

CONTENTS

Workshop 1: The Ecological and Health Significance of Heavy Metals in the Aquatic Environment

Convenor: J. C. VAN LOON

D. W. McLEESE: Cadmium and marine invertebrates	1085
R. LESCHBER: Heavy metals in sewage sludge—a major topic of joint European research	1087
Workshop discussions	1089

Workshop 2: Odour, Airborne Contaminants and Aerosols from Wastewater Collection and Treatment

Convenor: H. I. SHUVAL

H. R. PAHREN and W. JAKUBOWSKI: Health aspects of wastewater aerosols	1091
A. B. WHEATLAND: Odours from sewers and sewage treatment works	1097
K. F. FANNIN: An approach to the study of environmental microbial aerosols	1103
Workshop discussions	1115

Workshop 3: Groundwater Contaminants from Land Disposal of Residues

Convenor: A. VAN HAUTE

A. A. VAN HAUTE: Groundwater contaminants from land disposal of residues and agricultural practices	1121
J. VERHEYDEN and P. VOETS: Groundwater contaminants from land disposal of residues: a survey in the province of Antwerp, Belgium	1125
J. F. SYKES: The modelling of contaminant migration from sanitary landfills	1135
C. P. YOUNG: The distribution and movement of solutes derived from agricultural land in the principal aquifers of the United Kingdom, with particular reference to nitrate	1137
R. A. GRIFFIN and S. F. J. CHOU: Movement of PCB's and other persistent compounds through soil	1153
