

**PART I PRINCIPLES**

- 1 Introduction 1**
- 2 Norms and Basic Statistics for Testing 25**
- 3 Correlation and Regression 65**
- 4 Reliability 101**
- 5 Validity 133**
- 6 Writing and Evaluating Test Items 157**
- 7 Test Administration 185**

**PART II APPLICATIONS**

- 8 Interviewing Techniques 201**
- 9 Theories of Intelligence and the Binet Scales 229**
- 10 The Wechsler Intelligence Scales: WAIS-III, WISC-IV, and WPPSI-III 249**
- 11 Other Individual Tests of Ability in Education and Special Education 273**
- 12 Standardized Tests in Education, Civil Service, and the Military 303**
- 13 Applications in Clinical and Counseling Settings 333**
- 14 Projective Personality Tests 373**
- 15 Computers and Basic Psychological Science in Testing 403**
- 16 Testing in Counseling Psychology 433**
- 17 Testing in Health Psychology and Health Care 451**
- 18 Testing in Industrial and Business Settings 483**

**PART III ISSUES**

- 19 Test Bias 511**
- 20 Testing and the Law 545**
- 21 Ethics and the Future of Psychological Testing 585**

## **PART I PRINCIPLES**

### **1 Introduction 1**

#### **Basic Concepts 6**

What a Test Is 6

Types of Tests 7

#### **Overview of the Book 9**

Principles of Psychological Testing 10

Applications of Psychological Testing 10

Issues of Psychological Testing 11

#### **Historical Perspective 11**

Early Antecedents 11

Charles Darwin and Individual Differences 12

Experimental Psychology and Psychophysical Measurement 12

The Evolution of Intelligence and Standardized Achievement Tests 14

Personality Tests: 1920–1940 17

The Emergence of New Approaches to Personality Testing 18

The Period of Rapid Changes in the Status of Testing 20

The Current Environment 21

Summary 22

### **2 Norms and Basic Statistics for Testing 25**

Why We Need Statistics 26

Scales of Measurement 27

Properties of Scales	27
Types of Scales	29
Permissible Operations	30
Frequency Distributions	31
Percentile Ranks	34
Percentiles	38
Describing Distributions	39
Mean	39
Standard Deviation	40
Z Score	42
Standard Normal Distribution	45
McCall's $T'$	50
Quartiles and Deciles	51
Norms	53
Age-Related Norms	54
Tracking	55
Criterion-Referenced Tests	60
Summary	63

### **3 Correlation and Regression 65**

The Scatter Diagram	66
Correlation	68
Regression	69
The Regression Line	69
The Best-Fitting Line	71
Testing the Statistical Significance of a Correlation Coefficient	76
How to Interpret a Regression Plot	78
Other Correlation Coefficients	82
Terms and Issues in the Use of Correlation	84
Residual	84
Standard Error of Estimate	85
Coefficient of Determination	85
Coefficient of Alienation	85
Shrinkage	86
Cross Validation	86
The Correlation-Causation Problem	87
Third Variable Explanation	88
Restricted Range	88
Multivariate Analysis (Optional)	88
General Approach	89
An Example Using Multiple Regression	90
Discriminant Analysis	91
Factor Analysis	91

Summary 94

Appendix 3.1: Calculation of a Regression Equation  
and a Correlation Coefficient 95

Calculation of a Regression Equation (Data from Table 3.5) 95

Calculation of a Correlation Coefficient (Data from Table 3.5) 98

## **4 Reliability 101**

History and Theory of Reliability 102

Conceptualization of Error 102

Spearman's Early Studies 103

Basics of Test Score Theory 103

The Domain Sampling Model 105

Item Response Theory 107

Models of Reliability 108

Sources of Error 109

Time Sampling: The Test-Retest Method 109

Item Sampling: Parallel Forms Method 111

Split-Half Method 111

$KR_{20}$  Formula 113

Coefficient Alpha 115

Reliability of a Difference Score 116

Reliability in Behavioral Observation Studies 120

Connecting Sources of Error with Reliability Assessment  
Method 121

Using Reliability Information 124

Standard Errors of Measurement and the Rubber Yardstick 124

How Reliable Is Reliable? 125

What to Do About Low Reliability 125

Summary 129

Appendix 4.1: Using Coefficient Alpha to Estimate Split-Half  
Reliability When the Variances for the Two Halves of the Test  
Are Unequal 130

Appendix 4.2: The Calculation of Reliability Using  $KR_{20}$  130

## **5 Validity 133**

Defining Validity 135

Aspects of Validity 135

Face Validity 135

Content-Related Evidence for Validity 136

Criterion-Related Evidence for Validity 137

Construct-Related Evidence for Validity 147

Relationship Between Reliability and Validity 154

Summary 155

## **6 Writing and Evaluating Test Items 157**

Item Writing 158

Item Formats 159

Other Possibilities 168

Item Analysis 170

Item Difficulty 171

Discriminability 172

Pictures of Item Characteristics 174

Linking Uncommon Measures 180

Items for Criterion-Referenced Tests 181

Limitations of Item Analysis 182

Summary 183

## **7 Test Administration 185**

The Examiner and the Subject 186

The Relationship Between Examiner and Test Taker 186

The Race of the Tester 187

Language of Test Taker 188

Training of Test Administrators 189

Expectancy Effects 189

Effects of Reinforcing Responses 191

Computer-Assisted Test Administration 193

Mode of Administration 195

Subject Variables 196

Behavioral Assessment Methodology 197

Reactivity 197

Drift 198

Expectancies 198

Deception 198

Statistical Control of Rating Errors 199

Summary 200

## **PART II APPLICATIONS**

### **8 Interviewing Techniques 201**

The Interview as a Test 204

Reciprocal Nature of Interviewing 205

Principles of Effective Interviewing 206

The Proper Attitudes 206

Responses to Avoid 207

Effective Responses 208

Responses to Keep the Interaction Flowing 209

Measuring Understanding 213

Types of Interviews	215
Evaluation Interview	215
Structured Clinical Interviews	216
Case History Interview	220
Mental Status Examination	221
Developing Interviewing Skills	222
Sources of Error in the Interview	223
Interview Validity	223
Interview Reliability	225
Summary	226

## **9 Theories of Intelligence and the Binet Scales 229**

The Problem of Defining Intelligence	230
Binet's Principles of Test Construction	232
Principle 1: Age Differentiation	232
Principle 2: General Mental Ability	233
Spearman's Model of General Mental Ability	233
Implications of General Mental Intelligence ( <i>g</i> )	234
The <i>gf-gc</i> Theory of Intelligence	234
The Early Binet Scales	235
The 1905 Binet-Simon Scale	235
The 1908 Scale	236
Terman's Stanford-Binet Intelligence Scale	238
The 1916 Stanford-Binet Intelligence Scale	238
The Intelligence Quotient (IQ)	238
The 1937 Scale	240
The 1960 Stanford-Binet Revision and Deviation IQ (SB-LM)	241
The Modern Binet Scale	242
Model for the Fourth and Fifth Editions of the Binet Scale	243
Characteristics of the 1986 Revision	243
Characteristics of the 2003 Fifth Edition	245
Psychometric Properties of the 2003 Fifth Edition	247
Median Validity	248
Summary	248

## **10 The Wechsler Intelligence Scales: WAIS-III, WISC-IV, and WPPSI-III 249**

The Wechsler Intelligence Scales	251
Point and Performance Scale Concepts	251
From the Wechsler-Bellevue Intelligence Scale to the WAIS-III	253
Scales, Subtests, and Indexes of the WAIS-III	253
The Verbal Subtests	254
Raw Scores, Scaled Scores, and the VIQ	258
The Performance Subtests	259

Performance IQs 261

FSIQs 261

Index Scores 261

Interpretive Features of the Wechsler Tests 262

Verbal-Performance IQ Comparisons 262

Pattern Analysis 262

Hypothetical Case Studies 263

Psychometric Properties of the Wechsler Adult Scale 265

Standardization 265

Reliability 265

Validity 266

Evaluation of the Wechsler Adult Scales 266

Downward Extensions of the WAIS-III: The WISC-IV and the

WPPSI-III 267

The WISC-IV 267

The WPPSI-III 270

Summary 271

## **11 Other Individual Tests of Ability in Education and Special Education 273**

Alternative Individual Ability Tests Compared with the Binet and Wechsler Scales 274

Alternatives Compared with One Another 275

Specific Individual Ability Tests 277

Infant Scales 278

Major Tests for Young Children 285

General Individual Ability Tests for Handicapped and Special Populations 289

Testing Learning Disabilities 293

Visiographic Tests 298

Creativity: Torrance Tests of Creative Thinking (TTCT) 300

Individual Achievement Tests: Wide Range Achievement Test-3 (WRAT-3) 301

Summary 302

## **12 Standardized Tests in Education, Civil Service, and the Military 303**

Comparison of Group and Individual Ability Tests 305

Advantages of Individual Tests 305

Advantages of Group Tests 306

Overview of Group Tests 307

Characteristics of Group Tests 307

Selecting Group Tests 307

Using Group Tests 308

<b>Group Tests in the Schools: Kindergarten Through 12th Grade</b>	<b>309</b>
Achievement Tests Versus Aptitude Tests	309
Group Achievement Tests	309
Group Tests of Mental Abilities (Intelligence)	312
<b>College Entrance Tests</b>	<b>314</b>
The SAT Reasoning Test	315
Cooperative School and College Ability Tests	316
The American College Test	317
<b>Graduate and Professional School Entrance Tests</b>	<b>318</b>
Graduate Record Examination Aptitude Test	318
Miller Analogies Test	322
The Law School Admission Test	322
<b>Nonverbal Group Ability Tests</b>	<b>324</b>
Raven Progressive Matrices	325
Goodenough-Harris Drawing Test (G-HDT)	328
The Culture Fair Intelligence Test	328
Standardized Tests Used in the U.S. Civil Service System	329
Standardized Tests in the U.S. Military: The Armed Services Vocational Aptitude Battery	330
<b>Summary</b>	<b>330</b>

## **13 Applications in Clinical and Counseling Settings 333**

<b>Strategies of Structured Personality-Test Construction</b>	<b>335</b>
Deductive Strategies	336
Empirical Strategies	337
Criteria Used in Selecting Tests for Discussion	338
<b>The Logical-Content Strategy</b>	<b>338</b>
Woodworth Personal Data Sheet	339
Early Multidimensional Logical-Content Scales	339
Mooney Problem Checklist	339
Criticisms of the Logical-Content Approach	340
<b>The Criterion-Group Strategy</b>	<b>340</b>
Minnesota Multiphasic Personality Inventory	340
California Psychological Inventory (CPI)—Third Edition	351
<b>The Factor Analytic Strategy</b>	<b>352</b>
Guilford's Pioneer Efforts	353
Cattell's Contribution	353
Problems with the Factor Analytic Strategy	356
<b>The Theoretical Strategy</b>	<b>356</b>
Edwards Personal Preference Schedule (EPPS)	356
Personality Research Form (PRF) and Jackson Personality Inventory (JPI)	358
Self-Concept	360

Combination Strategies	361
Positive Personality Measurement and the NEO Personality Inventory–Revised (NEO-PI-R)	361
The NEO Personality Inventory (NEO-PI-R)	362
Frequently Used Measures of Positive Personality Traits	365
Rosenberg Self-Esteem Scale	365
General Self-Efficacy Scale (GSE)	365
Ego Resiliency Scale	366
Dispositional Resilience Scale (DRS)	366
Hope Scale	366
Life Orientation Test–Revised (LOT-R)	367
Satisfaction with Life Scale (SWLS)	367
Positive and Negative Affect Schedule (PANAS)	368
Coping Intervention for Stressful Situations (CISS)	368
Core Self-Evaluations	368
Future of Positive Personality Research	369
Summary	370

## **14 Projective Personality Tests 373**

The Projective Hypothesis	375
The Rorschach Inkblot Test	376
Historical Antecedents	376
Stimuli, Administration, and Interpretation	377
Psychometric Properties	383
An Alternative Inkblot Test: The Holtzman	391
The Thematic Apperception Test	391
Stimuli, Administration, and Interpretation	392
Psychometric Properties	396
Alternative Apperception Procedures	397
Nonpictorial Projective Procedures	397
Word Association Test	397
Sentence Completion Tasks	398
Figure Drawing Tests	399
Summary	400

## **15 Computers and Basic Psychological Science in Testing 403**

Cognitive-Behavioral Assessment Procedures	405
The Rationale for Cognitive-Behavioral Assessment	405
Procedures Based on Operant Conditioning	407
Self-Report Techniques	409
Kanfer and Saslow's Functional Approach	413

The Dysfunctional Attitude Scale 414

Irrational Beliefs Test 415

Cognitive Functional Analysis 415

### Psychophysiological Procedures 417

Physiological Variables with Treatment Implications 417

Evaluation of Psychophysiological Techniques 418

### Computers and Psychological Testing 419

Computer-Assisted Interview 419

Computer-Administered Tests 420

Computer Diagnosis, Scoring, and Reporting of Results 421

Internet Usage for Psychological Testing 423

The Computerization of Cognitive-Behavioral Assessment 424

Tests Possible Only by Computer 425

Computer-Adaptive Testing 426

Psychophysical and Signal-Detection Procedures 427

Summary 430

## 16 Testing in Counseling Psychology 433

### Measuring Interests 434

The Strong Vocational Interest Blank 435

The Strong-Campbell Interest Inventory 436

The Campbell Interest and Skill Survey 438

The Reemergence of the Strong Interest Inventory 439

The Kuder Occupational Interest Survey 440

The Career Assessment Inventory 445

The Self-Directed Search 445

Eliminating Gender Bias in Interest Measurement 446

Aptitudes and Interests 447

### Measuring Personal Characteristics for Job Placement 447

Trait Factor Approach: Osipow's Vocational Dimensions 448

Are There Stable Personality Traits? 448

Summary 449

## 17 Testing in Health Psychology and Health Care 451

### Neuropsychological Assessment 452

Clinical Neuropsychology 452

Developmental Neuropsychology 457

Adult Neuropsychology 460

California Verbal Learning Test (CVLT) 466

Automated Neuropsychological Testing 469

Anxiety and Stress Assessment 470

Stress and Anxiety 470

The State-Trait Anxiety Inventory 471

Measures of Test Anxiety	472
Measures of Coping	476
Ecological Momentary Assessment	476
Quality-of-Life Assessment	477
What Is Health-Related Quality of Life?	478
Common Methods for Measuring Quality of Life	479
Summary	481

## **18 Testing in Industrial and Business Settings 483**

Personnel Psychology—The Selection of Employees	484
Employment Interview	484
Base Rates and Hit Rates	485
Taylor-Russell Tables	489
Utility Theory and Decision Analysis	495
Incremental Validity	496
Personnel Psychology from the Employee's Perspective:	
Fitting People to Jobs	498
The Myers-Briggs Type Indicator	498
Tests for Use in Industry: Wonderlic Personnel Test (WPT)	499
Measuring Characteristics of the Work Setting	500
The Social-Ecology Approach	501
Classifying Environments	502
Job Analysis	504
Measuring the Person–Situation Interaction	507
Summary	509

## **PART III ISSUES**

### **19 Test Bias 511**

Why Is Test Bias Controversial?	512
Test Fairness and the Law	513
The Traditional Defense of Testing	517
Content-Related Evidence for Validity	517
Criterion-Related Sources of Bias	520
Other Approaches to Testing Minority Group Members	524
Ignorance Versus Stupidity	524
The Chitling Test	526
The Black Intelligence Test of Cultural Homogeneity	527
The System of Multicultural Pluralistic Assessment	528
