

Contents

Preface	v
1. INTRODUCTION	1
I. Preliminaries	1
II. Approaches to thinking	4
III. Summary and concluding comments	14
IV. Further reading	15
2. SOLVING PUZZLES	16
I. State–action representations	17
II. Problem reduction approach	21
III. Experimental studies	23
IV. Summary and concluding comments	56
V. Further reading	58
VI. Appendix	58
3. EXPERTISE 1: ADVERSARY PROBLEMS	59
I. Game trees and the minimax principle	59
II. Artificial intelligence and chess	60
III. Experimental studies of human adversary problem solving	62
IV. Summary and concluding comments	76
V. Further reading	78
4. EXPERTISE 2: NON-ADVERSARY PROBLEMS	79
I. Expert–novice comparisons	79
II. Development of expertise	93
III. Summary and concluding comments	103
IV. Further reading	104
5. DEDUCTIVE REASONING 1: CATEGORICAL SYLLOGISMS	105
I. Categorical syllogistic reasoning	106
II. Summary and concluding comments	125
III. Further reading	128

6. DEDUCTIVE REASONING 2: PROPOSITIONAL REASONING	129
I. Propositional logic	129
II. Psychological studies	131
III. Summary and concluding comments	145
IV. Further reading	146
7. INDUCTIVE REASONING: TESTING AND GENERATING HYPOTHESES	147
I. The four-card selection problem	147
II. Generating and testing hypotheses	162
III. Summary and concluding comments	172
IV. Further reading	173
8. DECISION MAKING	174
I. Normative models for risky decision making	175
II. Riskless decision making	180
III. Processing probability information	184
IV. Consequentialism and non-consequentialism	189
V. Summary and concluding comments	191
VI. Further reading	193
9. DAYDREAMING	194
I. Psychometric approaches	195
II. Experimental approaches to daydreaming	197
III. Conceptual models of daydreaming	210
IV. Summary and concluding comments	211
V. Further reading	212
10. CREATIVE PROCESSES	213
I. Studies of creative individuals	215
II. Stage analysis	219
III. Increasing idea production	224
IV. Theoretical approaches	230
V. Summary and concluding comments	242
VI. Further reading	244
11. THINKING: THEORETICAL OVERVIEW, PROGRESS AND PROSPECTS	245
I. Standard model assumptions	246
II. Theoretical progress?	258
III. Research trends	258
IV. Concluding comments	259
V. Further reading	260
