

CONTENTS

| | | |
|----------|---|-----------|
| A | Introduction | 10 |
| 1. | Water, ah water! | 10 |
| 2. | Flood mitigation | 12 |
| 3. | The significance of cultural understanding | 17 |
| 4. | Objectives of the study and research questions | 18 |
| 5. | Structure of the thesis | 19 |
| B | Notion of risk and problem dimensions of flood management..... | 21 |
| 1. | Risk as a manifold concept | 21 |
| 2. | Challenge in flood management | 27 |
| C | Sites of field work..... | 32 |
| 1. | Location, population and economy | 32 |
| 1.1. | Wuhan, China..... | 32 |
| 1.2. | Cologne, Germany | 35 |
| 2. | Historical flood events | 38 |
| 2.1. | Wuhan, China..... | 38 |
| 2.2. | Cologne, Germany | 39 |
| 3. | Engineered measures | 40 |
| 3.1. | Wuhan, China..... | 40 |
| 3.2. | Cologne, Germany | 43 |
| D | Methodological approach | 44 |
| 1. | Research design | 44 |
| 1.1. | Qualitative social research method | 44 |
| 1.2. | Research subjects | 45 |
| 1.3. | Range of methods applied and the field work | 45 |
| 2. | Field work experiences | 47 |
| 2.1. | In Germany | 47 |
| 2.2. | In China | 48 |
| 3. | Data | 51 |
| 3.1. | Data and data transcription | 51 |
| 3.2. | Data analysis | 52 |
| 4. | The role of the researcher | 53 |
| E | Research results..... | 54 |
| 1. | Flood risk perception | 55 |
| 1.1. | Institutional arrangement of flood protection | 55 |
| 1.1.a. | Wuhan, China | 55 |
| 1.1.b. | Cologne, Germany | 62 |
| 1.1.c. | Synopsis | 65 |
| 1.2. | Spatial planning and land use..... | 66 |
| 1.2.a. | Wuhan, China | 66 |
| 1.2.b. | Cologne, Germany | 70 |
| 1.2.c. | Synopsis | 73 |
| 1.3. | Decision-making, conflict of interests and reconciliation..... | 74 |
| 1.3.a. | Wuhan, China | 74 |
| 1.3.b. | Cologne, Germany | 98 |
| 1.3.c. | Synopsis | 112 |
| 1.4. | Perception of general public by the risk management agencies..... | 118 |
| 1.4.a. | Wuhan, China | 118 |
| 1.4.b. | Cologne, Germany | 120 |
| 1.4.c. | Synopsis | 121 |
| 1.5. | Human-nature relationship | 121 |
| 1.5.a. | Wuhan, China | 121 |
| 1.5.b. | Cologne, Germany | 127 |

| | |
|---|------------|
| 1.5.c. Synopsis | 130 |
| 1.6. The role of the military (Excursus) | 131 |
| 2. Flood risk communication | 132 |
| 2.1. Inter-agency communication and cooperation | 133 |
| 2.1.a. Wuhan, China | 133 |
| 2.1.b. Cologne, Germany | 136 |
| 2.1.c. Synopsis | 138 |
| 2.2. Information and risk awareness | 138 |
| 2.2.a. Wuhan, China | 138 |
| 2.2.b. Cologne, Germany | 139 |
| 2.2.c. Synopsis | 143 |
| 2.3. Questioning of authority | 144 |
| 2.3.a. Wuhan, China | 144 |
| 2.3.b. Cologne, Germany | 144 |
| 2.3.c. Synopsis | 147 |
| F Theoretical analysis | 148 |
| 1. Two approaches of risk analysis | 148 |
| 1.1. The psychometric paradigm | 149 |
| 1.2. In the light of the cultural theories | 151 |
| 1.2.a. Culture: An ambitious and ambiguous concept | 152 |
| 1.2.b. Cultural theories and their approach to risk analysis | 153 |
| 1.2.c. Constraints and significance of cultural theory | 170 |
| 2. Cross-cultural risk perception studies | 172 |
| G Discussion | 176 |
| 1. Link between theory and empiricism | 176 |
| 1.1. Ways of life: Social relations and cultural biases | 176 |
| 1.2. Conception of human and nature | 183 |
| 1.3. Risk selection and risk discourse | 185 |
| 1.3.a. Risk selection | 185 |
| 1.3.b. Risk discourse | 188 |
| 1.4. Synopsis | 189 |
| 2. Generalisation and transferability | 190 |
| 3. Limitation of the research | 191 |
| H Conclusion | 193 |
| 1. Flood risk perception and its cultural context | 194 |
| 2. Flood risk communication and its cultural context | 197 |
| 3. Final remarks: "...residing in rivers and lakes forgetting each other" | 198 |
| Zusammenfassung (Executive Summary) | 201 |
| Reference list | 213 |

LIST OF CHARTS

| | |
|--|----|
| Chart 1: Administrative concept of the city of Wuhan..... | 34 |
| Chart 2: Organisation for flood control and disaster relief in China | 56 |
| Chart 3: Organisational features of flood management in China..... | 60 |
| Chart 4: Organisation chart of the crisis management group..... | 64 |

LIST OF FIGURES

| | |
|---|-----|
| Figure 1: Cycle of disaster management | 29 |
| Figure 2: Location of 81 hazards on factors 1 and 2 derived from the interrelationships among 15 risk characteristics. Each factor is made up of a combination of characteristics, as indicated by the lower diagram..... | 150 |
| Figure 3: The five vignettes mapped onto the two dimensions of sociality | 160 |
| Figure 4: The four primary myths of nature..... | 163 |

LIST OF MAPS

| | |
|---|-----|
| Map 1: Position of the Changjiang River Basin in China..... | 33 |
| Map 2: Gross domestic product of the Changjiang river basin (2000)..... | 35 |
| Map 3: Rhine catchments..... | 36 |
| Map 4: Structure of the city area of Cologne..... | 37 |
| Map 5: Engineered measures in the city of Wuhan..... | 41 |
| Map 6: Flood protection in Wuhan..... | 69 |
| Map 7: Planed retention area | 104 |

LIST OF PICTURES

| | |
|--|-----|
| Picture 1: Dike area in the city of Wuhan..... | 123 |
| Picture 2: The People's Hall: Venue of the ceremony to praise the Chinese military for their achievement in flood fighting during the Great Flood 1998 | 187 |

LIST OF TABLES

| | |
|---|-----|
| Table 1: Overview of the five freshwater flood events with most people killed, Jan 1975 - June 2002 | 12 |
| Table 2: Statistics of the water levels above 27.30 metres measured in Wuhanguan water station between 1865 and 2003..... | 38 |
| Table 3: Water levels above nine metres since 1816 | 39 |
| Table 4: Statistics of the cities which have reached national standard for flood protection | 42 |
| Table 5: Retention areas of Yangtze River catchments..... | 57 |
| Table 6: Population development and land use in Wuhan..... | 67 |
| Table 7: Four Problems of Risk..... | 154 |
| Table 8: The four political cultures | 169 |
