<i>Contributors</i>	<i>ix</i>
<i>Foreword</i>	<i>xi</i>
<i>Preface</i>	<i>xix</i>

## **1. Introduction**

*Stephen M. Cormier and Joseph D. Hagman*

I. The Measurement of Transfer	1
II. Training for Transfer versus Rapid Acquisition	3
III. The Direction and Extent of Transfer	4
IV. Motor versus Cognitive versus Metacognitive Transfer	6
V. Organization of the Book	6
References	8

## **2. The Cognitive Basis of Knowledge Transfer**

*Mary L. Gick and Keith J. Holyoak*

I. Introduction	9
II. A Theoretical Framework for Understanding Transfer	13
III. Determinants of Transfer: Four Types of Factors	20
IV. Summary and Future Directions	39
References	42

## **3. Transfer of Movement Control in Motor Skill Learning**

*Richard A. Schmidt and Douglas E. Young*

I. Transfer: Definitional Issues	48
II. Fundamental Principles of Motor Behavior and Control	49
III. Principles of Motor Transfer	58
IV. Transfer among Various Conditions of Practice	68
V. Generalizations and Future Directions	73
References	74

#### **4. How Can Good Strategy Use Be Taught to Children?**

##### **Evaluation of Six Alternative Approaches**

*Michael Pressley, Barbara L. Snyder,  
and Teresa Cariglia-Bull*

I. The Good Strategy User	81
II. Alternative Approaches to Strategy Instruction	88
III. Discussion: Is There a Best Approach to Strategy Instruction?	105
References	113

#### **5. Transfer of Information: An Instructional Perspective**

*Larry W. Brooks and Donald F. Dansereau*

I. Transfer Framework	121
II. Content-to-Content Transfer	125
III. Skills-to-Skills Transfer	131
IV. Content-to-Skills Transfer	134
V. Skills-to-Content Transfer	136
VI. Conclusion	144
References	145

#### **6. The Structural Processes Underlying Transfer of Training**

*Stephen M. Cormier*

I. The Match-Mismatch Retrieval Process and Transfer	152
II. Automatization of Performance and Transfer	162
III. Study-Phase Retrieval and Transfer	169
IV. Chapter Summary	175
References	176

#### **7. Transfer of Cognitive Skills**

*Wayne D. Gray and Judith M. Orasanu*

I. Introduction	183
II. Transfer Themes from Problem Space Approaches	191
III. Learning-as-Transfer	202
IV. Summary	211
References	213

#### **8. The Design of Industrial and Flight Simulators**

*E. Scott Baudhuin*

I. Transfer of Training: A General Perspective	218
II. Military Aviation Applications	224
III. Industrial Applications	229

IV. Transfer of Training and Simulator Training Devices: What Has Been	
Learned	234
References	235

## **9. Measuring Transfer in Military Settings**

*John A. Boldovici*

I. Introduction	239	
II. Sources of Error in Transfer Experiments		241
III. Reducing Sources of Error	250	
IV. Reporting	254	
V. Recommendations	258	
References	259	

## **10. Methodological Approaches for Simulator Evaluations**

*Andrew Rose, Robert Evans, and George Wheaton*

I. Introduction	261	
II. Past Approaches to Evaluating the Effectiveness of Military Simulators	262	
III. Characterizing Simulator Effectiveness		267
IV. A Method for Training System Evaluation		270
References	277
