

Contents

1. Aggression: Definition and Perspectives	1
Aggression: A Working Definition	4
Aggression as Behavior	7
Aggression and Intention	8
Aggression as Harm or Injury	9
Aggression Involves Living Beings	10
Aggression Involves an Avoidance-Motivated Recipient	11
Hostile versus Instrumental Aggression	11
Contrasting Theoretical Perspectives on Aggression: Instinct, Drive, or Learning?	13
Aggression as Instinctive Behavior: Innate Urges toward Death and Destruction	14
Aggression as an Elicited Drive: Motivation to Harm or Injure Others	20
Cognitive Models of Aggressive Behavior	29
Aggression as Learned Social Behavior: Direct and Vicarious Training for Violence	31
Summary	37
2. Methods for the Systematic Study of Aggression	39
Experimental and Nonexperimental Approaches to Research ...	40
Asking about Aggressive Behavior	42
Archival Research	42
Verbal Reports	43

Projective Techniques	50
Conclusion	52
Observing Aggression	52
Observations in the Field	53
Observations in the Laboratory	58
Conclusion: How Does the Researcher Decide Which Method and Approach to Use?	83
Summary	83
3. The Development of Aggressive Behavior	87
Acquisition of Aggressive Behavior	88
Family Interaction	88
Family Management Practices	91
Models of Family Influence	95
A Special Note on Punishment	98
Peer Interaction	101
Exposure to Aggressive Models: The Impact of Witnessed Aggression	103
Cognitive Influences on the Development of Aggression	116
Encoding Social Cues	117
Interpretation of Social Cues	118
Response Search	119
Response Evaluation	120
Response Enactment	121
Consistency of Aggressive Behavior Across Time: Does Childhood Aggression Predict Adult Aggressiveness?	121
Summary	123
4. Social Determinants of Aggression	127
Frustration: Interpersonal Thwarting as an Antecedent of Aggression	128
Evidence Suggesting that Frustration Facilitates Aggression	129
Evidence Suggesting that Frustration Does Not Facilitate Aggression	131
Frustration and Aggression: Mediating Factors	133
A Concluding Comment	140

Verbal and Physical Attack: Actual and Perceived Provocation as Antecedents of Aggression	140
Retaliatory Aggression	141
Why People Retaliate	143
Target Characteristics: Sex and Race of Target as Antecedents of Aggression	147
Sex of Target	147
Race of Target	149
Instigation from Others as an Antecedent of Aggression	153
Orders Are Orders: Obedience to Authority	153
The "Innocent Bystander" Strikes Again: Effect of Presence and Actions of Third Parties	158
Summary	163
5. External Determinants of Aggression	165
Environmental Determinants of Aggression: Heat, Noise, Crowding, and "Unhealthy Air"	166
Aggression and Heat: The "Long, Hot Summer" Revisited ...	167
Noise and Aggression: The Sound of Violence?	177
The Effects of Crowding	179
The Effects of Air Quality on Human Aggression	182
The Continuing Saga of Bill and Dianne	185
External Cues as Determinants of Aggressive Behavior	185
Individual Characteristics as Aggressive Cues	186
Objects as Elicitors of Aggression: Does the Trigger Pull the Finger?	188
Media as Sources of Cues Associated with Aggression	190
Aggressive Cues: A Concluding Comment	194
Self-Awareness: External Reminders of Who We Are and What We Stand For	194
Summary	199
6. Individual Determinants of Aggression:	
Personality, Attitudes, and Gender	201
Personality and Aggression: Traits Related to Violence	203
Are Personality Traits Really Stable?	204
Personality Traits Related to Aggression by Normal Individuals	206

Violent Men and Women: Undercontrolled and Overcontrolled Aggressors	224
Undercontrolled Aggressors: The Absence of Restraint	225
Undercontrolled Aggressors: Some Implications	227
Overcontrolled Aggressors: When Too Much Restraint Is a Dangerous Thing	227
Attitudes, Internal Standards, and Aggression	232
Prejudice and Interracial Aggression	233
Aggression toward Outgroups: The Role of Perceived Conflict	234
Internal Standards and Aggression: The Effects of Looking Inward	235
Gender Differences in Aggression: Do Males and Females Really Differ? And If So, Why?	237
Gender Differences in Aggression: Males and Females as Aggressors	238
Gender Differences in Aggression: Males and Females as Targets	239
The Origins of Gender Differences in Aggression: Genetics or Social Roles?	240
Summary	242
7. Biological Bases of Human Aggressive Behavior	245
Heritability of Aggressive Behavior	246
Sex Chromosome Abnormalities	248
Y-Chromosome Hypothesis	249
X-Chromosome Hypothesis	251
Conclusion	252
Hormones and Aggressive Behavior	252
Evidence	252
Explanations	255
Conclusion	258
Central Nervous System	259
Limbic System	259
Cortex	260
Brain/Environment Interaction	262
Arousal and Aggression	263
Arousal Influences Aggression	263
Dispositional Arousability or Reactivity	269
Aggression Influences Arousal	269

Conclusion	272
Warning about Biological Explanations	273
Distortion of Truth	273
False Expectations	273
Fears of Biological Intervention	274
Summary	274
8. Aggression in Natural Settings	277
Drugs	278
Alcohol	278
Marijuana	282
Sexual Coercion	282
Characteristics of the Sexual Aggressor	283
Alcohol and Sexual Aggression	285
Effect of Pornography on Aggression	288
Erotica and Aggression: Facilitation or Inhibition?	288
Effect of Erotica on Responses to Women	296
Summary	300
Aggression Associated with Sporting Events	301
Aggression by Observers	301
Aggression among Participants	302
Interpersonal Conflict in Natural Settings	302
Summary	307
9. The Prevention and Control of Human Aggression	309
Punishment: An Effective Deterrent to Aggression?	312
Threatened Punishment: When It Succeeds and When It Fails	313
Actual Punishment: What Lessons Does It Teach Recipients?	317
Punishment and Criminal Justice: Potential Paradoxes	320
Catharsis: Does "Getting It Out of One's System" Really Help?	321
Tension Reduction through Aggressive Actions: When It Feels Good to Hurt	322
Catharsis and Behavioral Aggression: Does Present Violence Lead to Later Mercy?	326

Exposure to Nonaggressive Models: The Contagion of Restraint	329
The Impact of Nonaggressive Models: A Note on Comparative Effectiveness	332
Cognitive Techniques for the Control of Aggression: Attributions, Mitigating Circumstances, and Apologies	333
Attributions: How Answers to the Question "Why?" Can Affect the Occurrence of Aggression	334
Mitigating Circumstances: Interdependencies between Emotion and Cognition in the Control of Aggression	336
Apologies and Causal Accounts: The Benefits of Saying "I'm Sorry"	340
The Induction of Incompatible Responses: Empathy, Humor, and Mild Sexual Arousal as Deterrents to Human Aggression	343
Empathy: Reactions to the Suffering of Others	344
Humor and Feelings of Amusement	346
Mild Sexual Arousal: Does Titillation Generate Restraint?	348
Extensions of the Incompatible Response Hypothesis: Organizational Conflict	349
Training in Social Skills: Learning to Avoid Trouble	352
The Control of Human Aggression: A Concluding Plea for Optimism	354
Summary	356
