Abbreviations and symbols 5
0. Preface 7
1. State-of-the-art report 9
1.1. Goals 11
1.2. Works on gender in North Germanic 12
1.2.1.Didriksen's / Dee Hansen's feministic view 13
1.2.2.West Scandinavian studies in gender 14
1.3.Other works on gender 16
1.4.Different theoretical approaches 19
1.5.Organization of the present work 22
1.6.Methodology 24
2 A general survey of gender systems 29
2.1. Purely semantic systems 30
2.2. Generic vs. particular 34
2.3. Morphological systems 35
2.4. Phonological systems 38
2.5.From Indo-European to North Germanic 42
2.6. Changes in Germanic 45
2.7. A theoretical approach to gender and some general problems 50
2.7.1. Language production: The lemma level and the functional level 51
2.7.2. Is gender assignment arbitrary or rule based? 53
2.7.3. The Gender Assignment Hierarchy and the Agreement Hierarchy 54
2.7. 4. Biological gender and grammatical gender 59
2.7.5. Small animate and up- and downgrading 62
2.7.6. Animate and inanimate; semantic and formal 67
2.7.7. Overt and covert gender assignment 69
3. Establishing genders in Faroese 73
3.1. Agreement evidence 75
3.1.1. The same morphosyntactic form 75
3.1.2. Same agreement domain 77
3.1.3. Same lexical items 77
3.2. Controller genders and target genders 78
4. Default gender 89
4.1. Word-level default 92
4.1.1. Statistics 92
4.1 2. Neologisms 94
4.1.3. Borrowings 95
4.1.3.1. Comments. More than one gender 99
4.1.3.2. Changes based on semantics 101
4.1.3.3. Changes based on form 102
4.1.4. Derivations by conversion 112
4.1.5. Nominalized patterns 115
4.2. Semantic default: masculine 116
4.2.1. Interrogative pronouns: masculine 117
4.2.2. Reflexive pronouns and the indefinite *sjálvur* 118
4.2.3. Indefinite pronouns: masculine 120
4.2.3.1. Human, animate versus inanimate 122
4.2.4. Generic *tú* 'you' and *mann* 'you' + predicative adjectives / past participles 122
4.2.5. Generic *hann* 'he' 123
4.2.6. Generic *teir* 'they' 125

4.3. Semantic default: neuter 125
4.3.1. Interrogative pronouns: neuter 126
4.3.2. Indefinite pronouns: neuter 127
4.3.3 *Summi* 'some' and other cases of neuter as a semantic default 128
4.3.4. *Menn* 'men', *fólk* 'people' and *limur* 'member' 132
4.4. Summarizing 134
4.5. Syntactic default 137
4.5.1. Weather expressions 138
4.5.2. Numerals 142
4.5.3. No gender controller: further examples 143
4.6. To summarize and conclude 145
5. Semantic assignment rules 147
5.1. Human, animate, male 149
5.2. Non-human, animate, male 151
5.3. Persons are masculine 151
5.4. Nouns denoting time 153
5.5. Trees are masculine or feminine 154
5.6. Fish are masculine or feminine 156
5.7. Birds are masculine or feminine 157
5.8. Human, animate, female 159
5.9. Non-human, animate, female 162
5.10. Musical instruments are feminine 163
5.11. Human beings of both sexes 164
5.12. Special semantic rules in human, animate 165
5.13. Numbers 168
5.14. Direction of the wind and the four points of the compass 168
5.15. Nouns denoting the annual cycles 169
5.16. Conditions of the sea 170
5.17. Drizzle 172
5.18. Dust 173
5.19. Chemical elements and metals 173
5.20. Alcohol 174
5.21. Grain 174
5.22. Countries and continents 174
5.23. Latin grammatical terms 175
5.24. Epicenes 175
5.24.1. Domestic 176
5.24.2. Wild 176
5.25. Summary and discussion 176
6. Morphological gender assignment 185
6.1. Indefinite and definite forms 189
6.2. Gender and overt gender assignment 191
6.2.1. More on *-ur* = m. 192
6.2.2. More on *-i* = m. 195
6.2.3. More on *-a* = f. 197
6.3. Gender and covert declinational classes 202
6.3.1. Covert assignment: masculine 204
6.3.2. Covert assignment: feminine 206
6.3.3. Covert assignment: neuter 207
6.4. Plural 209
6.5. Negative neuter 210
6.5.1. Negative neuter, deverbal 211
6.5.1.1. Negative neuter with the verb missing 217
6.5.1.2. Negative neuter not denoting a person 217

6.6. Sounds 219
6.7. Conversion rules 222
6.8. Singularia and pluralia tantum 223
6.8.1. Singularia tantum: Masculine 224
6.8.2. Singularia tantum: Feminine 225
6.8.3. Singularia tantum: Neuter 225
6.9. Pluralia tantum 225
6.9.1. Pluralia tantum: Masculine 226
6.9.2. Pluralia tantum: Feminine 227
6.9.3. Pluralia tantum: Neuter 228
6.9.4. Comments on pluralia tantum 228
7. Borrowings 233
7.1. Danish gender preserved and change in gender 237
7.2. Semantic assignment in borrowings 238
7.3. Formal assignment in borrowings: Masculine 241
7.3.1. Common gender nouns in Danish *-ik-*: Faroese: Masculine or feminine 244
7.4. Formal assignment in borrowings: Feminine 246
7.5. Formal assignment in borrowings: Neuter 249
7.6. Summary and a short discussion of borrowings 251
8. Double gender in native nouns 255
8.1. Short comments on the data 258
8.1.1. Transition words 259
8.1.2. Revival of nouns 262
8.1.3. Danish gender wins 263
8.1.4. Double gender and negative neuter 264
8.1.5. Masculine or feminine 265
8.1.6. Masculine or neuter 268
8.1.7. Masculine or neuter: Same form 271
8.1.8. Confusion of *-ur*: Neuter, (feminine) and masculine 271
8.1.9. No ending in the nominative, accusative, singularia tantum: Neuter or feminine 273
8.1.10. The ending *-a*: Feminine and no ending: Neuter 274
8.1.11. Rare nouns 275
8.1.12. Semantic analogy in double gender nouns 276
9. Tests 279
10. Historical changes 291
10.1. Semantic motivated changes 292
10.2. Form as basis for the changes 294
10.2.1. The validity of the -ur rule: Epenthesis 294
10.2.2. No suffix = neuter 296
10.3. Semantic analogy 297
10.4. Contact induced changes 298
10.5. Other changes 299
10.6. Analogical spread in the nominative, masculine 300
11. Conclusion 303
