PART I. VARIETIES OF CAPITALISM: TAKING STOCK

1. Introduction: Beyond Varieties of Capitalism <i>Bob Hancké, Martin Rhodes, and Mark Thatcher</i>	3
2. The Evolution of Varieties of Capitalism in Europe <i>Peter A. Hall</i>	39

PART II. MACRO-ADJUSTMENT AND VARIETIES OF CAPITALISM

3. Macroeconomics and Varieties of Capitalism <i>David Soskice</i>	89
4. Wage Bargaining and Comparative Advantage in EMU <i>Bob Hancké and Andrea Monika Herrmann</i>	122

PART III. THE SINGLE MARKET, REGULATION, AND FIRMS

5. Reforming National Regulatory Institutions: the EU and Cross-National Variety in European Network Industries <i>Mark Thatcher</i>	147
6. Institutional Variation and Coordination Patterns in CMEs: Swiss and German Corporate Governance in Comparison <i>Alexander Börsch</i>	173
7. Capital Mobility, Varieties of Institutional Investors, and the Transforming Stability of Corporate Governance in France and Germany <i>Michel Goyer</i>	195

PART IV. LABOUR MARKET AND WELFARE
STATE ADJUSTMENT

- | | |
|---|-----|
| 8. The Political Economy of Adjustment in Mixed Market Economies: A Study of Spain and Italy
<i>Oscar Molina and Martin Rhodes</i> | 223 |
| 9. What Does Business Want? Labour Market Reforms in CMEs and Its Problems
<i>Anke Hassel</i> | 253 |
| 10. Economic Shocks and Varieties of Government Responses
<i>Torben Iversen</i> | 278 |

PART V. CAPITALISM GOES EAST

- | | |
|--|-----|
| 11. Central European Capitalism in Comparative Perspective
<i>Lawrence P. King</i> | 307 |
| 12. The Origins of Varieties of Capitalism: Lessons from Post-Socialist Transition in Estonia and Slovenia
<i>Magnus Feldmann</i> | 328 |
| 13. Strengths and Weaknesses of ‘Weak’ Coordination: Economic Institutions, Revealed Comparative Advantages, and Socio-Economic Performance of Mixed Market Economies in Poland and Ukraine
<i>Vlad Mykhnenko</i> | 351 |
| <i>Bibliography</i> | 379 |
| <i>Index</i> | 426 |

List of Figures

1.1. State-economy relations, interest organization, and modes of coordination	25
2.1. Gross size and composition of welfare states (FY 1960, 1970, 1980, 1990, and 2001)	57
2.2. Government employment as a percentage of working age population 1960–2000	58
2.3. Trends in deindustrialization and trade in the OECD, 1955–95	76
3.1. Comparisons between national production regimes and political systems	95
3.2. The public policy formation process in a consensual political system	102
3.3. Contemporaneous correlation between the change in the cyclically adjusted primary balance and the output gap, 1981–2005	106
3.4. Closed economy model (1): aggregate demand/economic activity	112
3.5. Closed economy model (2): the short-run Phillips curve, i.e. inflation relative to expected inflation	113
3.6. Closed economy model (3): central bank action on short-term real interest rates in response to deviations from target rate of inflation/unemployment equilibrium	115
6.1. Relative patent specialization in 2002	177
8.1. The organizational logic of complementarities in varieties of capitalism	230
8.2. A two-tier analytical framework	231
8.3. Institutional indicators: Italy and Spain versus Germany and the UK, early 1980s and late 1990s	250
9.1. Share of employees in the metal sector covered by collective agreements	261
9.2. Apprenticeships, 1978–2004	265
9.3. Apprenticeships as a share of 15-year-olds	266
9.4. Pay increases for trainees and other employees	270
10.1. Support for redistribution as a function of income and risk	282
10.2. PR and non-market coordination	287
10.3. Increases in the probability of ‘strongly agreeing’ with more government redistribution as a function of low income and high risk	300
13.1. Real GDP and industrial output annual growth rates, percentage, 1989–2006	355
13.2. Real GDP volume index (1989 = 100) and real GDP per capita in \$PPP, 1989–2006	356

13.3. Labour productivity annual percentage growth (GDP in \$PPP per hired wage-earner/salaried employee), 1989–2004	357
13.4. Gross enterprise annual profit rate (ratio of operating revenues to operating costs), 1996–2003	357
13.5. Capital investment volume index (1989 = 100) and capital investment annual growth, 1989–2005	358
13.6. Foreign trade turnover (exports and imports of goods and services) as percentage of GDP, 1992–2003	359
13.7. Inflation, annual percentage change, 1997–2006	360
13.8. Real unemployment rate, share of active labour force (ILO methodology), 1995–2005	360
13.9. Absolute poverty rates, percentage of total population on \$PPP 2.15 per day and on \$PPP 4.30 per day, 2002–3	361
13.10. Distribution of consumption, national Gini coefficients in percentage points on a scale of 0 (perfect equality) to 100 (absolute inequality), 1993–2003	362
13.11. Collective wage-bargaining coverage (percentage of wage earners) and public social spending as percentage of GDP, 1995–2005	375

List of Tables

2.1. Comparative economic performance by period	45
2.2. Average rates of growth of GDP and employment	48
2.3. Employment in services as a percentage of total employment	67
2.4. Real unit labour costs (1995 = 100)	70
2.5. Days lost in industrial conflict	75
3.1. Complementarities between demand management regimes, political systems, welfare states, and production regimes	90
3.2. Small-N case with accommodating monetary policy	99
3.3. Aggregate demand management regimes and labour market institutions	104
3.4. Ranking of degree of delegation or centralization in budgetary implementation by the Finance Ministry: 4 = highly centralized; 0 = low	106
4.1. Competitive strategy of firms in EMU member-states in 1992 and 2001	128
4.2. Degree of wage-bargaining centralization in the EMU member-states	129
4.3. Wage coordination and competitive strategy	130
4.4. Competitiveness, productivity, and wages in the manufacturing sector	132
4.5. Unit labour cost growth in business sector, 1990–4 and 1995–9	133
4.6. Continuous vocational training programmes in centrally and decentrally coordinated wage-setting systems, 1993 and 1999	134
4.7. Working days lost due to strikes per 1,000 employees, all industries, averages 1991–3 and 1998–2000	134
4.8. Delegation of responsibility in companies	135
4.9. Employee tenure rates, 1995	135
4.10. Italy: regional differences in average earnings per hour paid in the manufacturing sector	138
4.11. Spain: regional differences in average earnings per hour paid in the manufacturing sector	139
5.1. Key institutional features of the three models of regulatory institutions	152
5.2. Summary of European model of regulation in mid-1960s	154
5.3. Sectoral regulatory institutions in 2005 and features of institutional change	169
6.1. Comparing the institutional infrastructure for corporate governance	180
7.1. Foreign ownership selected French blue-chip companies	200

7.2. Foreign ownership selected German blue-chip companies	201
7.3. Number of times countries appear among the top three foreign investment destinations of individual mutual funds	206
8.1. The three varieties of capitalism	229
8.2. The organizational fragmentation of socio-economic interests in Italy and Spain	234
8.3. Structural features of the Italian and Spanish political systems	235
8.4. Institutional indicators Italy and Spain vs. Germany and the UK, late 1980s and early 1990s	251
9.1. Unemployment rates in EU member-states for all age cohorts and young unemployed under 25, 2001	264
10.1. Common shocks, national institutions, and government spending	293
10.2. Nationally specific shocks, national institutions, and government spending	295
10.3. Common shocks, centralization of wage bargaining, and wage inequality	297
10.4. Shocks and government transfers in two sub-periods	298
11.1. Divergence in post-communist society	315
11.2. Varieties of post-communist capitalism	316
12.1. Estonia and Slovenia as varieties of capitalism	331
12.2. Estimated bargaining coverage rates and unionization rates in eight EU candidate countries, 1999–2001	332
13.1. Major characteristics of capitalism in Poland and Ukraine, 2000–5	367
13.2. Revealed comparative advantage index (2001–2 average) and RCA percentage change between 1992–3 and 2001–2	373
