Introduction	1
XAVIER FREIXAS, PHILIPP HARTMANN, & COLIN MAYER	

PART I FINANCIAL SYSTEMS AND ECONOMIC PERFORMANCE

1. Financial Structure and Corporate Governance in Europe, the USA, and Asia	31
FRANKLIN ALLEN, MICHAEL K. F. CHUI, & ANGELA MADDALONI	
2. Finance and Growth: A Macroeconomic Assessment of the Evidence from a European Angle	68
ELIAS PAPAIOANNOU	
3. Interaction Effects in the Relationship between Growth and Finance	99
PHILIPPE AGHION	
4. The Role of Financial Markets and Innovation for Productivity and Growth in Europe	118
PHILIPP HARTMANN, FLORIAN HEIDER, ELIAS PAPAIOANNOU, & MARCO LO DUCA	
5. Measuring European Financial Integration	165
LIEVEN BAELE, ANNALISA FERRANDO, PETER HÖRDAHL, ELIZAVETA KRYLOVA, & CYRIL MONNET	
6. Financial Integration and Economic Welfare	195
SEBNEM KALEMLI-OZCAN & BENT SØRENSEN	

PART II FINANCIAL SYSTEMS AND THE CORPORATE SECTOR

- | | |
|---|-----|
| 7. Corporate Finance in Europe: A Survey
FRANÇOIS DEGEORGE & ERNST MAUG | 217 |
| 8. The Economics of the EU's Corporate Insolvency Law
and the Quest for Harmonization by Market Forces
OREN SUSSMAN | 238 |
| 9. Takeovers
MIKE BURKART & FAUSTO PANUNZI | 265 |
| 10. Recent Developments in Corporate Governance
AILSA RÖELL | 298 |
| 11. The Development and Performance of European Private Equity
TIM JENKINSON | 318 |

PART III FINANCIAL INSTITUTIONS

- | | |
|--|-----|
| 12. Technology, Regulation, and the Geographical Scope of Banking
HANS DEGRYSE & STEVEN ONGENA | 345 |
| 13. Asset Management in Europe
JULIAN FRANKS, COLIN MAYER, & LUIS CORREIA DA SILVA | 374 |
| 14. Pension Funds and the Evolution of Financial Markets
in the European Union
E. PHILIP DAVIS | 389 |
| 15. Insurance and Reinsurance Companies
RAY REES | 414 |
| 16. European Integration of Payments Systems
XAVIER FREIXAS & CORNELIA HOLTHAUSEN | 436 |

PART IV FINANCIAL MARKETS

- | | |
|--|-----|
| 17. The Euro Money Markets
PHILIPP HARTMANN & NATACHA VALLA | 453 |
|--|-----|

18. The European Bond Markets under EMU MARCO PAGANO & ERNST-LUDWIG VON THADDEN	488
19. Equity Returns and Integration: Is Europe Changing? KPATE ADJAOUTÉ & JEAN-PIERRE DANTHINE	519
20. Post-Trading Services and European Securities Markets ALBERTO GIOVANNINI, JOHN BERRIGAN, & DANIELA RUSSO	540
21. Derivatives Markets RONALD W. ANDERSON & KENNETH MCKAY	568
22. Structured Finance MACIEJ FIRLA-CUCHRA	597
23. Location of and Competition between Financial Centres THOMAS P. GEHRIG	619

PART V FINANCIAL REGULATION AND MACROECONOMIC POLICY

24. EU Securities Markets Regulation: Problems, Policies, and Processes BERNHARD SPEYER	645
25. The Supervision of an Integrating European Banking Sector: Theory, Practice, and Challenges KOSTAS TSATSARONIS	668
26. Bank Regulation and Macroeconomic Fluctuations CHARLES GOODHART, BORIS HOFMANN, & MIGUEL SEGOVIANO	690
27. Financial Structure and Monetary Transmission in the EMU BORIS HOFMANN & ANDREAS WORMS	721
28. Monetary Policy Implementation ULRICH BINDSEIL & KJELL G. NYBORG	742
<i>General Index</i>	779

LIST OF FIGURES

1.1. An overview of the financial system	32
1.2. Size of the financial markets by country/region	34
1.3. Portfolio allocation (average 1995–2003)	35
1.4. Portfolio allocation (average 1995–2003)	37
1.5. Liabilities (average 1995–2003)	39
1.6. Foreign exchange reserves	41
1.7. Three-year government bond yields	42
1.8. US long-term Treasury yield nominal GDP growth	42
1.9. Real house prices in the EU, USA, and Japan	44
1.10. Real house prices in Hong Kong and Korea	45
1.11. Mortgage rates in EU countries and in the USA	46
1.12. Ratio of nominal mortgage debt over GDP	48
1.13. Mortgage equity withdrawal in selected European countries	50
1.14. Mortgage equity withdrawal in the UK and the USA	51
1.15. Outstanding home mortgages in the USA	52
1.16. Ownership of ten largest non-financial firms by large shareholders	58
1.17. Initial public offerings in Hong Kong	64
3.1. Results from the first-stage regressions	111
4.1. Financial system concepts and their interrelation	122
4.2. Size of capital markets	129
4.3. Securitization	130
4.4. Venture capital financing (early investment stage)	131
4.5. Dispersion of analysts' forecasts (relative to the level of earnings per share forecasts)	133
4.6. Pricing of firm-specific information (R^2 statistics)	133
4.7. Enforcement of shareholder rights against self-dealing (anti self-dealing index)	135
4.8. Creditor rights	136
4.9. Ownership concentration in top-ten quoted companies	137

4.10. Proportion of institutional shareholders in top-ten quoted companies	138
4.11. Duration of enforcement	138
4.12. Supervisory forbearance discretion	140
4.13. Deposit insurance moral hazard	141
4.14. Bank concentration (Herfindahl index computed on total assets)	142
4.15. Foreign bank penetration	142
4.16. State ownership of banks	143
4.17. Control of corruption	144
4.18. Speed of capital reallocation and financial development in the full sample	148
4.19. Speed of capital reallocation and financial development in the sample of high-income countries	149
5.1. Cross-sectional standard deviation of unsecured lending rates among euro area countries	168
5.2. Ratio between average cross-country unsecured interest rate deviations and average within-country deviations	170
5.3. Cross-sectional standard deviation of repo rates among euro area countries	171
5.4. Ratio between average cross-country EUREPO rate deviations and average within-country deviations	172
5.5. Dispersion in government bond yield spreads for two-, five-, and ten-year maturities	175
5.6. Evolution of conditional betas	177
5.7. Proportion of assets invested in bond market funds with a Europe-wide investment strategy	182
5.8a. Cross-sectional standard deviation of interest rates on short-term and medium- and long-term loans to enterprises	184
5.8b. Cross-sectional standard deviation of interest rates on consumer and mortgage loans	184
5.9. Proportion of variance of various interest rates explained by common factors	187
5.10. Structure of the volatility spillover model	189
5.11. Euro area and US shock spillover intensity	190
5.12. Proportion of variance explained by European and US shocks	191
5.13. Share of equity funds with domestic, European, and non-domestic investment strategy	192
6.1. Financial integration and distance to financial centre, 1985–2004	209
6.2. Financial integration and investor rights, 1985–2004	209
6.3. Financial integration and output, 1985–2004	209

6.4. Financial integration and home bias, 1985–2004	209
6.5. Financial integration and openness, 1985–2004	209
6.6. Financial integration and foreign bank ownership (EU only), 1985–2004	209
11.1. European private equity: funds committed and invested	324
11.2. The distribution of European private equity investments	326
11.3. The distribution of European and US private equity investment, 2004	327
11.4. Leverage and valuation of European buyouts	329
11.5. Private equity investments in 2004 for selected European countries	331
11.6. Private equity funds managed in selected European countries, 2004	332
11.7. Returns on European and US private equity funds, by vintage year	339
12.1. The importance of distance and borders in European financial markets	347
12.2. Road map	349
14.1. Expected US asset prices applying projected US demographics	410
16.1. Target payments	442
16.2. Share of Euro 1 of combined payments made through Euro 1 and TARGET in terms of value (transaction size) and volume (number of payments)	444
17.1. Trading activity and maturity structure in unsecured markets	461
17.2. Trading activity and maturity structure in secured markets	462
17.3. Trading activity and maturity structure in swap markets	463
17.4. Outright transactions, gross and net issuance of short-term debt securities issued by euro area residents	465
17.5. Bid–offer spreads in the deposit and EONIA swap markets at different maturities	466
17.6. The EONIA and the interest rate corridor of the ECB	467
17.7. Interest rate volatility in the main euro money market segments	468
17.8. Turnovers in the main euro money market segments	477
17.9. Concentration of activity in different euro money market segments, 2004	478
18.1. Global bond issuance	493
18.2. Bond issuance and M&A activity in Europe	497
18.3. Ten-year benchmark bond yield spreads, January 1993–July 2004	505
18.4. Ten-year benchmark bond yield spreads under EMU	508
18.5. Ten-year average yield differentials and credit risk	512
19.1. Country pair correlations (GDP growth rate): before and during convergence	523
19.2. Quarterly GDP growth rate dispersions	523

19.3. Twelve-month trailing standard deviation	526
19.4. Filtered equity premia for EMU countries	527
19.5. Filtered dispersion of equity premia	527
19.6. Evolution over time of the relative country/industry influences	530
19.7. Filtered country and global EMU sector dispersions	533
19.8. Filtered country, global sector, and country sector EMU dispersions	536
20.1. Assets under custody of selected securities settlement systems	545
20.2. Instructions handled by selected securities settlement systems	545
20.3a. Securities settlement systems	546
20.3b. Securities central counterparties	546
20.4. Cash equity landscape in major European markets	551
20.5. Costs of transactions	552
20.6. Timetable for removal of the fifteen barriers	555
21.1. Exchange traded financial derivatives	570
21.2. Worldwide futures open interest	571
21.3. Financial derivatives outstanding	571
21.4. Credit derivatives outstanding	576
22.1. Generic securitization structure	599
22.2. European securitization issuance, January 2000–September 2006	601
22.3. European securitization issuance by country	603
22.4. Simplified example of a generic corporate securitization structure	609
24.1. The Lamfalussy process in practice	653
24.2. Committee structure	655
26.1. Crisis frequency	693
26.2. Post-liberalization cycles	705
26.3. The increasing sensitivity of bank lending to property prices	707
26.4. The capital–asset ratio and its components of US commercial banks	708
26.5. Economic activity and credit creation in the US	709
26.6. The US prime lending rate and the federal funds rate	710
26.7. CARs for the USA	715
26.8. CARs for Norway	716
26.9. CARs for Mexico	716
27.1. Corporate bond markets and investment funds in the euro area	726
28.1. Banknotes of the Eurosystem, January 2004–May 2005	751
28.2. A three-day maintenance period with one open market operation	761

LIST OF TABLES

1.1. Assets under management by investors in selected Asian economies (2004)	40
1.2. Mortgage and housing market indicators	49
1.3. Corporate ownership structure in different countries	56
1.4. Proportion of family-controlled publicly traded companies in East Asia in 1996	59
1.5. Debt-to-equity ratios of the corporate sectors	60
1.6. Mergers, closures, and state interventions of financial institutions (June 1997 to June 1999)	60
1.7. Corporate governance in Asia	62
2.1. Overview of main cross-country studies of Finance and growth	74
2.2. Overview of main cross-industry, cross-country studies of finance and growth	83
2.3. Overview of main studies on banking system deregulation in the United States	89
3.1. Growth, financial development, and initial GDP gap	107
3.2. Public investment	112
3.3. Government consumption	112
3.4. Money supply (M_2 /GDP)	113
3.5. Product market liberalization	114
3.6. Growth effects of the flexibility of exchange rate regime: the role of financial development	115
4.1. Dimensions of financial system performance covered by the indicators	127
4.2. Econometric results on the relationship between financial development and capital reallocation	150
4.3. Driving factors of financial development and capital reallocation	152
4.4. Driving factors of financial development and capital reallocation	154
5.1. Average yield spread for ten-year government bonds relative to Germany	174
5.2. Average proportion of local variance explained by benchmark for two-, five-, ten-year maturities	179

5.3. Average parameter estimates for cross-sectional regression (with p -values)	181
6.1. Potential welfare gains for acceding and long-time EU countries, 1994–2001	205
6.A1. Country list	210
8.1. Comparative insolvency in Europe	247
8.2. Owners and subsidiaries by size groups	253
8.3. The level of gearing	256
8.4. Change in gearing	257
8.5. Accumulated 2001–2003 effect on gearing	260
8.A1. Table of variables	263
10.1. Number of proxy fights and dissident success rate	313
11.1. Investors in European private equity	328
11.2. European private equity returns	336
12.1. Theoretical models linking loan rates and distance	351
13.1. Institutional and regulatory forms of investor protection	380
13.2. Impact of responses on investor protection	385
13.3. Forms of investor protection	386
14.1. Institutional investor claims as a proportion of GDP	390
14.2. Size indicator of financial development (total financial claims as a proportion of GDP)	391
14.3. Financial intermediation ratios (intermediated claims as a proportion of the total)	391
14.4. Bank and institutional intermediation ratios	391
14.5. Relative size of EU institutional sectors, 2000	392
14.6. Total assets of pension funds in EU countries, 2004	392
14.7. Projections of elderly dependency ratio	394
14.8. Projected pension costs	395
14.9. European pension fund asset allocation 2004	397
14.10. Portfolio restrictions on EU and Swiss pension funds	398
14.11. Financial structure within EU (as of 2000)	399
14.12. Characteristics of EU financial systems	400
14.13. Correlations between pension assets/GDP and financial structure	401
15.1. Summary comparison of German and British regulation	426
15.2. Great weather disasters, 1950–1999	433
16.1. Payment traffic conducted via European large-value payment systems	443

17.1. Money market instruments in banks' balance sheets and liquidity profile	456
17.2. Average growth rates of the turnovers in the main money market segments between 2000 and 2004	460
17.3. Average volatility in the main euro money market segments	469
18.1. Size of international bond markets in 1998	490
18.2. Global net issuance of debt securities	492
18.3. Bank debt of non-financial firms	496
18.4. Issuance of private sector international debt securities by area and type of issuer	498
18.5. International diversification of bond portfolios in the euro area	499
18.6. Liquidity of the EuroMTS market	502
18.7. Ten-year benchmark bond yield differentials under EMU	509
20.1. CSDs in the euro area, 1999–2004	547
20.2. CCPs in the euro area, 1999–2004	548
20.3. Activity of CSDs in the euro area, 2003	549
20.4. Activity of CCPs in the euro area, 2003	550
20.5. Summary table of actions, actors, and deadlines for removing the barriers to an integrated EU clearing and settlement environment	553
21.1. Fraction of credit derivatives outstanding by type (%)	577
21.2. Participation in credit derivatives markets	578
21.3. Spot price volatility	580
21.4. Largest derivative exchanges	587
21.5. Ownership status of derivatives exchanges	589
21.6. Derivatives positions held by insurers and reinsurers	590
23.1. Head offices of major banks and their representations in other centres, 1970, 1980, 1990, and 2000	623
23.2. The ranking and centrality of the fourteen centres	625
23.3. Measures of the degree of interconnectedness of the centres	626
23.4. Stock listings at NYSE	627
23.5. NYSE and NASDAQ trading volumes	628
23.6. Values of shares traded and company listings in 2002	628
23.7. Relative revenues from listing fees in 2004	629
25.1. The organizational structure of financial supervision	675
25.2. Arrangements for the supervision of banks in European countries	677
25.3. Deposit insurance and crisis management arrangements	679

26.1. Crisis frequency	693
26.2. Unit-root tests for the spread of the prime rate over the federal funds rate	711
26.3. CARs for the USA	714
26.4. CARs for Norway	714
26.5. CARs for Mexico	715
26.6. Maximum percentage change in CARs	717
27.1. Share of short-term or variable rate long-term loans in total loans	727
27.2. Composition of household wealth as percentage of total financial wealth in 2003	729
27.3. Main results from MTN estimations with bank micro data	735
27.4. Main results from MTN estimations with firm micro data	737
28.1. Specification of operational targets and technique of changing level of target variable for selected central banks	747
28.2. The central bank balance sheet	750
28.3. Autonomous liquidity factors in the euro area, second half of 2002, Standard deviations of changes and of forecast errors at three different forecasting horizons	752
28.4. Use of reverse open market operations by selected central banks	753
28.5. Use of standing facilities for selected central banks	756
28.6. Main features of reserve requirement systems: missing central banks are those without any reserve requirement system	757
28.7. Central bank assets under four different implementation approaches	763
28.8. Two key dimensions of choices for designing a monetary policy implementation approach	764
28.9. Comparison of fixed rate and variable rate tenders held by the ECB, January 1999–June 2001	773
