Contents

Prologue ix

Acknowledgements xi

Chapter 1: The Logic of Deduction 1
Introduction and plan of the book 1
The concept of logical form 4
The propositional calculus 5
The predicate calculus 11

Chapter 2: The Cognitive Science of Deduction 17
Deduction: A theory at the computational level 18
Formal rules: A theory at the algorithmic level 23
Content-specific rules: A second theory at the algorithmic level 31
Mental models: A third theory at the algorithmic level 35
Conclusion 40

Chapter 3: Reasoning with Propositions 41
Models for connectives 43
Three phenomena predicted by the model theory 52
Conclusions 61

Chapter 4: Conditionals 63
The model theory of the meaning of conditionals 65
Deduction with conditionals 73
Conclusions 85

Chapter 5: Reasoning about Relations 87
Three-term series problems 88
Two-dimensional spatial deductions 94
Alternative rule theories for spatial deductions 100
Conclusions 101

Chapter 6: One Quantifier at a Time: The Psychology of Syllogisms 105
The causes of difficulty in syllogistic reasoning 111
Formal rules for syllogistic reasoning 115
Euler circles and Venn diagrams as representations 116
Mental models for syllogistic reasoning 118
Three studies of syllogisms 124
Conclusions 131

Chapter 7: Many Quantifiers: Reasoning with Multiple Quantification 133
A rule theory for multiple quantifiers 134
The model theory for multiple quantifiers 137
Experimental tests of the two theories 139
The differences between rules and models 143
Conclusions 146

Chapter 8: Meta-deduction 147
A rule theory of meta-logical deduction 148
The model theory of meta-logical deduction 153
Three predictions of the model theory 159
Meta-cognitive deduction 161
Conclusions 164

Chapter 9: Deduction, Non-monotonic Reasoning, and Parsimonious Conclusions: How to Write a Reasoning Program 167
Non-monotonic reasoning: Formal theories 168
The construction of models of premises 171
The combination of valid and non-monotonic reasoning 180
The formulation of parsimonious conclusions 183
Conclusions 190

Chapter 10: Beyond Deduction: Thinking, Rationality, and Models 193
A recapitulation of the argument of the book 193
The implications of the model theory 203

The critique of mental models 210
Epilogue 215
