

# Contents

<b>Preface</b> . . . . .	ix
<b>1. The nature of human judgement</b> . . . . .	1
<b>2. Randomness and the probabilistic environment</b> . . . . .	11
<b>3. Combining information for prediction</b> . . . . .	29
<b>4. Combining information for evaluation and choice</b> . . . . .	53
<b>5. On learning relationships</b> . . . . .	75
<b>6. The role of memory in judgement</b> . . . . .	93
<b>7. Creativity, imagination and choice</b> . . . . .	110
<b>8. Problem structuring and decision aids</b> . . . . .	130
<b>9. Human judgement: An overview</b> . . . . .	155

## APPENDICES

<b>A. Rules of probability</b> . . . . .	185
<b>B. Notes on probability assessment</b> . . . . .	193
<b>C. Notes on assessing utility</b> . . . . .	227
<b>D. A guide to further reading</b> . . . . .	232
<b>Index</b> . . . . .	247
