Preface	<i>page vii</i>
PART I: INTRODUCTION TO THE SURVEY	1
Chapter 1: The Study of Cognitive Abilities	3
Chapter 2: Historical Foundations of the Study of Cognitive Abilities	30
Chapter 3: Survey and Analysis of Correlational and Factor-Analytic Research on Cognitive Abilities: Methodology	73
Chapter 4: Survey and Analysis of Correlational and Factor-Analytic Research on Cognitive Abilities: Overview of Outcomes	115
PART II: THE IDENTIFICATION AND DESCRIPTION OF COGNITIVE ABILITIES	143
Chapter 5: Abilities in the Domain of Language	145
Chapter 6: Abilities in the Domain of Reasoning	196
Chapter 7: Abilities in the Domain of Memory and Learning	248
Chapter 8: Abilities in the Domain of Visual Perception	304
Chapter 9: Abilities in the Domain of Auditory Reception	364
Chapter 10: Abilities in the Domain of Idea Production	394
Chapter 11: Abilities in the Domain of Cognitive Speed	440
Chapter 12: Abilities in the Domain of Knowledge and Achievement	510
Chapter 13: Psychomotor Abilities	532
Chapter 14: Miscellaneous Domains of Ability and Personal Characteristics	542
Chapter 15: Higher-Order Factors of Cognitive Ability	577

PART III: ISSUES	629
Chapter 16: A Theory of Cognitive Abilities: The Three-Stratum Theory	631
Chapter 17: Issues about Abilities: Nature and Nurture, and Others	656
Chapter 18: Implications and Recommendations	688
<i>References and List of Datasets</i>	715
<i>Appendix A: Codes for Countries, Samples, and Factors</i>	790
<i>Appendix B: Hierarchical Factor Matrix Files</i>	796
<i>Name Index</i>	797
<i>Subject Index</i>	810
