

Contents

Introductory Remarks <i>A. Ray Olpin</i>	1
part I The Criterion	5
1 The Creative Person in Science <i>N. E. Golovin</i>	7
2 A Proposal for Establishing Ultimate Criteria for Measuring Creative Output <i>J. H. McPherson</i>	24
3 Ultimate Criteria for Two Levels of Creativity <i>Brewster Ghiselin</i>	30
4 The Development of a Criterion of Scientific Competence <i>Lindsey R. Harmon</i>	44
5 The Creative and Other Contributions of One Sample of Research Scientists <i>Calvin W. Taylor, William R. Smith, and Brewster Ghiselin</i>	53
6 A Proposal for Identifying the Meaning of Creativity <i>Thomas B. Sprecher</i>	77
7 The Definition and Measurement of Ingenuity <i>John C. Flanagan</i>	89

part II	Intellectual, Personality, and Motivational Characteristics	99
8	Intellectual Resources and Their Values as Seen by Scientists <i>J. P. Guilford</i>	101
9	The Personality and Motivation of the Researcher from Measurements of Contemporaries and from Biography <i>Raymond B. Cattell</i>	119
10	Personal Problems and Science <i>Anne Roe</i>	132
11	The Disposition Toward Originality <i>Frank Barron</i>	139
12	The Needs for Order and for Disorder as Motives in Creative Activity <i>Frank Barron</i>	153
13	The Highly Intelligent and the Highly Creative Adolescent: A Summary of Some Research Findings <i>J. W. Getzels and P. W. Jackson</i>	161
14	Explorations in Creative Thinking in the Early School Years: A Progress Report <i>E. Paul Torrance</i>	173
15	The Calculated Risk: An Aspect of Scientific Performance <i>David C. McClelland</i>	184
part III	Environmental Conditions and Specific Situational Determinants	193
16	The Relation of Creativity to Sociological Variables in Research Organizations <i>Norman Kaplan</i>	195
17	Demographic Cultural and Personality Attributes of Scientists <i>Robert H. Knapp</i>	205

18	A Transactional Approach to Creativity <i>Morris I. Stein</i>	217
19	Variables Related to Creativity and Productivity among Men in Two Research Laboratories <i>Donald W. Taylor</i>	228
20	Report on Creativity Research by the Examiner's Office of the University of Chicago <i>B. S. Bloom</i>	251
21	The College Environment as a Determinant of Research Potentiality <i>Donald L. Thistlethwaite</i>	265
22	An Interim Report on Creativity Research <i>Maury H. Chorness</i>	278
23	Negative Validities for Two Different Ingenuity Tests <i>Frank B. Jex</i>	299
24	Relationships between Measures of Scientific Performance and Other Variables <i>Donald C. Pelz</i>	302
25	Development of Individual Creative Talent <i>Sidney J. Parnes and Arnold Meadow</i>	311
26	Some Measures Related to Success and Placement in Basic Engineering Research and Development <i>David R. Saunders</i>	321
part IV	Theoretical Analyses of Process	329
27	A Conceptual Model for Integrating Four Approaches to the Identification of Creative Talent <i>Ross L. Mooney</i>	331
28	The Essential Tension: Tradition and Innovation in Scientific Research <i>Thomas S. Kuhn</i>	341
29	The Creative Process and Its Relation to the Identification of Creative Talent <i>Brewster Ghiselin</i>	355

30	Some Possible Relations between Communication Abilities and Creative Abilities <i>Calvin W. Taylor</i>	365
31	A Look Ahead: Reflections of the Conference Participants and the Editors	372
	Bibliography	391
	Index	409
