

Contents

Preface xix

PART I: INTRODUCTION

1. The Discipline 3

Introduction to Cognitive Psychology 3

Definitions of the Discipline 4

Relation to Cognitive Science 6

History of Cognitive Psychology 7

Structuralism 8

Functionalism 9

Gestalt Psychology 10

Psychoanalysis 11

Behaviorism 11

Information Processing 13

Contemporary Cognitive Psychology 14

Context 14

Themes 17

Methods 20

Overview of the Text	26
Summary	27
Key Terms	28
Recommended Readings	28

PART II: BASIC COGNITIVE OPERATIONS

2. Sensation and Perception 31

Perception as Informed Construction	32
Sensory Registration	36
<i>Thresholds</i>	36
BOX 2.1: Extrasensory Perception?	41
<i>Sensory Memory</i>	42
Pattern Recognition Processes	47
<i>The Cycle of Perception</i>	48
<i>Top-Down and Bottom-Up Processes</i>	50
<i>Patterns in Long-Term Memory</i>	53
Perceiving Objects in Scenes	58
<i>Gestalt Principles of Organization</i>	59
<i>Scene Analysis</i>	60
BOX 2.2: Misperceiving Objects	63
Summary	64
Key Terms	66
Recommended Readings	66

3. Attention 69

Filter Theories	70
<i>Early Selection</i>	70
<i>Attenuation</i>	72
<i>Late Selection</i>	73
BOX 3.1: Unconscious Perceptual Defense	77
Capacity Theories	77
<i>Single Capacity</i>	77
<i>Multiple Resources</i>	80
<i>Conclusion</i>	81

Automatic Processes	82
<i>Criteria of Automaticity</i>	83
BOX 3.2: Automaticity in Behavior	84
<i>Practice and Automaticity</i>	86
<i>Genetics and Maturation</i>	89

Visual Attention: A Closer Look	90
<i>Automatic and Controlled Processes</i>	90
BOX 3.3: Subliminal Influences	91
<i>Focusing Attention</i>	92
<i>Attention Switching</i>	93
<i>Neuroanatomical Systems</i>	94

Summary	95
---------	----

Key Terms	97
-----------	----

Recommended Readings	97
----------------------	----

4. Memory 99

Short-Term Versus Long-Term Memory	100
<i>The Serial Position Effect</i>	101
<i>Neuropsychological Evidence</i>	103
<i>Differences in Memory Stores</i>	105
BOX 4.1: Early Childhood Memories	110

Revisions to the Multistore Model	118
<i>Fuzzy Criteria</i>	118
<i>The Problem With Recency</i>	119
<i>Activated Memory</i>	119
<i>A Model of Working Memory</i>	121

Types of Long-Term Memory	121
<i>Declarative Versus Procedural Memory</i>	122
<i>The Argument for Multiple Systems</i>	124
<i>The Argument Against Multiple Systems</i>	126
BOX 4.2: Social Cognition	127

Summary	128
---------	-----

Key Terms	129
-----------	-----

Recommended Readings	130
----------------------	-----

PART III: ACQUIRING AND USING KNOWLEDGE AND SKILL

5. Learning, Remembering, and Forgetting 133

Encoding and Storing Events	134
<i>Attention</i>	134
<i>Rehearsal</i>	135
<i>Levels of Processing</i>	136
<i>Distinctiveness</i>	138
<i>Organization</i>	140
BOX 5.1: Mnemonic Techniques	142
Retrieval Processes	143
<i>Encoding Specificity</i>	144
Schemas and Memory	147
<i>Reconstructive Retrieval</i>	147
<i>Encoding Distortions</i>	149
BOX 5.2: Memories of Abuse	159
Summary	160
Key Terms	161
Recommended Readings	162

6. Knowledge Representation and Use 165

Schemas	166
<i>Characteristics of Schemas</i>	167
<i>Types of Schemas</i>	170
BOX 6.1: Defining Natural Concepts	174
Schema Modification and Acquisition	175
<i>Forms of Accommodation</i>	175
<i>Hypothesis Testing Theory</i>	176
<i>Automatic Learning</i>	179
Representational Codes	182
<i>The Nature of Propositions</i>	183
<i>The Nature of Images</i>	185
BOX 6.2: Mental Maps	188
Using Semantic Memory	189
<i>Network Theories</i>	189
<i>The Feature-Comparison Model</i>	192
Summary	196

Key Terms	198
Recommended Readings	198

7. Expertise 201

Characteristics of Expertise	202
<i>The Mnemonic Encoding Principle</i>	202
<i>Principle of Retrieval Structure</i>	203
<i>Speedup Principle</i>	207
<i>Principle of Flow</i>	209
<i>Principle of Deliberate Practice</i>	209
<i>The Principle of Metacognitive Control</i>	211
Illustrations of Expertise	213
<i>Mnemonic Skill</i>	213
BOX 7.1: Oddities of Expertise	213
<i>Problem Solving</i>	218
Computer Models of Expertise	222
<i>Expert Systems</i>	222
<i>ACT*</i>	223
Summary	225
Key Terms	227
Recommended Readings	227

PART IV: THE NATURE AND USE OF LANGUAGE

8. Language 231

Characteristics of Language	232
<i>Linguistic Universals</i>	232
<i>Meaning, Structure, and Use</i>	236
BOX 8.1: Animal Language	240
<i>Competence Versus Performance</i>	241
<i>Language Acquisition Device</i>	242
<i>Neural Systems</i>	243
Grammars	246
<i>Phrase Structure Grammar</i>	246
<i>Transformational Grammar</i>	248
<i>Case Grammar</i>	253
Thought and Language	255
<i>The Identity Hypothesis</i>	256

The Whorfian Hypothesis 258

BOX 8.2: Language Influences Thought 260

Summary 261

Key Terms 262

Recommended Readings 262

9. Speaking and Listening 265

Speech Production 265

Planning and Executing Speech 265

Articulation 268

Speech Errors 270

BOX 9.1: American Sign Language 272

Conversations 274

Conclusion 277

Speech Comprehension 277

Complexities of Speech 278

Genetic Preparedness 283

BOX 9.2: A Linguistic Genius 284

Intelligibility and Analysis by Synthesis 285

The Relation of Production and Comprehension 288

Motor Theory 288

Node Structure Theory 288

Summary 292

Key Terms 293

Recommended Readings 293

10. Writing and Reading 295

Text Production 296

A Model of Handwriting 296

A Model of Discourse Formulation 297

BOX 10.1: Writer's Block 299

Knowledge Transformation 301

Spelling 303

Text Comprehension 304

Comprehension as Structure Building 305

Referential Coherence 307

A Process Model 309

<i>Global Frameworks</i>	310
<i>Suppositions, Inferences, and Interpretations</i>	314
Components of Reading Skill	319
BOX 10.2: Fixations in Reading	322
Summary	323
Key Terms	325
Recommended Readings	325

PART V: THINKING SKILLS AND INTELLIGENCE

11. Problem Solving 329

Types of Thinking	330
<i>Well-Defined and Ill-Defined Problems</i>	331
<i>Productive and Reproductive Problem Solving</i>	333
<i>Relations Among Terms</i>	334
BOX 11.1: Problem Solving Constraints	335
A General Model of Problem Solving	338
<i>Representing Problems</i>	338
<i>Searching the Problem Space</i>	343
<i>Domain-Specific Knowledge and Metacognition</i>	349
Obstacles to Problem Solving	350
<i>Einstellung</i>	351
<i>Functional Fixedness</i>	352
Creativity	353
<i>Historical Versus Process Creativity</i>	353
<i>Stages of Creativity</i>	354
<i>Sources of Creativity</i>	356
BOX 11.2: Unconscious Problem Solving?	357
Summary	358
Key Terms	360
Recommended Readings	360

12. Reasoning and Decision Making 363

Syllogistic Reasoning	364
<i>Syllogistic Forms</i>	365
<i>Human Performance</i>	369
<i>Explanations</i>	370

<i>The Importance of Meaning</i>	371
BOX 12.1: Cross-Cultural Differences	372

Conditional Reasoning	375
<i>Valid and Invalid Conditional Reasoning</i>	375
<i>Human Performance</i>	376
<i>Meaning and Models Revisited</i>	379

Inductive Reasoning	380
<i>Hypothesis Testing</i>	381
<i>Confirmation Bias Revisited</i>	381

Decision Making	382
<i>Types of Decisions</i>	383
<i>Reasoning Under Uncertainty</i>	384
BOX 12.2: Evaluating Health Risks	388
<i>Probability or Frequency</i>	390

Summary	391
---------	-----

Key Terms	392
-----------	-----

Recommended Readings	393
----------------------	-----

13. Intelligence and Thinking 395

Traditional Views of Intelligence	396
BOX 13.1: Artificial Intelligence	398

Three Alternatives to Tradition	399
<i>The Triarchic Theory</i>	399
<i>The Frames Theory of Multiple Intelligences</i>	402
<i>Conclusions</i>	406

The Enhancement of Thinking Skills	408
<i>Teaching General Thinking Skills</i>	409

Gender Differences	412
<i>Meta-Analysis</i>	413
<i>Verbal Differences</i>	415
<i>Visual-Spatial Differences</i>	415
<i>Mathematical Differences</i>	416
<i>Explanations</i>	416

Summary	419
---------	-----

Key Terms	421
-----------	-----

Recommended Readings	421
----------------------	-----

PART VI: THE PAST AND FUTURE

14. Consciousness 425

Varieties of Waking Consciousness 427

Anoetic, Noetic, and Autonoetic Consciousness 427

Normal Versus Dissociated Consciousness 429

BOX 14.1: Animal Consciousness 430

Dreaming and Daydreaming 434

Dreaming 434

BOX 14.2: Altered Consciousness 436

Daydreaming 439

Similarities Among Modes of Consciousness 440

Properties of Waking Consciousness 442

Narration 442

Sequential Construction 444

Executive Control 446

The Mind-Body Problem 449

Classic Viewpoints 449

An Interactive Synthesis 451

The Future of Cognitive Psychology 452

Summary 453

Key Terms 455

Recommended Readings 455
