<i>Preface</i>	ix
<i>Acknowledgments</i>	xi

Chapter 1	The Emotions and Their Neurophysiological Substrates	
I.	A Way of Conceptualizing the Emotions	1
II.	Neurophysiological and Biochemical Considerations	4
III.	Summary	23
Chapter 2	The Neurophysiology and Biochemistry of Fear and Anxiety	
I.	Neurophysiological Considerations	29
II.	Biochemical Considerations	37
III.	Summary	40
Chapter 3	Anxiety as a Variable Combination of Interacting Fundamental Emotions	
I.	Introduction	43
II.	A Conceptual Analysis of Anxiety	47
III.	Summary	58
Chapter 4	Differential Emotion Theory in Relation to Classical Psychoanalytic and Cognitive Theories of Emotion and Anxiety	
I.	The Classical Psychoanalytic Theory of Anxiety	61
II.	Emotion and Behavior as a Result of Cognition	67
III.	Emotion as Response or Response Syndrome	71
IV.	Emotion Response Syndrome versus Intrapersonal Emotion System	73
V.	Anxiety as Anticipatory Reaction or Arousal	75
VI.	Anxiety as a Concept That Includes Fear, Shame, and Guilt	78
VII.	Summary	79

Contents

Chapter 5	An Empirical Analysis of Anxiety in Terms of Discrete Emotions	
I.	Introduction	83
II.	The Differential Emotion Scale	85
III.	Combining the DES and an Anxiety Scale	91
IV.	DES+A as a Tool for Analyzing the Experience of Anxiety	92
V.	DES+A Applied to the Emotions That Constitute Anxiety	96
VI.	Patterns of Emotions	103
VII.	Patterning of Emotions as Represented by the Empirical Factors	104
VIII.	Can Anxiety Be Considered a Second-Order Factor?	108
IX.	Relationships among Free-Response Descriptions of the Anxiety Situation and the Discrete Emotion Situations	111
X.	Patterning of Emotions as Represented by the a Priori Scales	112
XI.	Patterns of Emotions in a Highly Threatening Real-Life Situation	123
XII.	Summary	126
Chapter 6	A Dimensional and Discrete Emotions Investigation of the Subjective Experience of Emotion	
	<i>Edmund S. Bartlett and Carroll E. Izard</i>	
I.	Introduction	129
II.	Basic Dimensions of Emotion	131
III.	Method	139
IV.	Procedure	140
V.	Results	141
VI.	Discussion	159
VII.	Comparison of DRS and DES in the Assessment of the Anxiety Experience	165
VIII.	Relationship of Dimensional and Discrete Emotions Approaches to the Study of Emotional Experience	170
IX.	Summary	172
Chapter 7	Neurophysiological and Biochemical Factors in Depression	
I.	Neurophysiological Considerations	176
II.	Biochemical Considerations	178
III.	The Need for a New Concept of Depression	190
IV.	Summary	191

Chapter 8	Psychoanalytic Theories of Depression	
I.	Introduction	195
II.	The Original Psychoanalytic Model of Depression	196
III.	Freud's View of Depression	198
IV.	Narcissistic Loss and Fixation	201
V.	Dependency, Emptiness, and Shame	201
VI.	Loss of Self-Esteem and Ego Conflicts	202
VII.	Depression Independent of Loss	205
VIII.	Depression and the Disruption of Sensory and Perceptual Functions	205
IX.	A Psychoanalytic View Involving Discrete Emotions and Emotion Dynamics	206
X.	Empirical Studies of Psychoanalytic Concepts	207
XI.	Summary	211
Chapter 9	Biogenetic, Sociocultural, and Cognitive Factors in Depression	
I.	A Biogenetic Theory of Depression	215
II.	Sociocultural Factors in Depression	220
III.	Cognitive Factors and a Detailed Cognitive Theory	223
IV.	The Symptomatology and Phenomenology of Depression	228
V.	Some Personality (Test) Characteristics of Depression	234
VI.	Summary	234
Chapter 10	Depression as a Pattern of Emotions and Feelings: Factor-Analytic Investigations	
	<i>Alan G. Marshall and Carroll E. Izard</i>	
I.	Introduction	237
II.	Study I	241
III.	Study II	250
IV.	Summary	253
Chapter 11	Differential Emotion Theory and the Empirical Analysis of Depression	
I.	Introduction	255
II.	The Differential Emotion Theory of Depression	257
III.	Empirical Analysis of Depression	259
IV.	Patterns of Emotions and Feelings in Depression	260
V.	Anxiety versus Depression	264

Contents

VI.	Measures Used in the Depression Studies	266
VII.	The Depression Scores from the Depression and Fundamental Emotion Situations	268
VIII.	The DES+D Profiles from the Depression and the Fundamental Emotion Situations	270
IX.	DES+D Factors in the Fundamental Emotion Situations	272
X.	A Priori Profiles in Depression and the Related Fundamental Emotion Situations	273
XI.	Patterns of Emotions of Depressive Clients in Psychotherapy	277
XII.	Patterns of Emotion and Feelings in Hospitalized Depressive Patients	279
XIII.	Summary	280
	References	283
	<i>Subject Index</i>	293
