| Preface                                      | v        |
| List of Tables                               | xv       |
| <b>PART I: THEORETICAL CONSIDERATIONS</b>    |          |
| <b>INTRODUCTION TO PART I</b>                | <b>3</b> |
| 1. Need-Satisfaction and -Frustration Models | 6        |
| Drive Frustration and Individual Hostility   |          |
| Social Motives as Determinants of Attraction |          |
| Cognitive Factors                            |          |
| The Argument in Summary                      |          |
| 2. Cognitive-Consistency Models              | 28       |
| The Balance Model                            |          |
| The Congruity Model                          |          |

|  |           |
|--|-----------|
| The Dissonance Model   |           |
| Conclusions About Consistency Pressure                       |           |
| 3. Cognitive Motivation in Social Behavior                   | 50        |
| Conformity in Physical Judgments                             |           |
| Opinion Conformity   |           |
| Competitive Coalition Formation                              |           |
| Level of Aspiration  |           |
| Affiliation Tendencies                                       |           |
| Assessment of Cognitive Hypotheses                           |           |
| <b>PART II: EMPIRICAL EXPLORATIONS</b>                       |           |
| <b>INTRODUCTION TO PART II</b>                               | <b>73</b> |
| 4. The Reaction to Boastfulness                              | 77        |
| Procedure and Measures                                       |           |
| Public Evaluation  |           |
| Assessment   |           |
| 5. Attraction and Legitimate Conceit                         | 89        |
| Procedure and Measures                                       |           |
| Validity of Brown's Ability                                  |           |
| Quantitative Evaluations                                     |           |
| Qualitative Evaluations                                      |           |
| Status Identification  |           |
| Assessment   |           |
| 6. Valid Boastfulness and Invalid Self-Depreciation          | 106       |
| Procedure and Measures                                       |           |
| The Interviewer's Professional Standing                      |           |
| Quantitative Evaluation                                      |           |
| Qualitative Data   |           |
| 7. The Reaction to Positive and Negative Biases              | 123       |
| Procedure and Measures                                       |           |
| Identification of Negative Bias                              |           |
| Quantitative Evaluations of a Reportedly Unattractive Person |           |
| Qualitative Evaluations of a Reportedly Unattractive Person  |           |
| Symmetry in Cognitive Validation                             |           |
| Identification of Positive Bias                              |           |

|     |   |     |
|-----|---|-----|
|     | Quantitative Evaluations of a Reportedly Attractive Person      |     |
|     | Qualitative Evaluations of a Reportedly Attractive Person       |     |
|     | Assessment  |     |
|     | Change Toward a Valid Evaluation                                |     |
|     | Changes in Attractiveness                                       |     |
| 8.  | Cognitive Validation and Self-Evaluation                        | 142 |
|     | Procedure and Measures  |     |
|     | Questionnaire Reactions   |     |
|     | Personal Self-Evaluations                                       |     |
|     | Reactions Revealed in the Memoranda                             |     |
|     | Assessment  |     |
| 9.  | The Outcome of a Self-Evaluation Conflict                       | 160 |
|     | Procedure and Measures  |     |
|     | Mild Norm Violation   |     |
|     | Severe Norm Violation   |     |
|     | Defensive Opportunity   |     |
|     | Evidence on the Violation of Norms                              |     |
|     | Defensive Opportunity   |     |
|     | Self-Justifying versus Self-Corrective Attitudes                |     |
|     | Defensive Self-Evaluation                                       |     |
|     | Assessment  |     |
| 10. | The Projection of Unfavorable Personality Characteristics       | 181 |
|     | Procedure and Measures  |     |
|     | Self-Evaluation, Partner Similarity, and Information Disclosure |     |
|     | Projection of Masculinity and Homosexuality                     |     |
|     | Projection of Emotional Characteristics                         |     |
|     | Assessment  |     |
| 11. | Self-Validation and Competitive Behavior                        | 201 |
|     | Procedure and Measures  |     |
|     | Competitive Choice Behavior                                     |     |
|     | Assessment  |     |
|     | Procedure and Measures  |     |

|            |   |            |
|------------|---|------------|
|            | <b>Effectiveness of the Self-Evaluation Induction</b> |            |
|            | <b>Amount of Reward Desired</b>                       |            |
| <b>12.</b> | <b>Recapitulation and Perspective</b>                 | <b>221</b> |
|            | <b>Subject Index</b>                                  | <b>231</b> |
|            | <b>Name Index</b>                                     | <b>237</b> |

## List of Tables

| <i>Table</i>  | <i>Page</i> |
|---|-------------|
| 1. Mean Number of Overt Associations to Interviewer and Self  | 86          |
| 2. Mean Personality Ratings of Interviewer and Self Recorded Privately                                  | 86          |
| 3. Mean Personality Ratings of Interviewer as a Function of Prior Negative Overt Associations           | 88          |
| 4. Percentage of Subjects Who Doubt or Acknowledge Brown's Ability According to His Professional Status | 94          |
| 5. Mean Attractiveness Ratings of Brown and Jones: Brown Has High Self-Evaluation and Varying Status    | 95          |

|  |     |
|--|-----|
| 6. Mean Qualitative Attraction Scores of Brown and Jones: Brown Has High Self-Evaluation and Varying Status                        | 97  |
| 7. Mean Attractiveness Ratings of Brown and Jones: Brown Has Low Status and Varying Self-Evaluation                                | 101 |
| 8. Mean Qualitative Attraction Scores of Brown and Jones: Brown Has Low Status and Varying Self-Evaluation                         | 102 |
| 9. Mean Attractiveness Ratings of Brown and Jones: Brown Has High Status and Varying Self-Evaluation                               | 103 |
| 10. Mean Qualitative Attraction Scores of Brown and Jones: Brown Has High Status and Varying Self-Evaluation                       | 104 |
| 11. Mean Importance Rating of Interviewer as a Function of His Self-Evaluation and Status  | 115 |
| 12. Mean Attractiveness Rating of Interviewer as a Function of His Self-Evaluation and Status                                      | 116 |
| 13. Mean Number of Qualitative Evaluations of the Interviewer  | 118 |
| 14. Mean Attractiveness Rating and Qualitative Evaluation of Interviewer with Low Status and High or Moderate Self-Evaluation      | 121 |
| 15. Number of Subjects Who Identify Informant's Negative Bias  | 130 |
| 16. Mean Number of Negative and Positive Button Presses, Given Biased or Unbiased Informant Who Makes Negative Evaluation of Harry | 130 |
| 17. Number of Subjects Who Make Negative or Qualifiedly Negative Evaluations of Harry under Biased and Unbiased Conditions         | 131 |
| 18. Number of Subjects Who Identify Informant's Positive Bias  | 135 |
| 19. Mean Number of Negative and Positive Button Presses by Biased or Unbiased Informants Who Make Positive Evaluations of Harry    | 135 |

|   |     |
|---|-----|
| 20. Number of Subjects Who Make Positive or Qualifiedly Positive Evaluations of Harry under Biased and Unbiased Conditions                                | 136 |
| 21. Mean Number of Net Negative Button Presses before and after Knowledge of Informant's Negative Bias  | 140 |
| 22. Mean Number of Net Positive Button Presses before and after Knowledge of Informant's Positive Bias  | 140 |
| 23. Mean Questionnaire Ratings under Hurt and Help Conditions   | 150 |
| 24. Mean Frequency of Positive and Negative Personality Traits under Hurt and Help Conditions   | 153 |
| 25. Mean Frequency of Positive Personality Traits by Selected Subjects in the Hurt Condition  | 153 |
| 26. Classification of Memoranda Written under Hurt and Help Conditions  | 155 |
| 27. Reactions of Subjects to Their Conduct toward Walter under Mild- and Severe-Violation Conditions  | 168 |
| 28. Number of Subjects Who Regard Walter as Sick under the Opportunity and No-Opportunity Conditions  | 169 |
| 29. Per Cent Self-Justifying, Self-Corrective, and Self-Equivocating Statements Selected under Experimental Conditions                                    | 172 |
| 30. Number of Subjects Who Select Self-Justifying or Self-Corrective or Both Types of Statements under the Experimental Conditions                        | 174 |
| 31. Mean Number of Positive and Negative Personality Traits Attributed to Themselves by Subjects Who Select Self-Justifying or Self-Corrective Statements | 176 |
| 32. Mean Ratings of Self-Evaluation, Similarity of Partner, and Favorability of Disclosure under Experimental Conditions                                  | 192 |
| 33. Mean Projection of Masculinity and Homosexuality under Three Experimental Conditions  | 193 |
| 34. Mean Projection of Shame  | 196 |
| 35. Mean Projection of Generalized Anger  | 196 |

|   |     |
|---|-----|
| 36. Mean Rating of Own Personality by Subjects under High- and Low-Self-Evaluation Conditions             | 208 |
| 37. Mean Number of Green (Competitive) Choices by Subjects under High- and Low-Self-Evaluation Conditions | 209 |
| 38. Mean Number of Green (Competitive) Choices in Blocks of Ten Trials                                    | 210 |
| 39. Mean Self-Rating Based on Fifteen Personality Traits  | 219 |
| 40. Mean Amount of Money Requested for Participation in Experiments                                       | 219 |
