PREFACE	xi
CONTENTS OF VOLUME I	xv

part A: OBJECTS AND SPACE

chapter 1: An Approach to the Study of Infant Space Perception	
ALBERT YONAS AND HERBERT L. PICK, JR.	
I. Introduction	3
II. Stimulus Convergence and the Representation of Space	5
III. Response Convergence and the Representation of Space	11
IV. Summary and Conclusions	24
References	28
chapter 2: Infant Perception of the Third Dimension and Object Concept Development	
T. G. R. BOWER	
I. Introduction	33
II. Perception of the Third Dimension	34

III. Development of the Object Concept	38
References	49
chapter 3: Recent Studies Based on Piaget's View of Object Concept Development	
GERALD GRATCH	
I. Introduction	51
II. Piaget's Theory of the Construction of the Object Concept	53
III. Psychometric Studies of Object Concept Development	60
IV. Studies Focused on Piaget's Theory	69
V. Conclusion	92
References	96
chapter 4: Infant's Social Perception: A Constructivist View	
MICHAEL LEWIS AND JEANNE BROOKS	
I. Alternative Perspectives	102
II. Social Perception	106
III. Three Theories of Social Perception	114
IV. Fear, Response to People, and Gender—How the Construct of Self Explains These Phenomena	124
V. Concluding Comments	141
References	143
part B: THE DISCRIMINATION OF SPEECH AND SOUND	
chapter 5: Electrophysiological Correlates of Human Auditory Development	
KURT HECOX	
I. Introduction	151
II. Statement of the Problem	152
III. Developmental Anatomy of the Auditory Pathway	153
IV. Electrophysiological Development of the Auditory Pathway	170
V. Experiments: Brainstem Evoked Potentials	175
References	186
chapter 6: Speech Perception in Early Infancy	
PETER D. EIMAS	
I. Introduction	193
II. Infant Studies	195

III. Theoretical Consideration	214
IV. Perception of Suprasegmental Units	224
V. Significance of Early Speech Perception	226
References	228
AUTHOR INDEX	233
SUBJECT INDEX	241
