

Preface	x
How to use this book	xiii
SECTION A: INTRODUCTION	1
1. The study of language	3
Introduction	3
What is language and how did it originate?	5
The history and methods of psycholinguistics	11
Themes and controversies in modern psycholinguistics	19
Summary	24
Some questions to think about	25
Further reading	25
2. Describing language	27
Introduction	27
How to describe speech sounds	27
Linguistic approaches to syntax	33
Summary	42
Some questions to think about	43
Further reading	43
SECTION B: THE BIOLOGICAL AND DEVELOPMENTAL BASES OF LANGUAGE	45
3. The foundations of language	47
Introduction	47

Do animals have language?	47
The biological basis of language	60
The cognitive basis of language:	
The cognition hypothesis	70
The social basis of language	77
What is the relation between	
language and thought?	79
Summary	88
Some questions to think about	89
Further reading	89
4. Language development	91
Introduction	91
The driving forces of language	
development	93
Phonological development	105
Semantic development	109
Early syntactic development	118
Summary	128
Some questions to think about	129
Further reading	129
5. Bilingualism and second language	
 acquisition	131
Introduction	131
Bilingualism	131
Second language acquisition	135
Summary	138
Some questions to think about	138
Further reading	138

6. Recognizing visual words	141
Introduction	141
Methods and findings	142
Meaning-based facilitation of visual word recognition	156
Morphology: Processing complex words	160
Models of visual word recognition	162
Lexical ambiguity	168
Summary	176
Some questions to think about	177
Further reading	177
7. Reading	179
Introduction	179
A preliminary model of reading	181
The processes of normal reading	182
The neuropsychology of adult reading disorders: Acquired dyslexia	189
Models of word naming	195
Learning to read and spell	206
Summary	216
Some questions to think about	217
Further reading	217
8. Understanding speech	219
Introduction	219
Recognizing speech	219
Models of speech recognition	228
The neuropsychology of spoken word recognition	240
Summary	241
Some questions to think about	242
Further reading	242

SECTION D: MEANING AND BEYOND 243

9. Understanding the structure of sentences	245
Introduction	245
Coping with structural ambiguity	247
Early work on parsing	248
Processing structural ambiguity	254
Gaps, traces, and unbounded dependencies	267

The neuropsychology of parsing	269
Summary	273
Some questions to think about	274
Further reading	274
10. Word meaning	275
Introduction	275
Classic approaches to semantics	277
Semantic networks	278
Semantic features	281
Family resemblance and classification	288
Combining concepts	292
Processing figurative language	293
The neuropsychology of semantics	294
Connectionist approaches to semantics	303
Summary	307
Some questions to think about	309
Further reading	309
11. Comprehension	311
Introduction	311
Memory for text and inferences	313
Reference, coreference, and ambiguity	322
Models of text representation and processing	327
Individual differences in comprehension skills	335
Pragmatics	337
The structure of conversation	341
The neuropsychology of text and discourse processing	342
Summary	343
Some questions to think about	344
Further reading	345
SECTION E: PRODUCTION AND OTHER ASPECTS OF LANGUAGE	347
12. Language production	349
Introduction	349
Speech errors	351
Syntactic planning	352
Lexicalization	359
Phonological encoding	371
The analysis of hesitations	374
The neuropsychology of speech production	376

Writing and agraphia	386
Summary	387
Some questions to think about	389
Further reading	389
13. The structure of the language system	391
Introduction	391
What are the modules of language?	392
How many lexicons are there?	393
Language and short-term memory	398
Summary	402
Some questions to think about	403
Further reading	403
14. New directions	405
Introduction	405

Themes in psycholinguistics revisited	405
Some growth areas?	408
Conclusion	409
Further reading	410
Appendix: Connectionism	411
Interactive activation models	411
Back-propagation	413
Further reading	415
Glossary	417
Example of sentence analysis	426
References	427
Author index	507
Subject index	000
