
Contents

Preface.....	ix
Editor	xi
Contributors	xiii
Chapter 1 Folate Chemistry and Metabolism	1
<i>Barry Shane</i>	
Chapter 2 Folate Bioavailability	25
<i>Helene McNulty and Kristina Pentieva</i>	
Chapter 3 Folate Biochemical Pathways and Their Regulation.....	49
<i>Patrick J. Stover</i>	
Chapter 4 Genetic Variation: Effect on Folate Metabolism and Health	75
<i>Karen E. Christensen and Rima Rozen</i>	
Chapter 5 Folate in Pregnancy and Lactation.....	111
<i>Tsunenobu Tamura, Mary Frances Picciano, and Michelle Kay McGuire</i>	
Chapter 6 Folate Status and Birth Defect Risk: Epidemiological Perspective.....	133
<i>Charlotte A. Hobbs, Gary M. Shaw, Martha M. Werler, and Bridget Mosley</i>	
Chapter 7 Folate-Related Birth Defects: Embryonic Consequences of Abnormal Folate Transport and Metabolism	155
<i>Deeann Wallis, Johnathan L. Ballard, Gary M. Shaw, Edward J. Lammer, and Richard H. Finnell</i>	
Chapter 8 Folic Acid Fortification: Neural Tube Defect Risk Reduction—A Global Perspective	179
<i>Robert J. Berry, Joseph Mulinare, and Heather C. Hamner</i>	

Chapter 9	Folate and Cancer: Epidemiological Perspective	205
	<i>Jia Chen, Xinran Xu, Amy Liu, and Cornelia M. Ulrich</i>	
Chapter 10	Folate and Carcinogenesis: Basic Mechanisms.....	235
	<i>Eric Ciappio and Joel B. Mason</i>	
Chapter 11	Folate and Vascular Disease: Epidemiological Perspective.....	263
	<i>Sari R. Kalin and Eric B. Rimm</i>	
Chapter 12	Folate and Vascular Disease: Basic Mechanisms	291
	<i>Luciana Hannibal, Alla V. Glushchenko, and Donald W. Jacobsen</i>	
Chapter 13	Folate and Neurological Function: Epidemiological Perspective	325
	<i>Martha Savaria Morris and Paul F. Jacques</i>	
Chapter 14	Folate and Neurological Disease: Basic Mechanisms.....	355
	<i>Teodoro Bottiglieri and Edward Reynolds</i>	
Chapter 15	Folate–Vitamin B12 Interrelationships: Links to Disease Risk.....	381
	<i>Anne M. Molloy</i>	
Chapter 16	Clinical Folate Deficiency.....	409
	<i>Sally P. Stabler</i>	
Chapter 17	Influence of Alcohol on Folate Status and Methionine Metabolism in Relation to Alcoholic Liver Disease	429
	<i>Charles H. Halsted, Valentina Medici, and Farah Esfandiari</i>	
Chapter 18	Folate and Choline Interrelationships: Metabolic and Potential Health Implications.....	449
	<i>Marie A. Caudill</i>	
Chapter 19	Folate: Recommended Intakes, Consumption, and Status	467
	<i>Gail P. A. Kauwell, Megan L. Diaz, Quanhe Yang, and Lynn B. Bailey</i>	

Chapter 20 Kinetics of Folate and One-Carbon Metabolism	491
<i>Jesse F. Gregory III, Vanessa R. da Silva, and Yvonne Lamers</i>	
Chapter 21 Folate Analytical Methodology.....	517
<i>Christine M. Pfeiffer, Zia Fazili, and Mindy Zhang</i>	
Index	575
