
CONTENTS

CHAPTER 1	. Prologue	1
CHAPTER 2	. Water as a Substance	7
CHAPTER 3	. Lakes—Their Distribution, Origins, Forms	15
CHAPTER 4	. Water Economy	37
CHAPTER 5	. Light in Lakes	45
CHAPTER 6	. Fate of Heat	71
CHAPTER 7	. Water Movements	98
CHAPTER 8	. Aquatic Ecosystems: Structure and Productivity	134
CHAPTER 9	. Oxygen	157
CHAPTER 10	. Salinity of Inland Waters	179
CHAPTER 11	. Inorganic Carbon	202
CHAPTER 12	. The Nitrogen Cycle	223
CHAPTER 13	. The Phosphorus Cycle	255
CHAPTER 14	. Iron, Sulfur, and Silica Cycles	298
CHAPTER 15	. Planktonic Communities: Algae	342
CHAPTER 16	. Planktonic Communities: Zooplankton and Their Interactions with Fish	408
CHAPTER 17	. Planktonic Communities: Pelagial Bacteria	487
CHAPTER 18	. Littoral Communities: Larger Plants	519
CHAPTER 19	. Littoral Communities: Algae and Zooplankton	560
CHAPTER 20	. Sediments and Microflora	591
CHAPTER 21	. Benthic Animals and Fish Communities	615
CHAPTER 22	. Organic Carbon Cycling and Detritus	667

CHAPTER 23	. Historical Records of Productivity: Paleolimnology	707
CHAPTER 24	. Ontogeny of Lake Ecosystems	729
CHAPTER 25	. Epilogue	751
	Appendices	755
	Symbols in Chapter Titles	763
