<i>Foreword: Introducing Jaap Kruijt G. P. Baerends</i>	xi
<i>Preface</i>	xix
Part one Introduction	1
1 The concept of cause in the study of behavior <i>J.A. Hogan</i>	3
2 Neurobiological analyses of behavioural mechanisms in development <i>J. J. Bolhuis</i>	16
Part two Development of perceptual and motor mechanisms	47
3 The neural basis for the acquisition and production of bird song <i>T. J. DeVoogd</i>	49
4 Sexual imprinting as a two-stage process <i>H.-J. Bischof</i>	82
5 The influence of social interactions on the development of song and sexual preferences in birds <i>N. S. Clayton</i>	98
6 Perceptual mechanisms in imprinting and song learning <i>C. ten Cate</i>	116
7 The development of action patterns <i>K. C. Berridge</i>	147
Part three Development of behaviour systems	181
8 The ontogeny of social displays: interplay between motor development, development of motivational systems and social experience <i>T. G. G. Groothuis</i>	183
9 Psychobiology of the early mother–young relationship <i>A. S. Fleming & E. M. Blass</i>	212
10 Development of behavior systems <i>J. A. Hogan</i>	242
Part four Development of cognition	265
11 Cortical mechanisms of cognitive development <i>M. H. Johnson</i>	267
12 Cognitive development in animals <i>D. F. Sherry</i>	289

13	The biological building blocks of spoken language <i>J. L. Locke</i>	300
Part five Learning and development		325
14	Behavioral change as a result of experience: toward principles of learning and development <i>P. D. Balsam & R. Silver</i>	327
15	The varieties of learning in development: toward a common framework <i>S. J. Shettleworth</i>	358
16	Representation development in associative systems <i>I. P. L. McLaren</i>	377
	<i>Author index</i>	403
	<i>Subject index</i>	413
