

CHAPTER 1

Attention: The Perceiver as Performer	1
<i>Eleanor Gibson and Nancy Rader</i>	
Some Examples of Attending	1
What Is Attention?	2
What Attention Is Not	5
Restatement of the Theme	7
Classic Variables of Attention	8
Expectation	12
How Does Attention Develop?	14
Specificity	14
Flexibility	17
Preparedness	18
Economy	18
Conclusion	19
References	20

CHAPTER 2

The Concept of Identity and Children's Selective Attention	23
<i>Eliane Vurpillot and William A. Ball</i>	
Introduction	23
The Task	24
Extent of Visual Scanning	26
Do Young Children Scan Only Part of the Stimuli?	26
What Factors Affect the Extent of Ocular Scanning?	27
Can Insufficient Scanning Explain Poor Performance in Differentiation Tasks?	28
Relevance of Perceived Differences to Judgments of Identity	32
Criteria of Identity Judgments and Scanning Strategies	35
Conclusion	39
References	41

CHAPTER 3

Development of Children's Attention to Stimulus Components	43
--	----

Gordon A. Hale

Introduction	43
The Component Selection Task	45
Development of Children's Disposition toward Selectivity	47
Age Trends in Component Selection	47
Overtraining Effects	49
Stimulus Integration and Integrality	50
Development of Flexibility in Attention to Components	51
Variation in Task Structure	52
Instructional Effects	53
Manipulation of Component Salience	54
Related Literature	56
General Conclusions on Development of Flexibility	57
A Further Issue in Measuring Attention to Components:	
Dimension Preferences	57
Concluding Remarks	61
References	62

CHAPTER 4

A Constructivist Account of the Development of Perception, Attention, and Memory	65
--	----

John T. Collins and John W. Hagen

Introduction	65
The Thesis	66
Nonconscious versus Conscious Perception	66
Two Qualitative Transitions of Development:	
From Nonconscious to Focal Processing	70
Empirical and Theoretical Underpinnings	76
Motor Efference as the Key to the Conscious Experience	
of Perception	76
Accommodative Imitation as the Key to Efference	81
A General, Unified Cognitive System?	86
Concluding Remarks	89
References	91

CHAPTER 5

Stimulus Dimensions, Problem Solving, and Piaget.....	97
<i>Patricia H. Miller</i>	
Introduction	97
Developmental Relationships between Conservation and Attention to Dimensions	99
Piaget's Model of Conservation	99
An Attentional Interpretation of Piaget's Model	100
The Role of Attention to Quantity	104
How Attention to Dimensions Affects Conservation Performance ..	105
Implications for an Understanding of the Development of Dimensionalization	109
Levels of Dimensionalization.....	110
Relationships between Dimensions	113
Dimensionalization of Changing Stimuli.....	114
Implications for Research on Dimensionalization	114
Summary	115
References.....	116

CHAPTER 6

Developmental Aspects of Selective Orientation	119
<i>Marcel Kinsbourne and James M. Swanson</i>	
From Selective Orienting to Mental Representation	119
Orienting Asymmetry and the Development of Handedness	122
Effect of Rightward Response Bias on Lateral Attending.....	128
Task-Related Attentional Biases	129
References.....	131

CHAPTER 7

Attentional Processes and Individual Differences	135
<i>Michael Lewis and Nancy Baldini</i>	
A Review of Models of Attention and Memory	137
Sokolov	139

Lewis	140
McCall	143
Cohen	145
Jeffrey	147
Olson	149
Fagan	152
Individual Differences in Information Processing	154
Developmental Variation	154
Individual Variation in Habituation	158
Clinical Applications of Individual Differences in Habituation ...	161
Conclusion	167
References	168

CHAPTER 8

Toward a Clearer Definition of the Attentional Deficit of Hyperactive Children	173
---	-----

Virginia I. Douglas and Kenneth G. Peters

Introduction	173
Confusion Caused by Current Diagnostic Labels	175
Description of Samples Used in the McGill Studies	177
Confusion Caused by Definitions of Attention	178
Selective Attention as Defined in Studies of Stimulus Reduction, Distraction, and Incidental Learning	179
Stimulus Reduction Studies with Hyperactive Children	180
Studies of Distractibility with Hyperactive Children	180
Studies of Distractibility with Learning-Disabled Children	187
Summary and Critique of Distractibility Studies with Hyperactive and Learning-Disabled Children	190
Incidental Learning Studies with Hyperactive Children	192
Incidental Learning Studies with Learning-Disabled Children ...	195
Summary and Critique of Incidental Learning Studies with Hyperactive and Learning-Disabled Children	196
Sustained Attention as Defined in Vigilance Studies	201
Vigilance Studies with Hyperactive Children	203
Vigilance Studies with Learning-Disabled Children	205
Studies with Hyperactives on Reaction Time Tasks Making Less Stringent Demands on Sustained Attention	206

Psychophysiological Concomitants of Vigilance Task	
Performance in Hyperactive Children.....	206
The Effects of Stimulant Drugs on Vigilance Task	
Performance of Hyperactive Children.....	208
The Effects of Reinforcement on Vigilance Task	
Performance of Hyperactive Children.....	209
Summary and Critique of Vigilance Studies with Hyperactive and Learning-Disabled Children.....	211
Sustained Attention as Defined in Studies of More Complex Perceptual and Conceptual Processes: A Brief Review.....	214
Studies with Hyperactives Using Tasks Requiring Perceptual and Logical Search Strategies.....	215
Arousal and Performance on More Complex Problem-Solving Tasks	219
Higher Order Schemata, Search Strategies, and Meta Processes	222
Summary and Critique: An Attempt to Conceptualize the Development and Consequences of Attentional Problems in Hyperactive and Learning-Disabled Children	232
References.....	237

CHAPTER 9

The Cognitive Effects of Stimulant Drugs on Hyperactive Children	249
---	-----

James M. Swanson and Marcel Kinsbourne

Definition of the Disorder	249
The Clinical Population	250
Magnitude of the Problem	252
Background Information on Drug Treatment	254
Evaluation of Diagnostic Drug Trials	256
Subjective Evaluation of Response to Questionnaire	257
Laboratory Tests.....	259
Experiments Using Paired-Associate Learning	260
Other Laboratory Tests	266
Tasks That Overdiagnose Stimulant Responsivity	266
Tasks with Complex Response Patterns.....	267
Problems with Drug Treatment	268
Directions for Future Research	270
References.....	271

Attention and Cognitive Style in Children.....	275
<i>Tamar Zelniker and Wendell E. Jeffrey</i>	
Introduction	275
The Confounding of Cognitive Style and Development	276
Attention and Cognitive Style: A Developmental Lag Approach	278
Style: Individual Differences in Attention Deployment	281
Data in Support of Individual Differences in Attention Deployment.....	282
Attention Deployment and Task Demands	284
Breadth of Attention and Cognitive Style	285
Attention and Cognitive Style: The Developmental Lag Interpretation Reevaluated	288
Cognitive Styles: Separate but Unequal?	289
An Effort Dimension of Cognitive Style	291
A Word of Caution	293
References.....	293

CHAPTER 11

Attention in the Classroom	297
<i>Dorothy Piontkowski and Robert Calfee</i>	
Introduction	297
Commonsense Ideas of Attention	298
Components of Attention	300
Alertness	302
Maintaining Alertness in the Classroom	303
Selectivity	305
External Sources of Influence on Selectivity	305
Internal Influences on Selectivity	307
Developmental and Individual Differences in Selective Attention	310
Central Processing	314
Automaticity	315
Monitoring and Fostering Attention in the Classroom	317
Visual Measures of Attentiveness	318
Verbal Measures of Attentiveness	319
Special Problems of Attention	321

Summary.....	325
References.....	326

CHAPTER 12

Watching Children Watch Television	331
<i>Daniel R. Anderson, Linda F. Alwitt, Elizabeth Pugzles Lorch, and Stephen R. Levin</i>	
When Children Begin to Watch Television.....	331
Amount of Television Viewing	334
Factors Related to Amount of Home Viewing.....	335
Visual Attention to Television	336
Distractors	337
Characteristics of the Child That Affect Attention to Television..	337
A General Pattern of Attention to Television	337
Attributes of Television Programs That Influence Visual Attention.	343
A New Attribute Analysis.....	345
Discussion of the Attribute Effects	347
Meaningful Units.....	347
Camera Techniques	350
Adult Males	351
Women.....	351
Children	351
Other Characters	352
Visual Techniques.....	352
Activity	353
Music	353
Other Sound Attributes	353
Summary of Attribute Effects	354
Auditory Attention to Television.....	354
A Possible Theoretical Direction for Future Research on Attention to Television	356
Final Comments	358
References.....	359
Index	363
