PART 1 A framework for developmental psychology 1		
1	A brief history of developmental psychology The developmental principle The evolution of development The emergence of developmental psychology Fundamental questions in developmental psychology Conclusion and summary Further reading	2 4 6 8 12 16
2	Developmental psychology in the 20th century Learning or maturation: The rise of opposing schools Jean Piaget (1896–1980) Lev Semeonovich Vygotsky (1896–1934) John Bowlby (1907–1990) Conclusion and summary Further reading	18 19 22 26 30 34 35
3	Observing and modelling developments change The epigenetic landscape Stage theories of development The dynamic systems approach The connectionist approach	36 38 40 42 45

	Information-processing approaches Carrying out research in developmental	49
	psychology Methods of data collection Conclusion and summary Further reading	51 55 57 57
PART 2 Early development :		
ı	Development from conception to birth Stages in prenatal development	60 61
	Behaviour in the foetus Evolution and development	66
	of the brain	71
	Sitting, standing, and walking The sensory capacities of the neonate	76 80
	Childbirth	87
	Conclusion and summary	89
	Further reading	91
õ	Cognitive development in infancy	92
	Piaget's theory of infant cognition	93
	Piaget's account of the development of the object concept Infants' perception of objects: An	99
	alternative to Piaget	103
	Memory in infancy	111
	Reaching and grasping	113
	Conclusion and summary Further reading	118 119
5	Early social development	120
	Recognising oneself	121
	Recognising other people	122

	Smiling and social recognition	125
	Imitating other people	126
	Play	130
	The development of attachment	131
	Responses to emotions	138
	Differences in interaction with	
	boys and girls	139
	Conclusion and summary	140
	Further reading	141
