

# Contents

<i>Chapter</i>	<i>1</i>	The Concept of Motivation	1
		Motivation and Behavior. Motivation and Psychology. Common Terms and Problems. Definitions. Comparisons of Viewpoints. Some Pervading Issues and Traditions.	
	<i>2</i>	Motivation in Historical Perspective	19
		Dualism. Determinants of Conduct. The Impact of Evolution. Other Post-Darwinian Developments. Current Models and The History of Motivation.	
	<i>3</i>	The Concept of Instinct: Ethological Position	56
		Background. The Ethological Concept of Instinctive Behavior. Supporting Evidence. Human Ethology. Neurophysiological Correlates. Imprinting. Criticisms. Commentary.	
	<i>4</i>	Bodily Conditions: I	107
		Maternal, Nesting, Sucking, and Contact Activities. Hoarding. Homing and Migration. Temperature. Respiration and Elimination. Fatigue. Inhibition. Sleep. Sex.	
	<i>5</i>	Bodily Conditions: II	204
		Hunger. Specific Hungers. Thirst. Pain Avoidance. Drive Interactions. Drive Discrimination. General Trait? Central Motive State?	
	<i>6</i>	Activity and Exploration	269
		Activity. Exploration. Stimulus Deprivation. Isolation. Stimulus Increase. Epistemic Curiosity.	
	<i>7</i>	Homeostatic Concepts and Motivation	302
		Homeostasis. Physiological Homeostasis. Psychological Homeostasis. Supporting Evidence. Criticisms. Social Homeostasis. Freeman's "Neuromuscular Homeostasis." Helson's "Adaptation-Level" Theory. Cybernetics and the Feedback Principle. Lewin's Psychological Field Theory. Comment.	
	<i>8</i>	Hedonic and Activation Theories of Emotion	367
		Hedonic Theories: Young, McClelland, Peak. Activation Theory of Emotions: Schlosberg, Malmö, Lindsay, Hebb. Comment.	
	<i>9</i>	Frustration, Conflict, and Stress	412
		Sources, Nature and Consequences of Frustration. Brown-Farber Theory, Amsel Theory. Conflict. Miller Model. Systemic Stress. Psychological Stress. Summary.	

<i>Chapter 10</i>	Motivation in Learning Theory: Drive and Incentive	466
	Motivation and Learning. Hullian Theory. Drive. Spence, Miller, Mowrer, Tolman, Guthrie, Skinner. Summary.	
11	Learning, Performance, Reinforcement, and Acquired Motivation	520
	Drive, Learning, and Performance. Reinforcement. Incentives. Acquired Motivation. Functional Autonomy. Acquired Drive.	
12	Psychoanalytic Motivation Theory	589
	Freud and the Background of Psychoanalysis. Consciousness. The Unconscious. Psychic Energy. Psychoanalytic Theory of Instincts. The Mental Apparatus. Dynamics of Behavior. Major Variants: Jung. Adler, Rank, Stekel, Reich, Horney, Fromm, Sullivan. The New Ego Psychology. Current Status of Psychoanalytic Motivation Theory. Supporting Evidence.	
13	Self-Actualization and Related Concepts	656
	Existentialism. The Emphasis on Self-Actualization: Allport, Fromm, Maslow, Rogers.	
14	Some Aspects of Human Motivation	693
	Anxiety as the Force Underlying Other Apparent Motives. Measurement of Anxiety. Anxiety as Drive. Arousal, Measurement, and Correlates of Other Motive States: Achievement, Affiliation, Power, Fear, Sex, Aggression, Fear of Failure. The Study of Other Motives: Dependency and Aggression. The Role of Experience. Summary.	
15	Social Motivation	768
	The Value of Incentives. Knowledge of Results. Level of Aspiration. Social Factors and Social Processes. Conformity. Interruption, Ego-Involvement, Uncertainty, Dissonance. Problems of Arousal and Measurement. Relations of Motivation to Personality Concepts.	
16	Toward a Unified Theory of Motivation	808
	Current Status of the Field. Equilibration. Drive. Difficulties with Drive. Some Possible Alternatives. Functions of Motivation. Relationships of Mechanisms to Motivational Facts and Theories. General Comment.
