In Mongolian language:

Title	1
Content	3
Preface	5
Chapter I. The natural conditions of the Mongolian Altai	11
I.1. Relief	
I.2. Climate	
I.3. Soils	
I.4. Water resources	
Chapter II. The investigation history of the plant cover in the Mongolian Altai	23
Chapter III. The altitudinal belts of the vegetation in the Mongolian Altai	33
A. North-Eastern part of the Mongolian Altai	
B. North-Western part	
B. Central part	
Г. South-Eastern part	
Chapter IV. Classification of the vegetation in the Mongolian Altai	59
I. 1.-6. High mountain tundra vegetation	67
II. 7.-10. Vegetation of alpine and sub-alpine grassland	72
III. 11.-14. High mountain cryophyte grassland	74
IV. 15. High mountain mires	84
V. 16.-17. Cryophyte cushion vegetation	85
VI. 18.-19. Coniferous forests	86
VII. 20.-26. River floodplain small-leaved woodland and shrubs	89
VIII. 27.-28. Evergreen Juniper-shrubs	91
IX. 29.-34. Xerophytic and mesophytic shrubland	91
X. 35.-63. Steppes	93
XI. 64.-65. Thorn-cushion vegetation	116
XII. 66.-70. Deserts	117
XIII. 71.-80. River floodplain grassland	118
XIV. Azonal vegetation	121

Chapter V. Vegetation map of the Mongolian Altai	123
V.1. Principles and structure of the legend	
V.2. Vegetation maps	
V.3. Legend	
Chapter VI. The botanical-geographical regions of the Mongolian Altai	171
Chapter VII. Problems of sustainable use and conservation of the plant cover	199
VII.1. Present and future state of the vegetation	199
VII.2. Problems of present use of vegetation (with a list of 160 medicinal plants)	213
VII.3. Problems of ecosystem protection	241
Conclusions	253
Literature	257
List of vascular plant species	267-317
