1	Introduction	1
2	Payment Systems: An Innovation Perspective	7
2.1	Models of Innovation	8
2.1.1	The Linear Model	8
2.1.2	The Diffusion Model	9
2.1.3	The Innovation Dynamics Model	10
2.1.4	Teece's Model.....	11
2.1.5	The People Perspective.....	11
2.1.6	The Profit Chain	12
2.1.7	The Services Model.....	13
2.1.8	The Developing Country Model.....	13
2.2	Evolutionary and Resource-Based Models	15
2.2.1	Evolutionary Perspectives	15
2.2.2	Schumpeter	15
2.2.3	Freeman	16
2.2.4	Lundvall.....	17
2.2.5	Nelson and Winter	18
2.3	Resource-Based Perspectives	20
2.4	Comparison of Views	21
2.5	Analytical Framework	23
2.5.1	Types of Resources-Routines	23
2.5.2	IT Resources.....	24
2.5.3	Source of Innovation	26
3	Strategic Approaches to Payment Efficiency and Innovation	29
3.1	The Minimalist Approach: Australia, Canada, Finland, United Kingdom.....	30
3.1.1	Australia	31
3.1.2	Canada	32
3.1.3	Finland.....	34
3.1.4	United Kingdom.....	35

3.2	The Competitive Approach: United States.....	36
3.3	The Public Service Approach: Thailand	38
3.4	Comparison of Strategic Approaches.....	45
3.5	The Role of the Central Bank in Promoting Innovation.....	48
3.5.1	Technological Innovations.....	48
3.5.2	Regulatory Innovations.....	50
3.5.3	Financial Innovations	51
3.5.4	Key Policy Issues.....	52
4	The Analysis of Payment Systems Efficiency	55
4.1	Analytical Frameworks	56
4.1.1	The Risk-Cost Frontier Framework.....	56
4.1.2	The Settlement Delay-Liquidity Usage Framework.....	57
4.1.3	The Economies of Scale Framework.....	58
4.1.4	The Product Life-Cycle Framework.....	59
4.1.5	Payment Systems Efficiency Studies.....	60
4.2	Use of Payment Instruments and Implications on Efficiency	62
4.2.1	Cash Transactions.....	62
4.2.2	Cashless Transactions.....	68
4.2.3	A Model of Payment Instrument Use	70
4.2.4	Financial Services Infrastructure and X-Efficiency.....	74
4.2.5	Implications on Payment Systems Efficiency	78
4.3	Pricing of Central Bank Payment Services	80
4.3.1	Pricing Method and Payment Transactions	80
4.3.2	Fees and Central Bank Services	84
4.3.3	Costs and Revenue.....	86
4.3.4	A Model for Estimating Scale Economies in Large-Value Payment Systems.....	90
4.3.5	Key Issues.....	95
4.3.6	Policy Recommendations	96
5	The Diffusion of Payment Innovations.....	101
5.1	Cross-Country Use of Cash and Electronic Payments	103
5.1.1	Alternative Indicator of Cash Use	106
5.2	Costs of Using Different Payment Instruments.....	109
5.2.1	Bank Payment Costs.....	109
5.2.2	Retailer Expense of Accepting Different Payment Instruments.....	110
5.2.3	Estimating the Number of Cash Transactions	111
5.3	Projecting Shares of Electronic and Cash Payments in Asia	112
5.3.1	Share of Electronic Payments in Non-Cash Transactions	113
5.3.2	Share of Cash Payments in Consumption	114

6	Capability Development: The Banking Sector	117
6.1	Innovation in the Banking Sector	119
6.2	Payment Automation	124
6.3	Payment Routines	126
6.4	Innovative Capabilities	128
6.4.1	Indicators of Innovation	129
6.4.2	Sources of Information	130
6.4.3	Sources of Learning	131
6.4.4	Sources of Technological Capabilities	135
6.5	Interpreting the Survey	137
6.5.1	Replication of Technology	137
6.5.2	Replication of Payment Systems	140
6.5.3	Replication of Skills	142
7	Capability Development: Commercial Banks	145
7.1	Siam Commercial Bank	145
7.1.1	The First Thai Bank	145
7.1.2	Role of IT	146
7.1.3	IT Development Plans	147
7.1.4	Bank Automation and Innovation	148
7.1.5	Sources of Innovation	149
7.2	Bangkok Bank	151
7.2.1	Thailand's Largest Bank	151
7.2.2	Role of IT	152
7.2.3	Pioneer in Re-engineering	153
7.2.4	Sources of Innovation	154
7.3	Kasikornbank	157
7.3.1	Catalyst of Bank Re-engineering	157
7.3.2	Role of IT	157
7.3.3	Sources of Innovation	159
7.4	Krung Thai Bank	162
7.4.1	Innovative State Bank	162
7.4.2	Role of IT	162
7.4.3	Sources of Innovation	164
7.5	Lessons Learned	165
7.5.1	Banking Leadership	166
7.5.2	Role of Skilled Staff	166
7.5.3	Role of Re-engineering	168
7.5.4	Role of IT	169
7.5.5	Replication of Resources	170
8	Future Challenges	173
	References	177
