

Language Understanding: A Cognitive Approach

Contents

Preface	11
Introduction	13
How to use this guide	14

Part I Language and Knowledge 15

1 Introduction	17
2 Types of linguistic knowledge	20
2.1 Lexical meanings and syntax	20
2.2 Semantics and general knowledge	21
2.3 Language use and pragmatics	22
2.4 Knowledge representations	23
3 Inferences in language comprehension	24
3.1 The given-new contract	25
3.2 Bridging inferences	27
3.3 Inferences and memory	29
3.4 The effort after meaning	30
4 Schemas, frames and scripts	33
4.1 Schema theory	34
4.2 Schemas and frames	35
4.3 Scripts	38
4.4 Goals and plans	43
4.5 Story schemas and story grammars	45
5 Some conclusions	49
Further reading	50

Part II	Representations and Processes	51
1	Introduction	53
2	The lexicon	55
2.1	Word meanings	56
2.2	Semantic features	57
2.3	Case frames	59
2.4	Semantic primitives	62
2.5	Words and concepts	64
3	Syntactic processing	66
3.1	Chomsky's theory of transformational grammar	66
3.2	Transformational rules	70
3.3	Evaluation of Chomsky's theory	72
3.4	Syntactic parsers (ATNs)	76
4	Semantic processing	82
4.1	Semantic analysers	82
4.2	Conceptual Dependency representations	84
4.3	Propositions	86
4.4	Syntax or semantics?	87
5	Discourse processing	91
5.1	Local coherence	91
5.2	Global structure	93
6	Some conclusions	95
	Further reading	97

Part III	Models of Language Understanding	99
1	Introduction	101
2	Early AI programs	104
2.1	ELIZA	105
2.2	BASEBALL	107
3	Winograd's SHRDLU	109
3.1	The blocks world	110
3.2	Three modules	111
3.3	Evaluation of SHRDLU	114
4	Schank's model of language understanding	116
4.1	Conceptual Dependencies revisited: MARGIE	116
4.2	Scripts revisited: SAM	120

4.3	Sketchy scripts: FRUMP	125
4.4	Beyond scripts: MOPS	128
4.5	Using MOPs in IPP	130
4.6	The thread through Schank's work	133
5	Some conclusions	136
	Further reading	140

	Overview	141
	Answers to SAQs	146
	References	153
	Index of Authors	156
	Index of Concepts	157
