Figures

1.1 “Passing on the Risks.”  
1.2 Crisis in the US mortgage market: sub-prime loan volume, sub-prime mortgages as share of all mortgages and mortgage delinquency rates by mortgage type.  
2.1 Indices of silver per coin.  
2.2 Mint points for the rixdollar in 1609.  
2.3 Mint points for the rixdollar and lioncrown, 1609 and 1615.  
2.4 Seigniorage and penalties for rixdollars in 1607, in florins per day.  
2.5 Mint points for heavy and debased coins, 1610 to 1620.  
2.6 Mint points for the rixdollar, the debased rixdollar and the patagon, 1619–1621.  
2.7 Production of heavy silver coins at five provincial mints.  
2.8 Lioncrown seigniorage and penalties, in florins per day.  
2.9 Rixdollar seigniorage and penalties, in florins per day.  
2.10 Seigniorage and penalties for rixdollars in 1620, in florins per day.  
2.11 Wisselbank deposits and debasement.  
2.12 Mint points for the rixdollar, lioncrown and patagon, 1622–1638.  
2.13 Dutch CPI and production of heavy silver coin.  
2.14 Effects of the 1638 toleration.  
2.15 Deposits at the Amsterdam Wisselbank.  
3.1 The income from real estate, securities, and all investment as a percentage of total income at the Burgerweeshuis, 1639–1779.  
3.2 Government bonds purchases by the Burgerweeshuis, 1650–1800.  
3.3 The composition of the annual income of Amsterdam’s Oudezijds Huiszittenhuis in the eighteenth century.
List of figures

3.4 The nominal value of obligations issued by Holland in the portfolio of Amsterdam's Nieuwezijds Huiszittenhuis, 1600–1800. 80

3.5 The value of financial assets in the portfolios of several Amsterdam guilds, 1650–1800. 87

4.1 French public finances before and after the System. 108

4.2 Prices of shares in the Compagnie des Indes. From June 1720 to February 1721. 109

6.1 Summary of interest rates, 1450–1889. 165

6.2 Amsterdam shadow interest rate, from London Course of Exchange (%). 187

6.3 London shadow interest rate, from Amsterdam Course of Exchange (%). 188

6.4 Paris shadow interest rate, from London Course of Exchange (%). 188

6.5 Commercial rates, five-year moving averages (%). 190

6.6 Seasonality in interest rates, 1740–1770. 192

6.7 Seasonality in interest rates, 1770–1789. 192

6.8 Paris shadow interest rate, from London and Amsterdam (%). 194

6.9 Britain: various interest rates (%). 196

6.10 France: various interest rates (%). 196

9.1 Profit rates of national banks by region. 268

9.2 Structural profit premia and risk. 284

9.3 Capitalization of US national banks, 1870 to 1914. 285

10.1 Price of a seat on the NYSE. 298

10.2 Cumulative abnormal monthly returns to NYSE seat, 1928–1929. 302

10.3 Actual and forecast monthly NYSE seat. 304

10.4 The Curb Exchange, 1926–1933. 311

10.5 Regional exchanges, 1927–1930. 311

10.6 Actual and forecast monthly Curb seat prices, 1928–1930. 315

11.1 Construction permits in silver and non-silver states, 1931–1938. 326

11.2 Personal income in silver and non-silver states, 1929–1938. 326

11.3 Silver, non-silver money, and prices, 1934:1–1939:6. 328

11.4 Non-silver-state impulse responses (ordering #1). 329

11.5 Silver-state impulse responses (ordering #1). 330

11.6 Non-silver-state impulse responses (ordering #2). 332

11.7 Silver-state impulse responses (ordering #2). 333
11.8 Historical decompositions of SSTATES. 335
11.9 Non-silver-state impulse responses for structural model. 337
11.10 Silver-state impulse responses for structural model. 338
11.11 Non-silver-state impulse responses for monetary base. 340
11.12 Silver-state impulse responses for monetary base. 341
12.1 Sugar prices, cif New York. 351
12.2 Sugar-company equity indices. 357
12.3 Moving-window exclusion tests on structural breaks. 368
12.4A Successive fixed-window exclusion tests on iterative structural breaks, January 1921–October 1926. 370
12.4B Successive fixed-window exclusion tests on iterative structural breaks, April 1927–December 1931. 371
12.5A Market risk of sugar company stocks by supplier area. 373
12.5B Industry risk of sugar company stocks by supplier area. 373
13.1 Index of industrial production (1938=100). 403
13.2A Bank rates for Britain, Austria, and Germany. 406
13.2B Bank rates for Czechoslovakia, Hungary, and Poland. 406
13.3 Frequency and magnitude of bank rate changes
(January 1925–December 1931). 407
14.1 Number of countries with an ongoing stock market boom in given month, 1924–2000. 425
14.2 Five-year moving average correlation of cross-country returns. 425
14.3 Real GDP growth (minus long-run average): All twentieth century booms. 428
14.4 Inflation rate (minus long-run average): All twentieth century booms. 429
14.5 Real GDP growth (minus long-run average):
Interwar booms. 434
14.6 Inflation rate (minus long-run average):
Interwar booms. 434
14.7 Real GDP growth (minus long-run average):
Booms of the 1950s–1960s. 438
14.8 Inflation rate (minus long-run average):
Booms of the 1950s–1960s. 438
14.9 Real GDP growth (minus long-run average):
Booms of the 1970s–1990s. 441
14.10 Labor productivity growth (minus long-run average):
Booms of the 1970s–1990s. 442
14.11 Inflation rate (minus long-run average): Booms of the 1970s–1990s. 442
# Tables

2.1 Changes in external and internal value of the florin  
2.2 The *agio* (premium) on *Wisselbank* deposits  
3.1 The investment portfolio of St. Peter's Hospital  
in Amsterdam, 1650 and 1750  
3.2 The annual income from real estate, securities, and  
other revenue sources of the Roman Catholic  
*Maaagdenhuis*, 1600–1800  
3.3 The revenues of the *Hervormde Diaconie*, 1770  
3.4 The investment portfolio of the *Hervormde Diaconie*  
in 1771  
3.5 The value of property owned by Amsterdam guilds  
in 1799, according to their own statements  
3.6 The property of guilds in several towns in Holland  
in 1799  
4.1 Expected revenues from the Company's activities  
as of December 1719  
4.2 Total revenues of the tobacco monopoly, broken down  
into lease price and farmers' profits, in current  
livres per year  
4.3 Prices of *Fermes Générales* shares (FG) and government  
*rentes sur l'hôtel de Ville* (rentes), 1718–1719  
4.4 Valuation of Law's Company  
5.1 Contracts in the Portland (London) manuscripts  
6.1 Exchange market money market arbitrage operations:  
survey  
6.2 Time horizon for "long" and "short" bills  
6.3 List of financial crises, 1700–1789  
6A.1 Interest rates in the early modern period  
6A.2 Regression output (1900:01–1914:06, least squares)  
7.1 US state-chartered banks: numbers and authorized  
capital, by region and total, 1790–1835
