Preface	7
Acknowledgments	10
1. Introduction	11
2. Backward induction solution to the centipede game	17
2.1 Introduction.....	17
2.2 Counterfactual conditionals	21
2.3 Counterfactuals in Game Theory	26
2.4 The centipede game	30
2.5 Definitions and notation.....	33
2.6 Knowledge and Belief.....	36
2.7 The backward induction solution	49
3. Backward induction solution and the theories of counterfactuals	53
3.1 The concept of rationality	54
3.2 Knowledge and Rationality.....	55
3.3 Lewis's theory of counterfactuals.....	58
3.4 Bennett's theory of counterfactuals	67
3.5 The formalization of the results.	70
3.6 Primitive epistemic and doxastic structures	74
3.7 Concluding remarks	85

4. Belief updating and equilibrium refinements in signaling games.	93
4.1 Introduction.....	93
4.2 Signaling Games	100
4.3 Sequential Equilibrium	102
4.4 The Intuitive Criterion	104
4.5 Divine equilibria	109
4.6 The Intuitive Criterion and Divinity compared.....	113
5. Priors as off-the-equilibrium beliefs.....	117
5.1 The role of payoffs and priors in the existence of equilibrium.....	119
5.2 A variation of Banks and Sobel's Divinity.....	121
5.3 The refinement to Divinity and Divinity compared.....	123
6 Concluding remarks.	127
