Preface	xiii
1. Introduction: Speech Perception <i>Franklin S. Cooper</i>	1
2. The Status of Phonetic Gestures <i>Björn Lindblom</i> Comment: Beyond the Segment <i>Osamu Fujimura</i>	7 25
3. The Perception of Phonetic Gestures <i>Carol A. Fowler and Lawrence D. Rosenblum</i> Comment: The Gesture as a Unit in Speech Perception Theories <i>Peter F. MacNeilage</i>	33 61
4. Ontogeny of Phonetic Gestures: Speech Production <i>Marilyn May Vihman</i> Comment: The Emergent Gesture <i>Michael Studdert-Kennedy</i>	69 85

5.	The Ontogeny of Speech Perception <i>Janet Werker</i> Comment: Some Effects of Language Acquisition on Speech Perception <i>Peter D. Eimas</i>	91 111
6.	Visual Perception of Phonetic Gestures <i>Quentin Summerfield</i> Comment: Bimodal Speech Perception and the Motor Theory <i>Joanne L. Miller</i>	117 139
7.	Brain Function for Language: Perspectives From Another Modality <i>Howard Poizner, Ursula Bellugi, and Edward S. Klima</i> Comment: Dr. Harlan and Mr. Lane <i>Harlan Lane</i>	145 171
8.	Panel Discussion: The Motor Theory and Alternative Accounts <i>J. C. Catford, Peter W. Jusczyk, Dennis H. Klatt (Chairman), Alvin M. Liberman, Robert E. Remez (Reporter), Kenneth N. Stevens</i>	175
9.	The Compositional Process in Cognition With Applications to Speech Perception <i>Albert S. Bregman</i> Comment: Modes of Processing Speech and Nonspeech Signals <i>David B. Pisoni</i>	197 225
10.	The Relationship Between Speech Perception and the Perception of Other Sounds <i>C. J. Darwin</i> Comment: Around Duplex Perception <i>Bruno H. Repp</i>	239 261
11.	Whence the Specialization of the Language Hemisphere? <i>Helen J. Neville</i>	269
12.	Neural Mechanisms of Binaural Fusion <i>Masakazu Konishi</i>	295

13.	Gestural Structures: Distinctiveness, Phonological Processes, and Historical Change <i>Catherine Browman and Louis Goldstein</i>	313
14.	Reading and the Biological Function of Linguistic Representations <i>Ignatius G. Mattingly</i> Comment: Writing Systems and the Modularity of Language <i>Daniel Holender</i>	339 347
15.	Panel Discussion: The Modularity of Speech and Language <i>Ursula Bellugi, Sheila Blumstein (Chairman), Jerry Fodor, Virginia Mann, Arthur Samuel (Reporter)</i>	359
16.	Modularity and Learning to Read <i>Stephen Crain and Donald Shankweiler</i>	375
17.	The Emergence of Phonological Awareness: Comparative Approaches <i>Paul Bertelson and Beatrice de Gelder</i> Comment: Linguistic Awareness and Metalinguistic Control <i>Edward S. Klima</i>	393 413
18.	Panel Discussion: Sentence Perception and Sentence Production <i>Janet Fodor, Lyn Frazier, Merrill Garrett, Paul Gorrell (Reporter), Jacques Mehler (Chairman)</i>	423
19.	Summary of the Conference: Speech is Special <i>James J. Jenkins</i>	431
20.	Afterthoughts on Modularity and the Motor Theory <i>Alvin M. Liberman</i>	443
