	13
General aims of the field work, 13. Classification of gifted groups, 14. Cases followed personally and cases followed by correspondence, 16. Work schedule of field assistants, 18. Data collected, 19.	
III. RETESTS OF INTELLIGENCE	23
Stanford-Binet retests, 24. Parents' estimates of gain or loss in ability, 27. Correlation between test and retest, 28. Terman Group Tests, 30. Thorndike College Entrance Examination, 37. Retests of children whose IQ's changed significantly, 41. School achievement of subjects showing IQ drop, 47. Possible causes of IQ changes, 51. Health, 51. Personality traits, 52. Race, 53. Environmental factors, 55. Mental growth rate, 56. Nature of the Stanford-Binet Test, 58. Sex as associated with decrease in IQ, 60. Conclusion with respect to cause of IQ changes, 60. Summary, 61.	
IV. EDUCATIONAL PROGRESS	63
Present educational status, 64. Educational plans, 68. Regularity of school attendance, 71. Attitude toward school, 73. Time devoted to study, 76. School ratings on scholarship, 78. Abilities reported by the home, 82. Summary, 83.	
V. TESTS OF SCHOLASTIC ACHIEVEMENT	85
Stanford Achievement Test scores, 86. Stanford Test in Comprehension of Literature, 87. Hotz First-Year Algebra Scales, 91. Iowa High-School Content Examination, 94. Summary, 98.	
VI. ACHIEVEMENT AS INDICATED BY GRADES	100
High-School graduates, 100. College students, 103. Graduation honors, 107. Summary, 108.	
VII. SCHOLASTIC AND OTHER INTERESTS	110
Scholastic interests, 110. Reading interests, 114. Use of leisure time, 118. Collections, 123. Offices and honors, 125. Influences recognized by subjects, 127. The Wyman Interest Test, 129. Summary, 131.	

CHAPTER	PAGE
VIII. VOCATIONAL PLANS AND VOCATIONAL ACHIEVEMENT	134
Vocational plans, 134. Paid employment of gifted subjects, 137. The Strong Occupational Interest Test, 139. The Stanford Scientific Aptitude Test, 144. Summary, 146.	
IX. SOCIAL AND PERSONALITY TRAITS	148
Woodworth-Cady Questionnaire, 149. Watson Test of Fair-Mindedness, 151. Masculinity-Femininity Test, 153. Social Intelligence Test, 162. Other data on social traits, 164. Social adjustment of subjects with highest IQ's, 172. Data on moral traits, 177. Summary, 181.	
X. RATINGS ON PERSONAL TRAITS AND HOME CONDITIONS	184
Trait ratings by parents and teachers, 184. Rank order of the traits, 191. Ratings by field visitors, 192. Illustrative ratings, achievement, 196. Illustrative ratings, social adjustment, 200. Illustrative ratings, environment, 203. Summary, 207.	
XI. HEALTH HISTORY AND VITAL STATISTICS	209
Follow-up reports on health, 209. Vital statistics, 216. Summary, 217.	
XII. FAMILY STATISTICS AND SIBLING TESTS	219
Occupations of fathers, 219. Occupations of mothers, 220. Parental mortality, 220. Divorces, separations, and remarriages, 221. Tests of siblings, 222. Sex ratio among siblings, 225. Summary, 226.	
XIII. THE HIGH SCHOOL AND SPECIAL ABILITY GROUPS	227
The 1921-22 High School group, 227. Age-grade status, 227. Educational plans, 228. Vocational plans and achievements, 230. Social data, 234. Deaths, 235. Engagements and marriages, 235. Offspring, 236. Vocational plans, 236. Husbands and wives of gifted subjects, 237. Present situation of married subjects, 239. The 1921-22 Special Ability group, 239. Summary, 241.	

PART II. CASE STUDIES

XIV. THREE GIFTED GIRLS	247
Introductory statement regarding the case studies, 247. A phenomenally early reader, 248. A typically normal gifted child, 252. A superior scholastic record, 254.	
XV. SCHOOL ACCELERATION AND SOCIAL ADJUSTMENT	256
A case of brilliant achievement combined with social balance, 257. A gifted leader, 259. A case of unwise acceleration, 262. The social handicap of high IQ, 264. A Bachelor of Arts at sixteen, 266. Brilliant and well adjusted, 268.	

CHAPTER	PAGE
XVI. DETERIORATION OF IQ OR ACHIEVEMENT	272
Two outstanding cases of decrease in IQ, 272. A case of moderate deterioration of IQ and achievement, 275. Superior intelligence with inferior scholarship, 277. A case of inferior scholarship due to indolence, 279. Inferior scholarship due to competing interests, 281.	
XVII. THE CONQUEST OF OBSTACLES	283
A case of frailty, lameness, poverty, bad heredity, and sordid environment, 283. A gifted Negro girl, 286. The offspring of a Japanese-American marriage, 289.	
XVIII. SOME TWINS AND OTHER SIBLINGS	298
A pair of identical twins, 298. Fraternal twins of unequal brightness, 300. Two sisters of unequal brightness, 302. A prize family, 303.	
XIX. BEHAVIOR AND PERSONALITY PROBLEMS	306
A disharmonic personality, 306. Emotional instability, possibly of glandular origin, 309. Unfortunate heredity and environment at its worst, 310. An unstable girl, 316. A broken reed, 319.	
XX. FIVE MUSICIANS	322
A musical composer, 322. A pianist and composer, 324. A pianist, 326. A girl violinist with masculine interests, 326. A boy musician with marked femininity of interests, 328.	
XXI. YOUTHFUL ZEALOTS	330
Our most masculine girl, 330. Two zealous collectors, 331. Four devotees of science, 334.	
XXII. THE PROMISE OF BABYHOOD AND THE FULFILLMENT OF YOUTH	340
The first twenty-five months of P. J. B.'s life (by her father, Verne B. B.), 341. Drawings of P. J. B. at two years, 346 and 347. P. J. B. at age fifteen (by Barbara Burks), 350. M., poet and sister of P. J., 354. Siblings of P. J. and M., 357.	

PART III. A STUDY OF LITERARY JUVENILIA

XXIII. DERIVATION OF A TENTATIVE SCALE FOR RATING LITERARY JUVENILIA	361
Purpose of the study, 361. Selection of subjects and of juvenilia, 362. The raters and their instructions, 367. Tentative scale used, 370. Treatment of results, 370. Intercorrelations of ratings, 374. Table of ratings, 376. Validity and reliability of ratings, 379. Ranking of fourteen gifted subjects in literary performance, 380. Summary, 382.	

CHAPTER	PAGE
XXIV. THE TENTATIVE SCALE AND ITS USE	383
Scale value 110 (Byron), 384. Scale value 102 (Byron, Hamilton), 385. Scale value 88 (Bryant, Wanda), 386. Scale value 73 (Ethel), 391. Scale value 64 (Margaret, Vivian), 392. Scale value 54 (James), 393. Scale value 47 (Hawthorne), 397.	
XXV. RESULTS OF RATINGS, WITH ILLUSTRATIONS	399
Table of average ratings of individual juvenilia, 399. "The Place I'd Like to Be" (Verda, age 5), 402. "My Prayer" (Beatrice, age 7), 402. "Olans the Great" (Macaulay, age 8), 402. "The Mountains" (Verda, age 10), 403. "After a Total Eclipse of the Sun" (Bryant, age 10), 403. "In Awful Ruins Aetna Thunders Night" (Scott, age 11), 404. "Music under Pines" (Beatrice, age 11), 404. "Ode to Solitude" (Pope, age 12), 405. "Fable of the Missionary" (Beatrice, age 12), 405. "Moderate Views" (Hawthorne, age 12), 406. "Lines to the Memory of Sir William Pitt" (Macaulay, age 13), 407. "Christmas" (Wanda, age 13), 407. "A Glove" (Beatrice, age 13), 408. "The Battle of Lovell's Pond" (Longfellow, age 13), 409. "On the Death of a Young Lady" (Byron, age 14), 409. "A Letter" (Bryant, age 14), 410. "An Ode" (Cowper, age 14), 410. "Pattern" (Jeanette, age 15), 411. "The Rainbow" (Ruth, age 15), 411. "First Advent of Love" (Coleridge, age 15), 412. "Night" (Edith, age 15), 412. "Irish Melody" (Thackeray, age 15), 413. "Paraphrase of Psalm CXIV" (Milton, age 15), 413. "Death" (Edith, age 16), 414. "To the Author of the _____ Journal" (Franklin, age 16), 415. "To a Young Lady on Her Birthday" (Johnson, age 16), 417. "Handsome Nell" (Burns, age 17), 418. "An Evening Walk" (Wordsworth, age 17), 419. "Queen Mab" (Shelley, age 18), 420. "The Deity" (Whittier, age 18), 421. "The Happiest Day, the Happiest Hour" (Poe, age 18), 422.	
XXVI. CASE NOTES ON GIFTED JUVENILE WRITERS	423
Beatrice, 423. Edith, 426. Ethel, 428. Jeanette, 430. Ruth, 432. Verda, 434. Wanda, 436. Robert Browning, 438. William Cullen Bryant, 440. Philip M. Freneau, 441. Oliver Wendell Holmes, 442. John Keats, 443. James Russell Lowell, 445. Edgar Allan Poe, 446. Percy Bysshe Shelley, 447. Henry David Thoreau, 449. John Greenleaf Whittier, 450.	
XXVII. THE PREDICTION OF LITERARY ACHIEVEMENT	452
Value of a rating scale for literary merit, 452. What the use of the tentative scale has shown, 453. A search for possible differentiating factors, 454. References, 459.	

PART IV. SUMMARY

CHAPTER	PAGE
XXVIII. RETROSPECT, PROSPECT, AND SUMMARY	463

Circumstances favoring the investigation, 463. Program for future research, 464. Is the rôle of genius diminishing? 467. Specific aims of the present researches, 469. Definition of the group for which the conclusions are valid, 470. Sex ratio in the gifted group, 471. Composite protrait of the gifted child, 472. Relative permanency of the characteristic traits of gifted children, 475. Individual changes in rate of intellectual growth, 475. Other deviations from central tendencies of the group, 477. The case studies, 478. Miscellanea, 479.

APPENDIX

BLANKS USED IN GIFTED CHILDREN FOLLOW-UP	485
--	-----

Home Information Blank (for parents of children up to and including nineteen years old), 485. Interest Blank, 1927-1928 (for children under twenty years old), 489. Information Blank (for children of twenty years or over; combines Home Information Blank and Interest Blank), 491. Trait-Rating Blank (for parents of Regular and Outside-Binet and Special Ability cases under twenty; for teachers of children not yet in college), 493. School Information Blank (for teachers of children not yet in college), 497. Report on Home Visit (for Regular, Outside-Binet, and Special Ability cases within field workers' range), 499. Report on Conference with Teacher (for school visits of Regular, Outside-Binet, and Special Ability cases in field workers' range, and not yet in college), 499. Report on Conference with child (for child visits of Regular, Outside-Binet, and Special Ability cases in field workers' range), 500. Supplementary Blank (sent to subjects who were married), 500.
