<i>Preface</i>	<i>xvii</i>

1

Introduction: Discovering Buried Treasure— A Look at the Cognitive Potential of the Right Hemisphere	1
---	----------

ELLEN PERECMAN

On the Notions Dominance and Capacity in Neuropsychology	1
Phonological Processing in the Right Hemisphere	10
Concluding Remarks	14
References	15

PART I

THEORETICAL ISSUES IN RIGHT HEMISPHERE NEUROPSYCHOLOGY

2

Cerebral Lateralization, Cognitive Asymmetry, and Human Consciousness	19
--	-----------

T. G. BEVER

Subject Variables	20
Relational and Unitary Processes in Tasks	25

Consciousness and Theories of Cognitive Action	33
Conclusion: The Bases of Asymmetries	36
References	37

3

Rethinking the Right Hemisphere 41

JASON W. BROWN

Introduction	41
Constructional (Dis)ability Is Equally Represented in Right and Left Hemisphere	44
Left Hemispatial Neglect	46
Behavioral Evidence for Cognitive Asymmetries	49
The Meaning of the Callosal Syndrome	50
References	52

PART II

STUDIES OF NORMAL SUBJECTS

4

The Linguistic and Emotional Functions of the Normal Right Hemisphere 57

M. MOSCOVITCH

Language	57
Emotion	69
References	78

5

Right Hemispheric Specialization for the Expression and Appreciation of Emotion: A Focus on the Face 83

JOAN C. BOROD, ELISSA KOFF, and HERBERT S. CARON

General Considerations	84
Appreciation Studies	86
Expression Studies	90
Description of Experiments	94
Conclusions	103
References	105

6

Right Hemispheric Involvement in Imagery and Affect 111*M. P. BRYDEN and ROBERT G. LEY*

Lateralization of Emotional Processes	112
Lateralization of Imagery Processes	113
Right Hemispheric Mediation of Concrete or Imageable Language	114
Hemispheric Priming Effect	115
The Role of the Right Hemisphere in Imagery and Affect	118
References	120

7

Hemispheric EEG Asymmetries Related to Cognitive Functioning in Children 125*R. W. THATCHER, R. McALASTER, M. L. LESTER,
R. L. HORST, and D. S. CANTOR*

Methods	128
Results	131
Discussion	141
References	145

*PART III***STUDIES OF BRAIN-DAMAGED SUBJECTS**

8

Selective Impairment of Semantic-Lexical Discrimination in Right-Brain-Damaged Patients 149*GUIDO GAINOTTI, CARLO CALTAGIRONE, and GABRIELE MICELI*

Language Disorders Associated with Right Hemisphere Damage	150
General Methodology	152
General Discussion	162
References	165

9

**Missing the Point: The Role of the Right Hemisphere
in the Processing of Complex Linguistic Materials** 169

*HOWARD GARDNER, HIRAM H. BROWNELL,
WENDY WAPNER, and DIANE MICHELOW*

Tests and Predictions	174
Results and Discussion	178
Conclusions	185
References	189

10

**Negative Evidence for Language Capacity in the Right Hemisphere:
Reversed Lateralization of Cerebral Function** 193

MARGARET HAN and SUN-HOO FOO

Handedness	194
Theories of Crossed Aphasia	195
Bilingualism and Multilingualism	197
Characteristics of Aphasia in Crossed Aphasia	198
Absence of Aphasia despite Appropriate Lesion	198
Case Report	199
References	209

PART IV

LANGUAGE REHABILITATION VIA THE RIGHT HEMISPHERE

11

Heightening Visual Imagery: A New Approach to Aphasia Therapy 215

JOYCE FITCH-WEST

12

**Exploiting the Right Hemisphere for Language Rehabilitation:
Melodic Intonation Therapy** 229

NANCY HELM-ESTABROOKS

Melodic Intonation Therapy: The Method	230
Music and the Right Hemisphere	231
Melodic Intonation Therapy and Auditory Comprehension	233

Melodic Intonation Therapy and CT Scan Lesion Localization	235
The Right Hemisphere and Recovery from Aphasia	236
Conclusion	238
References	238
<i>Author Index</i>	241
<i>Subject Index</i>	251
