Preface	xvii
Note to Students	xix

SECTION I

Conceptual, Historical, and Research Aspects of Learning Disabilities

1. Learning Disabilities: Historical and Conceptual Issues

Joseph K. Torgesen

I. Current Status of the Field	3
II. A Historical Perspective	7
III. Current and Future Issues	19
IV. Concluding Comments	30
References	31

2. Decision-Making and Curriculum-Based Assessment

Bob Algozzine

I. Who Are Students with Learning Disabilities?	40
II. A Perspective on Assessment	52
References	54

3. Attention Disorders

Richard Conte

I. The Domain of Attention	60
II. Scope and Sequence	61
III. Why Is It Important to Study Attention Deficits?	62
IV. What Do We Mean by an Attention Disorder and How Can It Be Measured?	65
V. What Has Been Done in this Research Area?	71
VI. Current Research Issues	88
VII. Summary	94
References	96

4. Learning Disabilities and Memory

H. Lee Swanson and John B. Cooney

I. Introduction	104
II. Information Processing	104

III. Contemporary Research	106
IV. Implications from Contemporary Memory Research for Instruction	115
V. Principles of Strategy Instruction	116
VI. Summary and Conclusion	121
References	122
5. Language Problems: A Key to Early Reading Problems	
<i>Virginia Mann</i>	
I. Introduction: The Link between Reading Problems and Language Problems	130
II. Why Spoken Language Is So Critical to Readers	131
III. Language Problems as Causes of Early Reading Problems	137
IV. Some Plausible Origins of the Language Problems That Lead to Reading Problems	148
V. Summary and Concluding Remarks	153
References	156
6. Visual Processes in Learning Disabilities	
<i>Dale M. Willows</i>	
I. Introduction	164
II. Visual Components in Reading and Writing	165
III. Clinical Case Studies	167
IV. Clinical and Neuropsychological Research	171
V. Basic Experimental Research	172
VI. Conclusions and Future Directions	187
References	189
7. Social Problems and Learning Disabilities	
<i>Tanis Bryan</i>	
I. Rationale	195
II. Scope and Objectives	197
III. LD Students' Attitudes toward Themselves	198
IV. Social Competence	208
V. Communicative Competence	218
VI. Teachers' Judgments and Classroom Behavior	221
VII. The Last Word	224
References	224
8. The Relevance of Metacognition to Learning Disabilities	
<i>Bernice Y. L. Wong</i>	
I. Rationale	232
II. Scope and Sequence	232
III. Metacognition: Definition, Aspects, and Characteristics	233
IV. Origin of the Construct of Metacognition and Its Subsequent Application to Reading	235
V. Metacognition and Effective Learning	235
VI. Metacognition and Brown's Model	238

VII. Metacognitive Skills and Efficient Reading	239
VIII. Metacognition and Learning Disabilities	240
IX. Metacognition in Students with Learning Disabilities	243
X. Model of Metacognition	246
XI. Research Issues	252
XII. Teaching Implications: Metacognitive Assessment and Curricula	253
XIII. Summary	254
References	255

Section II

Assessment and Instructional Aspects of Learning Disabilities

9. Early Reading and Instruction

Lynn M. Gelzheiser and Diana Brewster Clark

I. What Is Reading?	262
II. Where Do Disabled Readers Fail?	263
III. Development of Reading Proficiency	264
IV. General Instructional Recommendations	266
V. More Specific Instructional Recommendations	267
VI. Implementing Special Reading Instruction	275
VII. Recommendations for Further Research	277
VIII. Summary	278
References	278

10. Reading Comprehension Failure in Children

Ruth Garner, Patricia A. Alexander, and Victoria Chou Hare

I. Introduction	284
II. Comprehension Failure	284
III. Effective Comprehension Instruction	292
IV. Sustaining Effective Reading	297
References	303

11. Writing Instruction

Steve Graham, Karen R. Harris, Charles MacArthur, and Shirley Schwartz

I. Introduction	310
II. The Nature of Writing	310
III. Writing Problems of LD Students	311
IV. A Process Approach to Writing	312
V. Procedural Facilitation and Strategy Instruction	318
VI. Methods for Improving Text Production Skills	324
VII. Use of Technology	330
VIII. What Else Can I Do?	333
IX. What Not to Do	334
X. The Challenge	335
References	337

12. Mathematics

Deborah D. Smith and Diane P. Rivera

- I. Introduction 346
- II. Mathematics Instruction 346
- III. Difficulties in Mathematics 353
- IV. Assessment 354
- V. Instructional Methods 358
- VI. Textbooks 369
- VII. Issues 370
- VIII. Summary 370
- References 371

13. Neuropsychology and Learning Disabilities

G. Reid Lyon, Robert E. Newby, Donna Recht, and JoAnne Caldwell

- I. Introduction and Rationale 376
- II. Scope and Objectives 377
- III. Definitional Aspects 377
- IV. The Increased Demand for Neuropsychological Knowledge 378
- V. Standardized Neuropsychological Assessment: Purposes, Test Batteries, and Linkages to Teaching 379
- VI. Neurodiagnostic Advances and the Study of Learning Disabilities 387
- VII. Neuropsychological Subtyping Research and Relationships to Intervention 392
- VIII. Summary 401
- References 402

14. Social Skills Enhancement in Students with Learning Disabilities

Sharon Vaughn

- I. Scope and Objectives 408
- II. Overview of Social Skills 409
- III. Instructional Methods 416
- IV. Issues 433
- V. Summary 436
- References 436

15. Collaborative Consultation

Suzanne M. Robinson

- I. Introduction 441
- II. Why the Movement toward Collaborative Consultation? 442
- III. Definition of Collaboration and Consultation 445
- IV. Skills Needed for Effective Collaboration 448
- V. Potential Collaborative Roles 454
- VI. Collaborative Program Development 458
- VII. Conclusion: What Collaborative Consultation Is and What It Is Not 459
- References 460

16. Issues in Service Delivery for Students with Learning Disabilities

James M. Kauffman and Stanley C. Trent

- I. Introduction 466
- II. Definitions of School Structures 467
- III. Place and Personnel Issues 468
- IV. Programmatic Issues 471
- V. The Importance of Consultation and Collaboration 475
- VI. Selecting the Appropriate Service Delivery Option 477
- VII. Conclusion 477
- References 478

Section III

Understanding Learning Disabilities through a Life-Span Approach

17. Learning Disabilities from a Developmental Perspective: Early Identification and Prediction

Barbara K. Keogh and Sue Sears

- I. Introduction 486
- II. Conceptual and Methodological Issues 487
- III. Four Illustrative Longitudinal Studies 489
- IV. Generalizations from Longitudinal Studies 494
- V. Early Identification of Reading Problems 496
- VI. Implications for Identification and Prediction 499
- References 501

18. Adolescents with Learning Disabilities

Edwin S. Ellis and Patricia Friend

- I. Understanding Adolescents with Learning Disabilities 506
- II. Understanding Setting Demands 506
- III. Promising Instructional Practices for Learning-Disabled Adolescents 521
- IV. Overview and Critique of Intervention Practices 547
- V. Closing Comments: The Good News and the Bad News 554
- References 555

19. The Learning-Disabled Adult

Pamela B. Adelman and Susan A. Vogel

- I. Introduction 564
- II. Academic Achievement 564
- III. Cognitive Abilities 570
- IV. Personality and Behavior Traits 572
- V. Psychological-Emotional Problems 572
- VI. Social-Interpersonal Skills 573

VII.	Educational Attainments	574	
VIII.	Employment Attainments	575	
IX.	Independent Living Skills	579	
X.	Critique of Research	580	
XI.	Future Research Recommendations	586	
XII.	Conclusions	587	
	Author Index	595	
	Subject Index	617
