

Contents

1	INTRODUCTION	1
	MANIFESTATIONS OF MIND: SOME CONCEPTUAL AND EMPIRICAL ISSUES	5
	Walter B. Weimer	
	The Nature of the Issues	6
	The Role of Data in Philosophy and Science	15
	The Manifestations of Mind and Body	19
	Concluding Caveat	28
	References	29
2	INTRODUCTION	33
	THE MYSTERIOUS "SPLIT": A CLINICAL INQUIRY INTO PROBLEMS OF CONSCIOUSNESS AND BRAIN	37
	Peter H. Knapp	
	Clinical Vignette: A Splitting Headache	38
	Empirical Findings	45
	Some Implications: Knowledge and Reality	55
	Motives behind the Questions: Some Speculations	60
	References	68
3	INTRODUCTION	71
	MIND, BRAIN, AND THE SYMBOLIC CONSCIOUSNESS	73
	Irwin Savodnik	
	Psychoanalysis and the Symbolic Consciousness	78
	Free Association and the Origin of the Problem of Consciousness and Brain	81

Three Levels of Symbolic Activity	82
Symbolic Forms and Archaic Remnants	87
Symbolic Pregnancy	89
References	97

4 INTRODUCTION 99

BRAIN AND FREE WILL 101

John C. Eccles

Philosophical Introduction	101
Structural and Functional Concepts of the Cerebral Cortex	104
Cerebral Responses during Willed Action	115
Unconscious Actions Emanating from the Human Cerebral Cortex	118
References	119

5 INTRODUCTION 123

AN OLD GHOST IN A NEW BODY 125

C. Wade Savage

Interaction	128
Intelligent Behavior	133
Consciousness	137
Free Agency	142
Disproving Cartesianism	148
References	152

HOW DOGMATIC CAN MATERIALISM BE? 155

John C. Eccles

6 INTRODUCTION 161

MENTAL PHENOMENA AS CAUSAL DETERMINANTS IN BRAIN FUNCTION 163

R. W. Sperry

An Emergent Theory	165
Comparison with Identity Theory	166
A Simple Approach	167
The Bisected Brain and Unity of Consciousness	170
Privacy of Subjective Experience	174
References	177

7 INTRODUCTION 179

CONSCIOUSNESS AS AN EMERGENT CAUSAL AGENT IN THE CONTEXT OF CONTROL SYSTEM THEORY 181

E. M. Dewan

Mutual Entrainment of Oscillations	183
Ontological Status of Consciousness in Relation to the Mutual Entrainment Paradigm	186

Generalized Mutual Entrainment	188
On the Concepts of Self and Identity in the Context of Self-Reflective Awareness and Feedback	194
Could a Machine Have a Consciousness?	196
Conclusion	197
References	198

8

INTRODUCTION 199

REDUCTIONISM, LEVELS OF ORGANIZATION, AND THE MIND–BODY PROBLEM 205

William C. Wimsatt

Part I: Sperry's View of the Mental	206
Part II: Reduction and Its Functions—Real and Mythological	213
Part III: Levels, and Their Significance For Reduction	237
References	264

9

INTRODUCTION 269

MIND, STRUCTURE, AND CONTRADICTION 271

Gordon G. Globus

Complementarity Reconsidered	273
Phenomenological Issues	274
The "Mental" and the "Physical"	277
Mind and the Intrinsic Perspective	280
The Relevance of Gödel's Proof	283
Comparison to Other Solutions	284
Universal Consciousness	289
Coda: In Defense of "Panpsychism"	290
References	292

10

INTRODUCTION 295

PROBLEMS CONCERNING THE STRUCTURE OF CONSCIOUSNESS 297

Karl H. Pribram

Achieving Consciousness	298
Brain and Consciousness	300
Constructional Realism	301
The Disposition toward Self-Consciousness	303
Intentionality	305
Volition	307
Transcendentalism and the Logical Paradox	309
References	312

INTRODUCTION 315

THE ROLE OF SCIENTIFIC RESULTS IN THEORIES OF
MIND AND BRAIN: A CONVERSATION AMONG
PHILOSOPHERS AND SCIENTISTS 317

E. M. Dewan, John C. Eccles, Gordon G. Globus, Keith
Gunderson, Peter H. Knapp, Grover Maxwell, Karl H.
Pribram, C. Wade Savage, Irwin Savodnik, Michael
Scriven, R. W. Sperry, Walter B. Weimer, William C.
Wimsatt

SCIENTIFIC RESULTS AND THE MIND–BRAIN
ISSUE: SOME AFTERTHOUGHTS 329
Grover Maxwell
