

Brief Contents

Part One Introduction and Fundamental Issues

- 1** Introduction and Historical Overview 1
- 2** Current Paradigms in Psychopathology 28
- 3** Diagnosis and Assessment 58
- 4** Research Methods in the Study of Psychopathology 98

Part Two Psychological Disorders

- 5** Anxiety Disorders 119
- 6** Dissociative Disorders and Somatoform Disorders 155
- 7** Stress and Health 183
- 8** Mood Disorders 214
- 9** Eating Disorders 253
- 10** Substance-Related Disorders 278
- 11** Schizophrenia 319
- 12** Personality Disorders 354
- 13** Sexual and Gender Identity Disorders 381

Part Three Life-Span Developmental Disorders

- 14** Disorders of Childhood 416
- 15** Late-Life and Psychological Disorders 461

Part Four Intervention and Legal and Ethical Issues

- 16** Psychological Treatment 490
- 17** Legal and Ethical Issues 517

Contents

1

Introduction and Historical Overview 1

Defining Mental Disorder 4

- Personal Distress 5
- Disability 6
- Violation of Social Norms 6
- Dysfunction 7

History of Psychopathology 8

- Early Demonology 8
- Early Biological Explanations 9
- The Dark Ages and Demonology 9
- Development of Asylums 11

The Evolution of Contemporary Thought 14

- Biological Approaches 14
- Psychological Approaches 16

The Mental Health Professions 25

Summary 26

2

Current Paradigms in Psychopathology 28

The Genetic Paradigm 29

- Behavior Genetics 30
- Molecular Genetics 31
- Gene-Environment Interactions 32
- Reciprocal Gene-Environment Interactions 33
- Evaluating the Genetic Paradigm 33

The Neuroscience Paradigm 34

- Neurons and Neurotransmitters 34
- Structure and Function of the Human Brain 36

The Neuroendocrine System	38
Neuroscience Approaches to Treatment	38
Evaluating the Neuroscience Paradigm	40
The Psychodynamic Paradigm	41
The Role of the Unconscious	41
The Importance of Interpersonal Relationships	42
Contemporary Psychodynamic Psychotherapies	43
Evaluating the Psychodynamic Paradigm	44
The Cognitive Behavioral Paradigm	44
Influences from Behavior Therapy	44
Cognitive Science	46
Cognitive Behavior Therapy	47
Evaluating the Cognitive Behavioral Paradigm	48
Factors That Cut across the Paradigms	49
Emotion and Psychopathology	49
Sociocultural Factors and Psychopathology	51
Diathesis–Stress: An Integrative Paradigm	53
Multiple Perspectives on a Clinical Problem	55
Summary	56

3

Diagnosis and Assessment	58
Cornerstones of Diagnosis and Assessment	59
Reliability	59
Validity	60
Classification and Diagnosis	61
The Diagnostic System of the American Psychiatric Association (DSM-IV-TR)	62
Specific Criticisms of the DSM	70
General Criticisms of Diagnosing Mental Illness	73
Psychological Assessment	74
Clinical Interviews	74
Assessment of Stress	76

Personality Tests	79
Intelligence Tests	84
Behavioral and Cognitive Assessment	85

Neurobiological Assessment 88

Brain Imaging: "Seeing" the Brain	89
Neurotransmitter Assessment	90
Neuropsychological Assessment	91
Psychophysiological Assessment	92
A Cautionary Note about Neurobiological Assessment	93

Cultural and Ethnic Diversity and Assessment 94

Cultural Bias in Assessment	94
Strategies for Avoiding Cultural Bias in Assessment	95

Summary 96

4

Research Methods in the Study of Psychopathology 98

Science and Scientific Methods 98

Approaches to Research on Psychopathology 100

The Case Study	100
The Correlational Method	101
The Experiment	110

Integrating the Findings of Multiple Studies 116

Summary 118

5

Anxiety Disorders 119

Clinical Descriptions of the Anxiety Disorders 121

Phobias	121
Panic Disorder and Agoraphobia	123
Generalized Anxiety Disorder	124
Obsessive-Compulsive Disorder	125
Posttraumatic Stress Disorder and Acute Stress Disorder	126
Comorbidity in Anxiety Disorders	128

**Gender and Sociocultural Factors
in the Anxiety Disorders 128**

Gender 128

Culture 129

**Common Risk Factors across
the Anxiety Disorders 130**Genetic Factors: Are Genes a Diathesis
for Anxiety Disorders? 131Neurobiological Factors: The Fear Circuit
and the Activity of Neurotransmitters 131

The Social Environment: Actual Threats 132

Personality: Behavioral Inhibition and Neuroticism 132

Cognitive Factors: Perceived Control
and Attending to Threat 132**Etiology of Specific Anxiety Disorders 134**

Etiology of Specific Phobias 134

Etiology of Social Phobia 136

Etiology of Panic Disorder 137

Etiology of Generalized Anxiety Disorder 140

Etiology of Obsessive-Compulsive Disorder 140

Etiology of Posttraumatic Stress Disorder 142

Treatments of the Anxiety Disorders 145

Commonalities across Psychological Treatments 146

Psychological Treatments of Specific
Anxiety Disorders 146

Medications That Reduce Anxiety 152

Summary 153**6****Dissociative Disorders and
Somatoform Disorders 155****Dissociative Disorders 157**

Dissociation and Memory 157

Dissociative Amnesia 158

Dissociative Fugue 160

Depersonalization Disorder 160

Dissociative Identity Disorder 161

Somatoform Disorders 167

Pain Disorder 169

Body Dysmorphic Disorder 170

Hypochondriasis 171

Somatization Disorder 171

Conversion Disorder 173

- Etiology of Conversion Disorder 174
- Etiology of Somatoform Disorders Other Than Conversion Disorder 177
- Treatment of Somatoform Disorders 178

Summary 182

7

Stress and Health 183

What Is Stress? 184

- Coping and Health 186
- Social Support and Health 187

Understanding the Stress–Illness Link 188

- Neurobiological Perspectives 189
- Psychodynamic Perspectives 191
- Cognitive and Personality Perspectives 191

Cardiovascular Disorders 192

- Essential Hypertension 192
- Coronary Heart Disease 195

Asthma 197

- Clinical Description 198
- Etiology 199

AIDS 200

- Clinical Description 201
- Spread of the Disease 201
- AIDS Prevention Efforts 201

Gender and Health 204

Socioeconomic Status, Ethnicity, and Health 206

Treatment of Psychological Factors Affecting Medical Conditions 208

- Treating Hypertension and Reducing the Risk of Coronary Heart Disease 208
- Reducing Anger and Hostility, Depression, and Social Isolation 209
- Stress Management 210
- Cognitive Behavioral Interventions 212

Summary 212

8

Mood Disorders 214

Clinical Descriptions and Epidemiology of Mood Disorders 215

Depressive Disorders 215

Bipolar Disorders 219

Subtypes of Depressive Disorders
and Bipolar Disorders 222

Etiology of Mood Disorders 223

Neurobiological Factors in Mood Disorders 223

Social Factors in Depression: Life Events
and Interpersonal Difficulties 230

Psychological Factors in Depression 231

Fitting Together the Etiological Factors
in Depressive Disorders 236

Social and Psychological Factors
in Bipolar Disorder 236

Treatment of Mood Disorders 237

Psychological Treatment of Depression 237

Psychological Treatment of Bipolar Disorder 240

Biological Treatment of Mood Disorders 241

Depression and Primary Care 245

A Final Note on the Treatment of Depression 245

Suicide 246

Epidemiology of Suicide and Suicide Attempts 246

Models of Suicide 247

Preventing Suicide 249

Summary 251

9

Eating Disorders 253

Clinical Descriptions of Eating Disorders 254

Anorexia Nervosa 254

Bulimia Nervosa 256

Binge Eating Disorder 259

Etiology of Eating Disorders 261

Genetic Factors 261

Neurobiological Factors 262

Psychodynamic Views 263

Cognitive Behavioral Views	264
Sociocultural Factors	266
Other Factors Contributing to the Etiology of Eating Disorders	270

Treatment of Eating Disorders 272

Medications	272
Psychological Treatment of Anorexia Nervosa	273
Psychological Treatment of Bulimia Nervosa	274
Psychological Treatment of Binge Eating Disorder	275
Preventive Interventions for Eating Disorders	276

Summary 277

10

Substance-Related Disorders 278

Clinical Descriptions, Prevalence, and Effects of Substance-Related Disorders 278

Alcohol Abuse and Dependence	280
Nicotine and Cigarette Smoking	284
Marijuana	285
Opiates	289
Stimulants	291
Hallucinogens, Ecstasy, and PCP	294

Etiology of Substance-Related Disorders 297

Genetic Factors	298
Neurobiological Factors	299
Psychological Factors	300
Sociocultural Factors	302

Treatment of Substance-Related Disorders 305

Treatment of Alcohol Abuse and Dependence	305
Treatment of Nicotine Dependence	310
Treatment of Illicit Drug Abuse and Dependence	312

Prevention of Substance-Related Disorders 316

Summary 318

11

Schizophrenia 319

Clinical Descriptions of Schizophrenia 321

Positive Symptoms	321
Negative Symptoms	323
Disorganized Symptoms	324

Other Symptoms	325
Schizophrenia in DSM-IV-TR	326
Other Psychotic Disorders in the DSM-IV-TR	327
Etiology of Schizophrenia	328
Genetic Factors	328
Neurotransmitters	332
Brain Structure and Function	334
Psychological Stress	337
Developmental Studies	340
Treatment of Schizophrenia	342
Medications	342
Psychological Treatments	346
Remaining Challenges in the Treatment of Schizophrenia	351
Summary	352

12

Personality Disorders 354

Classifying Personality Disorders 356

The DSM Approach to Classification 356

A Dimensional Approach to Personality:
The Five-Factor Model 359

Odd/Eccentric Cluster 360

Paranoid Personality Disorder 360

Schizoid Personality Disorder 360

Schizotypal Personality Disorder 361

Etiology of the Personality Disorders in the
Odd/Eccentric Cluster 361

Dramatic/Erratic Cluster 362

Borderline Personality Disorder 362

Histrionic Personality Disorder 365

Narcissistic Personality Disorder 365

Antisocial Personality Disorder and Psychopathy 367

Anxious/Fearful Cluster 372

Avoidant Personality Disorder 372

Dependent Personality Disorder 372

Obsessive-Compulsive Personality Disorder 373

Etiology of the Personality Disorders in the
Anxious/Fearful Cluster 373

Treatment of Personality Disorders 375

Treatment of Borderline Personality Disorder 376

Treatment of Psychopathy 379

Summary 380

13

Sexual and Gender Identity Disorders 381

Sexual Norms and Behavior 381

- Gender and Sexuality 382
- The Sexual Response Cycle 384
- Sexual Dysfunctions 385
- Clinical Descriptions of Sexual Dysfunctions 385
- Etiology of Sexual Dysfunctions 389
- Treatments of Sexual Dysfunctions 392

Gender Identity Disorder 396

- Clinical Description of Gender Identity Disorder 396
- Etiology of Gender Identity Disorder 397
- Treatments of Gender Identity Disorder 398

The Paraphilias 400

- Fetishism 401
- Transvestic Fetishism 401
- Pedophilia and Incest 403
- Voyeurism 405
- Exhibitionism 405
- Frotteurism 405
- Sexual Sadism and Sexual Masochism 406
- Etiology of the Paraphilias 406
- Treatments for the Paraphilias 408

Rape 411

- The Crime 412
- The Rapist: Understanding the Etiology of Rape 413
- Psychological Treatment for Rapists 413
- Reforming the Legal System 414

Summary 414

14

Disorders of Childhood 416

Classification and Diagnosis of Childhood Disorders 418

Attention-Deficit/Hyperactivity Disorder 418

- Clinical Descriptions, Prevalence, and Prognosis of ADHD 418
- Etiology of ADHD 422
- Treatment of ADHD 424

Conduct Disorder 426

Clinical Description, Prevalence, and Prognosis
of Conduct Disorder 427

Etiology of Conduct Disorder 428

Treatment of Conduct Disorder 430

Depression and Anxiety in Children and Adolescents 433

Depression 433

Anxiety 436

Learning Disabilities 441

Clinical Descriptions 442

Etiology of Learning Disabilities 442

Treatment of Learning Disabilities 444

Mental Retardation 444

Diagnosis and Assessment of Mental Retardation 444

Etiology of Mental Retardation 447

Treatment of Mental Retardation 449

Autistic Disorder 450

Clinical Descriptions 451

Etiology of Autistic Disorder 455

Treatment of Autistic Disorder 457

Summary 459

15

Late Life and Psychological Disorders 461

Aging: Issues and Methods 462

Myths about Late Life 463

The Problems Experienced in Late Life 464

Research Methods in the Study of Aging 465

Cognitive Disorders in Late Life 467

Dementia 467

Delirium 474

Psychological Disorders in Late Life 476

Prevalence: How Common Are Psychological
Disorders in Late Life? 476

Medical Issues in Diagnosing Psychological
Disorders 478

Major Depressive Disorder 478

Anxiety Disorders 481

Delusional (Paranoid) Disorders 482

Substance Abuse and Dependence 483

Adjusting Treatment with Older Adults 484

Living Situations: Community Living, Nursing Homes, and Other Alternatives 485

Nursing Homes 486

Alternative Living Settings 487

Summary 488

16

Psychological Treatment 490

Specific Treatment Approaches 490

Psychodynamic Treatment 491

Experiential Therapies 491

Behavioral Therapies 493

Cognitive Treatment 494

Couples Therapy 495

Family Therapy 497

Treatment Outcome Research 499

Issues in Treatment Outcome Research 501

The Evidence from Randomized Controlled Trials 505

The Importance of Culture and Ethnicity in Psychological Treatment 508

Psychotherapy Process Research 512

Common Factors Research 512

Mechanisms of Change Research 513

Community Psychology and Prevention Science 514

Summary 515

17

Legal and Ethical Issues 517

Criminal Commitment 518

The Insanity Defense 519

Competency to Stand Trial 524

Insanity, Mental Retardation, and Capital
Punishment 527

Civil Commitment 530

Preventive Detention and Problems in the Prediction
of Dangerousness 531

Toward Greater Protection of Patients' Rights 533

Deinstitutionalization, Civil Liberties,
and Mental Health 538

Ethical Dilemmas in Therapy and Research 541

Ethical Restraints on Research 541

Informed Consent 542

Confidentiality and Privileged Communication 543

Who Is the Client or Patient? 544
