

TABLE OF CONTENTS

PREFACE	V
ACKNOWLEDGEMENTS	VII
1. INTRODUCTION	
<i>Ellis, H. D. Introduction to aspects of face processing: Ten questions in need of answers.</i>	3
2. PERCEPTUAL PROCESSES	
<i>Sergent, J. Microgenesis of face perception.</i>	17
<i>Millward, R., & O'Toole, A. Recognition memory transfer between spatial-frequency analyzed faces.</i>	34
<i>Fraser, I. H., & Parker, D. M. Reaction time measures of feature saliency in a perceptual integration task.</i>	45
<i>Endo, M. Perception of upside-down faces: An analysis from the viewpoint of cue-saliency.</i>	53
3. MEMORY PROCESSES	
<i>Deffenbacher, K. A. On the memorability of the human face.</i>	61
<i>Church, V., & Winograd, E. Face recognition is not unique. Evidence from individual differences.</i>	71
<i>McKelvie, S. J. Lateral reversal and facial recognition memory: Are right-lookers special?</i>	78
<i>Tiberghien, G. Context effects in recognition memory of faces : Some theoretical problems.</i>	88
4. COGNITIVE PROCESSES	
<i>Bruce, V. Recognising familiar faces.</i>	107
<i>Thomson, D. M. Face recognition : More than a feeling of familiarity?</i>	118
<i>Young, A. W., Hay, D. C., & Ellis, A. W. Getting semantic information from familiar faces.</i>	123
<i>Hay, D. C., Young, A. W., & Ellis, A. W. What happens when a face rings a bell? : The automatic processing of famous faces.</i>	136

5. SOCIO-COGNITIVE FACTORS

- Klatzky, R. L. *Levels of representation and memory for faces.* 147
- Malpass, R. S., & Hughes, K. D. *Formation of facial prototypes.* 154
- Mueller, J. H., & Thompson, W. B. *Stereotyping and face memory.* 163
- Brigham, J. C. *The influence of race on face recognition.* 170
- Abdi, H. *Faces, prototypes, and additive tree representations.* 178

6. CORTICAL SPECIALISATION

- Perrett, D. I., Mistlin, A. J., Potter, D. D., Smith, P. A. J., Head, A. S., Chitty, A. J., Broennimann, R., Milner, A. D., & Jeeves, M. A. J. *Functional organization of visual neurones processing face identity.* 187
- de Schonen, S., Gil de Diaz, M., & Mathivet, E. *Hemispheric asymmetry in face processing in infancy.* 199
- Umiltà, C. *Models of laterality effects in face perception.* 200
- Marzi, C. A., Tressoldi, P. E., Barry, C., & Tassinari, G. *Hemispheric asymmetries in face recognition and naming : effects of prior stimulus exposure.* 215
- Parkin, A. J., & Williamson, P. *Patterns of cerebral dominance in wholistic and featural stages of facial processing.* 223
- Small, M. *Hemispheric differences in the evoked potential to face stimuli.* 228
- Bruyer, R. *Cerebral and behavioural asymmetries in the processing of "unusual" faces : A review.* 234

7. PROSOPAGNOSIAS

- De Renzi, E. *Current issues on prosopagnosia.* 243
- Bauer, R. M. *The cognitive psychophysiology of prosopagnosia.* 253
- Damasio, R., Damasio, H., & Tranel, D. *Prosopagnosia : Anatomic and physiologic aspects.* 268
- Blanc-Garin, J. *Faces and non-faces in prosopagnosic patients.* 273
- Davidoff, J., Matthews, W. B., & Newcombe, F. *Observations on a case of prosopagnosia.* 279

8. BRAIN PATHOLOGY

- Crawford, J. R., Besson, J. A. O., Ellis, H. D., Parker, D. M., Salzen, E. A., Gemmell, H. G., Sharp, P. F., Beavan, D. J., & Smith, F. W. *Facial processing in the dementias.* 293
- De Haan, E. H. F., & Hay, D. C. *The matching of famous and unknown faces, given either the internal or the external features : A study on patients with unilateral brain lesions.* 302
- Tzavaras, A., Luaute, J. P., & Bidault, E. *Face recognition dysfunction and delusional misidentification syndromes (D.M.S.).* 310

9. FACIAL EXPRESSIONS

- Frijda, N. H. *Facial expression processing.* 319
- Salzen, E. A., Kostek, E. A., & Beavan, D. J. *The perception of action versus feeling in facial expression.* 326
- Pilowsky, I., Thornton, M., & Stokes, B. B. *Towards the quantification of facial expressions with the use of a mathematic model of the face.* 340
- Feyereisen, P., Malet, C., & Martin, Y. *Is the faster processing of expressions of happiness modality-specific?* 349
- Calis, G., & Mens, L. *Primary stages in single-glance face recognition : Expression and identity.* 356
- Regard, M., & Landis, T. *Affective and cognitive decisions on faces in normals.* 363

10. APPLICATIONS AND COMPUTER TECHNOLOGY

- Laughery, K. R., Duvel, C., & Wogalter, M. S. *Dynamics of facial recall.* 373
- Davies, G. *The recall and reconstruction of faces : Implications for theory and practice.* 388
- Shepherd, J. W. *An interactive computer system for retrieving faces.* 398
- Haig, N. D. *Investigating face recognition with an image processing computer.* 410
- Stonham, T. J. *Practical face recognition and verification with WISARD.* 426

11. AN OVERVIEW

- Jeeves, M. A. *Plenary session. An overview. Complementary approaches to common problems in face recognition.* 445
