Foreword	xxi
Preface	xxiii
Acknowledgments	xxv
1 Approaches to Understanding	1
Introduction	2
Founding a psychology of emotions	2
<i>Charles Darwin: the biological approach</i>	2
<i>William James: the bodily approach</i>	5
<i>Sigmund Freud: the psychotherapeutic approach</i>	7
Philosophical and literary background	11
<i>Aristotle: the conceptual approach</i>	11
<i>René Descartes and Baruch Spinoza: the philosophical approach</i>	15
<i>George Eliot: the literary approach</i>	18
The gathering momentum of modern research	22
<i>John Harlow and Walter Hess: brain science</i>	22
<i>Magda Arnold and Sylvan Tomkins: new psychological theories</i>	26
<i>Alice Isen and Gordon Bower: experimenting on effects of emotions</i>	28
<i>Erving Goffman and Arlie Russell Hochschild: the dramaturgical perspective</i>	31
Drawing together some threads	33
Summary	34
Further reading	34
2 Cultural Understandings of Emotions	37
The cultural context	38
<i>Romanticism</i>	38
<i>Comparing ourselves with people of other cultures</i>	42
<i>Emotional climates</i>	45
Are there human universals of emotions?	49

	<i>Differences of elicitors and interpretations in different cultures</i>	50
	<i>Display rules</i>	52
	<i>Cultural construction and the social functions of emotion</i>	53
	Passionate love	54
	<i>Falling in love</i>	55
	<i>Medieval courtly love</i>	55
	<i>In-love as a transitional social role</i>	58
	Summary	59
	Further reading	59
3	Evolution of Emotions	61
	Emotional expressions: are they natural but obsolete?	62
	<i>Emotions, reflexes, action patterns, and biases</i>	63
	Pancultural recognition of facial expressions of emotion	65
	Species-characteristic patterns of action	70
	Origins of the emotional characteristics of humankind	72
	<i>The social lives of our living primate relatives</i>	72
	<i>Evidence of human ancestry</i>	78
	<i>Hunter-gathering ways of life</i>	80
	Attachment in humans and other primates	83
	Emotions as bases of social relationships	87
	<i>Intentionality of emotions</i>	87
	<i>Social emotions</i>	88
	<i>The uniqueness of human relationships</i>	91
	Summary	94
	Further reading	94
4	What is an Emotion?	95
	Definitions and examples of emotions	96
	<i>Concepts of emotion based on prototypes</i>	97
	The process of emotion	98
	<i>Appraisal</i>	99
	<i>Context evaluation</i>	102
	<i>Action readiness</i>	105
	<i>Expression, bodily change, action</i>	106
	<i>Relations among elicitors, experience, expressions, and bodily changes</i>	115
	<i>So what are emotions really?</i>	122
	The affective realm: emotions – moods – dispositions	124
	<i>Components or basic emotions</i>	128
	Summary	130
	Further reading	131

5	Brain Mechanisms of Emotion	133
	How do brain mechanisms of emotion work?	134
	<i>Early research on brain lesions and stimulation</i>	136
	<i>The striatal system</i>	138
	<i>The limbic system</i>	139
	<i>Emotions and the neocortex</i>	144
	<i>The amygdala as an emotional computer</i>	151
	Neurochemicals, modulation, and the emotions	152
	<i>Restoration of transmitter function in the striatal region</i>	153
	<i>Peptide effects on fear</i>	154
	<i>Integration of neurochemical and anatomical information in emotional behavior</i>	155
	Summary	158
	Further reading	158
6	Development of Emotions	161
	Emotional development	162
	<i>Differential emotions versus dynamic systems theory</i>	162
	Expression of emotions in the first year	163
	Developmental changes in elicitation of emotion	169
	Infants' abilities to discriminate and react to emotions in other people	171
	Construction of the child's relationship with others	173
	Cooperative action and the goal-corrected partnership	177
	<i>Differentiation between self and others</i>	177
	<i>The language of emotions in cooperative action</i>	180
	Children's understanding of the causes of emotion	182
	Understanding the masking of emotion	184
	<i>Children's concepts of ambivalence</i>	186
	Summary	186
	Further reading	187
7	Individual Differences in the Development of Emotionality	189
	Introduction	190
	Emotion regulation	190
	Attachment	193
	<i>Protection from threat and the "Strange Situation"</i>	193
	<i>Internal working models of attachment</i>	196
	<i>Factors affecting style of attachment</i>	198
	Socialization of emotions within relationships	200
	<i>Synchronization revisited</i>	200
	<i>Warmth</i>	201

<i>Learning to speak about emotions</i>	202
<i>Effects of modeling</i>	203
<i>Responding to some emotions but not others</i>	204
<i>How cultures affect the development of emotionality</i>	207
<i>Emotion schemas: bridges from earlier to later relationships</i>	208
Temperament	209
<i>Biases of emotion at the core of temperament</i>	209
<i>Stability of temperament</i>	211
<i>Genetic basis of temperament</i>	212
<i>Temperament in relation to style of attachment</i>	214
Affective biases – responses to the environment	215
<i>Patterns of childhood emotionality that extend to adult life</i>	216
<i>Personality dimensions and traits</i>	216
Summary	219
Further reading	220
8 Emotions and Psychopathology in Childhood	221
Emotions in child psychopathology	222
<i>The case of Peter</i>	222
<i>Classifying childhood disorders</i>	223
<i>How does child psychopathology involve emotions?</i>	224
Prevalence of psychopathology in childhood	227
<i>Externalizing disorders</i>	229
<i>Anxiety disorders</i>	230
<i>Depressive disorders</i>	230
Continuity of disorders	231
Risks and causes of psychiatric disorders in children	233
<i>Conflict between parents</i>	234
<i>Parental psychiatric disturbance</i>	236
<i>The parent–child relationship</i>	238
<i>Poverty</i>	243
<i>Combinations of risks</i>	244
<i>Bidirectional and reinforcing effects in the environment</i>	245
<i>Constitutional factors related to psychopathology</i>	245
<i>Protective factors</i>	246
Diathesis-stress: a model of disturbance	248
Summary	249
Further reading	250
9 Functions and Effects of Emotions in Cognition and Persuasion	251
Functions of emotions	252
<i>Cognitive functions</i>	252
<i>Rationality and emotions</i>	257

<i>Emotions as heuristics</i>	258
Emotions in the management of action	259
<i>Emotions that can occasionally be free-floating</i>	259
<i>Emotions that always have an object</i>	261
<i>Why not just think of emotions as positive or negative?</i>	262
Effects of moods and emotions on cognitive functioning	263
<i>Perceptual effects</i>	263
<i>Attentional qualities of emotions</i>	264
<i>Emotions and memory</i>	267
<i>Effects of moods on judgment</i>	277
<i>Persuasion</i>	281
Summary	283
Further reading	284
10 Emotions in Social Relationships	285
Love and happiness: the emotions of cooperation	286
<i>Intimacy and collaboration</i>	288
<i>Principles of sexual love</i>	288
<i>Evolutionary perspectives on attachment and sexuality</i>	290
<i>Choosing a mate</i>	291
Anger, fear, contempt: the emotions of competition	292
<i>Aggression</i>	293
Anger and submission within social groups: status and respect	294
<i>Cross-cultural variations in the management of anger</i>	296
<i>Interdependence and individualism</i>	299
<i>Anger and aggression in the adjustment of relationships</i>	301
<i>Cultural codes</i>	302
Functioning within and between groups	303
<i>Intergroup conflict</i>	305
<i>Violence between societies</i>	307
<i>Disgust and contempt</i>	308
Anger and contempt in marriage	310
Summary	313
Further reading	314
11 The Role of Emotions in Adult Psychopathology	315
Causes of emotional disorders	316
<i>Psychiatric epidemiology</i>	316
<i>Life events and difficulties</i>	319
<i>Vulnerability factors</i>	322
<i>Relation of life events to normal emotions and emotional disorders</i>	330
What sustains psychiatric disorders?	331
<i>Personal plans and interpersonal relationships</i>	331

Cognitive factors maintaining depression and anxiety	334
"Expressed Emotion" and relapse in schizophrenia	336
Psychosomatic illness	339
Stress and the immune system	339
Interaction of brain and immune system in animals	341
Stress and cancer	341
Personality and illness	343
The nature of stress	344
Summary	346
Further reading	347
12 Psychotherapy, Consciousness, and Narrative	349
Psychological therapies and the emotions	350
<i>The basic idea of psychoanalytic therapy</i>	351
Different forms of psychotherapy and their effects	355
<i>Experiential and humanistic therapies</i>	356
<i>Behavior therapy</i>	357
<i>Cognitive and cognitive-behavioral therapy</i>	359
<i>Family therapy</i>	360
<i>Why emotions are the center of psychotherapy</i>	361
<i>But does psychotherapy work?</i>	362
<i>Psychotherapy without professionals</i>	363
Emotional creativity	365
Consciousness	366
<i>Becoming conscious of emotions in literature</i>	367
<i>Emotions and art</i>	370
<i>Emotions in drama, ritual, and psychotherapy</i>	370
<i>A culture of understanding</i>	371
Summary	373
Further reading	373
Glossary	375

Subject Index	433
Author Index	442

Figures

1.0	Three photographs from Darwin's <i>The Expression of the Emotions in Man and Animals</i>	1
1.1	Sneering and crying	4
1.2	Recordings of respiration, heart rate, and GSR (Srulik Haramaty/Phototake)	6
1.3	Group photograph from Clark University conference, 1909 (By permission of University Archives, Clark University, Worcester, Massachusetts)	11
1.4	An ancient Greek theater (Barbara Rios/Photo Researchers)	14
1.5	Holman Hunt's "The Hireling Shepherd" (Manchester City Art Gallery, City of Manchester Cultural Services)	19
1.6	(a) Phineas Gage's skull; (b) the iron bar (Warren Museum, Harvard Medical School)	24
1.7	Results of Bower's study of memories. American Psychological Association for figure from G. H. Bower (1981) 'Mood and memory', <i>American Psychologist</i> , 36, Fig. 4, 133	30
2.0	Bronze figurines from the Han dynasty (Avery Brundage Collection, Asian Art Museum of San Francisco. Photo copyright © 1995 Asian Art Museum of San Francisco. All rights reserved)	37
2.1	Title-page of first edition of <i>Frankenstein</i>	40
2.2	An Ifaluk woman smiles (Lutz, C. A. (1988). <i>Unnatural emotions: Everyday sentiments on a Micronesian atoll and their challenge to Western theory</i> . Chicago: University of Chicago Press. By permission of Catherine Lutz)	47
2.3	The garden of courtly love (from <i>Roman de la Rose</i> MS. Harley 4425 fol. 12. By permission of The British Library)	56

3.0	Reconciliation: two male chimpanzees (De Waal, F. (1982). <i>Chimpanzee politics</i> . New York: Harper & Row, p. 115. Photo by Frans de Waal)	61
3.1	A French woman greeting a friend (Eibl-Eibesfeldt, I. (1970). <i>Ethology: The biology of behavior</i> (New York: Holt, Rinehart & Winston), 418. Photos by Hans Hass, by permission of Hans Hass and I. Eibl-Eibesfeldt)	66
3.2	Members of the Fore community enact facial expressions (Ekman, P. (1972). Universal and cultural differences in facial expression of emotion. In J. Cole (ed.) <i>Nebraska Symposium on Motivation, 1971</i> . Lincoln, Neb.: University of Nebraska Press, pp. 207–283)	68
3.3	Two groups of Bushmen camping together (Thomas, E. M. (1989). <i>The harmless people</i> , rev. ed. New York: Random House, opp. p. 127. Photo © Lorna Marshall)	81
3.4	A baby monkey in Harlow's experiments (Harlow Primate Laboratory, University of Wisconsin)	86
3.5	Three different kinds of fearful response by vervet monkeys. Scientific American, Inc., illustrations by Patricia J. Wynne, from R. M. Seyfarth and D. L. Cheney (1992) 'Meaning and mind in monkeys', <i>Scientific American</i> , 267 (Dec.), p. 124	89
3.6	Chimpanzees grooming ((Stewart Halperin/Animals Animals)	93
4.0	Bernini: St Teresa (Anderson/Art Resource, New York)	95
4.1	Decision tree of primary appraisals	101
4.2	Two coarse gestures of contempt	107
4.3	Camras's photographs of facial expressions of emotion (Linda Camras)	109
4.4	Ambiguous figure, after Jastrow (1900)	118
4.5	(a) Setting for Jones et al.'s experiment; (b) means and standard errors of numbers of smiles (Drawing by I. Eibl-Eibesfeldt based on photo in E. Fr. von Eickstedt (1963). <i>Die Forschung am Menschen, Teil 3: Psychologische und philosophische Anthropologie</i> (Stuttgart: Enke), 1513–2645; reprinted in Eibl-Eibesfeldt, I. (1971, 1972). <i>Love and hate</i> (London: Methuen and New York: Holt, Rinehart & Winston)	119
4.6	A spectrum of affective phenomena in terms of time course	124
5.0	Image from Positron Emission Tomography (B. B. Schiff, C. Bassel, & S. Houle)	133
5.1	(a) Exploded view of human brain; (b) human brain as if sliced in the midline. Harcourt Brace & Company for	

Fig. 5.1 from Rita L. Atkinson, Richard C. Atkinson, Edward E. Smith and Darly M. Bem (1990) <i>Introduction to Psychology</i> , 10th ed. Figs. 2.6–7, pp. 42, 3. Copyright © 1990 by Harcourt Brace and Company	135
5.2 The development of the brain in the human embryo	136
5.3 MacLean's diagram of the three major divisions of the forebrain	138
5.4 Projection of information from one side of the visual world to the opposite side of the brain. Oxford University Press for Fig 5.4 from J. P. Frisby (1979) <i>Seeing: Illusion, Brain and Mind</i> , Fig. 51 (plate 4), p. 68	145
5.5 Chimeric faces. Penguin Books Ltd for figure from Julian Jaynes (1976) <i>The Origin of Consciousness in the Breakdown of the Bicameral Mind</i> , Allen Lane, The Penguin Press, 1979, Penguin Books, 1993, p. 120. Copyright © Julian Jaynes, 1976, 1990	146
5.6 EEG activation on left and right hemispheres of inhibited and uninhibited children. Academic Press, Inc. for figure from R. J. Davidson (1992) 'Anterior cerebral assymetry and the nature of emotion', <i>Brain and Cognition</i> , 20, Fig. 6, p. 145	150
6.0 A characteristic angry expression in a four-year-old girl. Drawing by I. Eibl-Eibesfeldt based on photo in E. Fr. von Eickstedt (1963). <i>Die Forschung am Menschen, Teil 3: Psychologische und philosophische Anthropologie</i> (Stuttgart: Enke), 1513–2645; reprinted in Eibl-Eibesfeldt, I. (1971, 1972) <i>Love and hate</i> (London: Methuen and New York: Holt, Rinehart & Winston)	161
6.1 Babies showing emotional expressions ((a) Elizabeth Crews/ The Image Works (b) © Erika Stone 1987)	164
6.2 The visual cliff (Gibson, E. J., & Walk, R. D. (1960). The visual cliff. <i>Scientific American</i> , 202 (April), 65. Photo by William Vandivert)	166
6.3 Fear of visual cliff, dogs, noises, and jack-in-the-box. Wayne State University Press for figure from S. Scarr and P. Salapatek (1970) 'Patterns of fear development during infancy', <i>Merrill-Palmer Quarterly</i> , 16, 1, Fig. 3.5, pp. 64–5	170
6.4 Percentages of children who cried during separation. Harvard University Press for figure from J. Kagan, R. B. Kearsley and P. R. Zelazo (1980) <i>Infancy: Its Place in Human Development</i> , Fig. 2.8, p. 107. Copyright © 1978 by The President and Fellows of Harvard College	170

6.5	Stimuli used in experiment of Caron et al. (1985) (Caron, R. F., Caron, A. J., & Myers, R. S. (1985). Do infants see facial expressions in static faces? <i>Child Development</i> , 56, 1552–1560. Photos courtesy of A. J. Caron)	172
6.6	State transition diagrams for infants where mothers were normal or depressed. The Society for Research in Child Development, Inc for figure from J. F. Cohn and E. Z. Tronick (1983) 'Three-month-old infant's reaction to simulated maternal depression', <i>Child Development</i> , 54, Fig. 1, p. 189	175
6.7	Child becoming interested in a mirror (Lewis, M., et al. (1989). Self development and self-conscious emotions. <i>Child Development</i> , 60, 146–156. Photo © Michael Lewis)	179
7.0	A mother picks up her child after an absence (© Erika Stone 1985)	189
7.1	Frequency of crying in the "Strange Situation" test. From M. D. S. Ainsworth and S. M. Bell (1970) 'Attachment, exploration, and separation: Illustrated by the behavior of one-year-olds in a strange situation', <i>Child Development</i> , Fig. 2, p. 58. Copyright 1983, 1970 The Society for Research in Child Development, Inc	194
7.2	Most three- to five-year-olds are shy with strangers (© Erika Stone 1995)	217
8.0	Boys fighting (Michael Weisbrot/Stock Boston)	221
8.1	Aggression scores at age 30 for people nominated by peers as aggressive at age 8. D. Eron, M. Lefkowitz and L. O. Walder (1984) 'Stability of aggression over time and generations', <i>Developmental Psychology</i> , 20, Figs. 1, 3, p. 1125. Copyright © 1981, 1984 by American Psychological Association	232
8.2	Aggression between children who have witnessed an angry adult argument	235
8.3	Depression is relatively common in mothers of young children (Erika Stone/Photo Researchers)	237
8.4	The effects of risk factors on developing a psychiatric disorder in children	244
8.5	Psychiatric symptoms in children whose parents had good or conflictual marriages. Williams & Wilkins for figure from J. M. Jenkins and M. A. Smith (1990) 'Factors protecting children living in disharmonious homes: Maternal reports', <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 29, p. 64	247

9.0	Renoir's "Dance at Bougival" (Photo © 1995 Museum of Fine Arts, Boston. All rights reserved)	251
9.1	Diagram of modules of the brain and different messages passing among them	255
9.2	Series of faces in equal increments from happy to sad. Elsevier Science Publishers for figure from N. L. Etcoff and J. J. Magee (1992) 'Categorical perception of facial expressions', <i>Cognition</i> , 44, Fig. 1., p. 231	263
9.3	Mean times for anxious and control subjects to name colors in which words were printed. From A. Mathews and F. Klug (1993) 'Emotionality and interference with color-naming in anxiety', <i>Behavior Research and Therapy</i> , 29, Table 3, p. 60	266
9.4	Results of Waganaar's study of his own autobiographical memory	271
9.5	Three versions of the eighth slide in sequence used by Christianson and Loftus (Christianson, S.-A., & Loftus, E. (1991). Remembering emotional events: The fate of detailed information. <i>Cognition and Emotion</i> , 5, 81-108. Photo by Rolf Eklund, Umea Universitet, Mediateknik Foto, 90187 Umea, Sweden)	273
9.6	Positive and negative items mentioned in interview by interviewers in happy or despondent mood. V. H. Winston & Son, Inc for figure from R. A. Baron (1987) 'Interviewer's mood and reaction to job applicants', <i>Journal of Applied Social Psychology</i> , 17, Table 3, p. 920	275
9.7	Part of a memory network. From G. H. Bower (1992) 'How might emotions affect learning' in S. A. Christianson, ed. <i>The Handbook of Emotion and Memory: Research and Theory</i> , Fig. 1.3, p. 25	276
9.8	Attitude change in happy and neutral moods. Butterworth-Heinemann Ltd for figure from D. M. Mackie and L. T. Worth (1991) 'Feeling good, but not thinking straight: The impact of positive mood on persuasion' in <i>Emotion and Social Judgements</i> , ed. J. P. Forgas, Pergamon, Fig. 11.1, p. 206	279
10.0	Anger may be an important part of intimate relationships (Teri Leigh Stratford/Photo Researchers)	285
10.1	Rewards and punishments given for suggestions. Lawrence Erlbaum Associates, Inc for figure for L. Berkowitz (1993) 'Towards a general theory of anger and emotional aggression: Implications of a cognitive neo-associationistic perspective for the analysis of anger and	

other emotions' in R. S. W. and T. Srull, eds. <i>Advances in Social Cognition</i> , Fig. 1.3, p. 20	286
10.2 A club fight (Kenneth R. Good/ <i>Natural History</i> 104:4 (April 1995), 62)	298
10.3 Hostility towards an outgroup. Illustration by Sarah Love, from M. Sherif (1956) 'Experiments in group conflict', <i>Scientific American</i> , 195 (Nov), p. 58. Copyright © 1992, 1956 by Scientific American, Inc	307
10.4 Cumulative graphs of two couples engaged in a discussion	312
11.0 Depressed woman (Judy S. Gelles/Stock Boston)	315
11.1 Poverty is a fundamental cause of depression (Hazel Hankin/Stock Boston)	319
11.2 Woman off to work and day care (Elizabeth Crews/The Image Works)	327
11.3 The differentiation of normal emotions from depressive breakdowns. John Wiley & Sons, Ltd for figure from K. Oatley (1988) 'Life events, social cognition and depression', in S. Fisher and J. Reason eds. <i>Handbook of Life Stress, Cognition and Health</i> , Fig. 30.1, p. 552	331
11.4 A vicious circle	335
11.5 Schizophrenic patients relapsing, as a function of High and Low Expressed Emotion of families. Royal College of Psychiatrists for Fig. 11.5 from C. E. Vaughn and J. P. Leff (1976) 'The influence of family and social factors on the course of psychiatric illness: A comparison of schizophrenic and depressed patients', <i>British Journal of Psychiatry</i> , 129, Fig. 1, p. 132	337
12.0 Pictures from cover of <i>The Rationality of Emotions</i> (From Hill, Thomas E. (1885). <i>Manual of Business and Social Forms</i>)	349
12.1 A therapist listening to, and conversing with, a client (Van Bucher/Photo Researchers)	353
12.2 The behavioral therapy of desensitization (Jim Whitmer/Stock Boston)	358
12.3 In the 1970s encounter groups became very popular (By permission of Center for the Study of the Person, La Jolla, California)	365
12.4 Writing and reading allow us to make emotions conscious (Christine de Pisan Writing at Her Desk from "Works of Christine de Pisan" MS. Harl. 4431. By permission of the British Library)	368

Tables

1.1 Emotional expressions discussed by Darwin (1872)	4
1.2 Examples of effects found by Isen et al.	29
3.1 Human relatedness to other primates	62
3.2 Recurring situations and emotional responses	83
3.3 Ainsworth's list of attachment behaviors	84
4.1 Two sets of elements in two families of emotion theories	129
6.1 Numbers of children showing embarrassment as function of self-recognition	180
7.1 Classification in Strange Situation test at one year compared with classification on Adult Attachment Interview at age 20	198
7.2 Mothers' responses to different kinds of expression by their babies at different ages	204
7.3 Mapping of dimensions of temperament onto aspects of emotions	210
7.4 Results of behavioral genetic studies of emotionality in twins	213
9.1 Nine basic emotions, with the functions they perform and the transitions they accomplish	256
11.1 Lifetime prevalences of psychiatric conditions in males and females in the USA	317
11.2 Relative lifetime prevalences of psychiatric disorders as a function of sex and income	318
11.3 Subjects suffering major depression as function of having severe life event and intimate relationship	326
