

PART ONE

Foundations of Cognitive Psychology 1

- 1** *The Science of the Mind* 3
- The Psychology of the Ordinary 4
 - A Brief History 8
 - Research in Cognitive Psychology—An Example 13
 - Chapter Summary 20
- 2** *The Neural Basis for Cognition* 21
- Capgras Syndrome: An Initial Example 22
 - The Principal Structures of the Brain 25
 - The Visual System 35
 - Chapter Summary 49

PART TWO

Learning about the World Around Us 51

- 3** *Recognizing Objects in the World* 53
- Visual Perception 54
 - Object Recognition 60
 - Word Recognition 66
 - Feature Nets and Word Recognition 70
 - Descendants of the Feature Net 80
 - Different Objects, Different Recognition Systems? 85
 - Top-down Influences on Object Recognition 89
 - Chapter Summary 91

4	<i>Paying Attention</i>	93
	Selective Listening	94
	Perceiving and the Limits on Cognitive Capacity	95
	Divided Attention	108
	Practice	116
	Chapter Summary	124

PART THREE

Memory 127

5	<i>The Acquisition of Memories and the Working-Memory System</i>	131
	The Route into Memory	132
	A Closer Look at Working Memory	139
	Entering Long-Term Storage: The Role of the Intent to Learn	148
	The Role of Meaning and Memory Connections	153
	Organizing and Memorizing	154
	The Study of "Memory Acquisition"	160
	Chapter Summary	162
6	<i>Interconnections between Acquisition and Retrieval</i>	163
	Retrieval Hints and Cues	164
	Encoding Specificity	169
	Different Forms of Memory Testing	171
	Implicit Memory	175
	Theoretical Treatments of Implicit Memory	181
	Amnesia	189
	Chapter Summary	192
7	<i>Memory Errors, Memory Gaps</i>	195
	Memory Errors: Some Initial Examples	196
	The Potential Sources of Memory Error	196

Evaluating Human Memory	210
Autobiographical Memory	220
Chapter Summary	228

PART FOUR

Knowledge 231

- 8** *Associative Theories of Long-Term Memory* 235
 - The Network Notion 236
 - Evidence Favoring the Network Approach 238
 - More Direct Tests of the Network Claims 241
 - Retrieving Information from a Network 248
 - Unpacking the Nodes 252
 - Evaluating Network Models 255
 - The Newest Chapter: Connectionism 262
 - Chapter Summary 269

- 9** *Concepts and Generic Knowledge* 271
 - Definitions: What Do We Know When We Know
What a Dog Is? 272
 - Prototypes and "Typicality" Effects 274
 - Exemplars 279
 - The Difficulties with Categorizing via
Resemblance 288
 - Concepts as "Implicit Theories" 294
 - Chapter Summary 298

- 10** *Language* 301
 - Phonology 302
 - Words 310
 - Syntax 315
 - Sentence Parsing 324
 - The Biology of Language 331
 - Chapter Summary 335

- 11** *Visual Knowledge* 337
 - Visual Imagery 338
 - Long-Term Visual Memory 357
 - The Diversity of Knowledge 369
 - Chapter Summary 370

- 12** *Judgment: Drawing Conclusions from Evidence* 377
- Availability 378
 - Representativeness 383
 - Support Theory 386
 - Detecting Covariation 387
 - Base Rates 393
 - Assessing the Damage 398
 - Chapter Summary 408
- 13** *Reasoning: Thinking through the Implications of What You Know* 411
- Confirmation and Disconfirmation 412
 - Logic 415
 - Mental Models 428
 - Decision-Making 430
 - Chapter Summary 445
- 14** *Solving Problems* 447
- General Problem-Solving Methods 448
 - Relying on Past Knowledge 458
 - Defining the Problem 468
 - Creativity 475
 - Chapter Summary 484
- 15** *Conscious Thought, Unconscious Thought* 487
- The Cognitive Unconscious 488
 - The Disadvantages of Unconscious Processing 496
 - The Function of Consciousness 498
 - Consciousness: What Is Left Unsaid 501
 - Chapter Summary 501
- Glossary* A1
- References* A15
- Credits* A64
- Index* A65
