Preface to the Third Edition	vii
Acknowledgments	ix

PART I. THEORETICAL FOUNDATIONS OF CHILD DEVELOPMENT

1. THE FIELD OF CHILD DEVELOPMENT	3
Definition of the Field	3
The Content and Goals of Child Development	4
Child Development as a Natural Science	6
Applications of Child Development	11
Reasons for Studying Child Development	12
2. HISTORICAL OVERVIEW OF THEORETICAL TRENDS	14
Preformationist Approaches	15
Predeterministic Approaches	17
<i>Tabula Rasa</i> Approaches	27
Implications of Historical Trends for Modern Conceptions of Development	32
3. THE REGULATION OF DEVELOPMENT: INTERACTION BETWEEN HEREDITY AND ENVIRONMENT ...	35
Interactional Basis of Developmental Regulation	35
Determination of Intracultural and Intercultural Uniformities and Differences	45
Maturation	56
4. THE NATURE OF DEVELOPMENTAL PROCESSES	67
Continuity and Discontinuity	67
Long-Range Stability of Individuality	73
Contemporaneous Consistency in Personality Organization	77
Transitional Periods of Development	79
Causes of Developmental Crises	79
Parallelism and Divergence in Component-Aspects of Development	81
Individual Differences in Rate and Patterning of Development	83
Reversibility and Irreversibility in Development	87
5. PROBLEMS AND METHODS OF RESEARCH IN CHILD DEVELOPMENT	91
General Problems of Method	91
Problems of Sampling	95
Measurement of Developmental Change	96
Longitudinal Approach	97
Methods of Measurement	102

PART II. THE BEGINNINGS OF DEVELOPMENT

6. PRENATAL DEVELOPMENT AND THE BIRTH PROCESS	119
Survey of Prenatal Development	119
Pregnancy, Childbirth, Lactation, and Maternal Behavior	128
Reactions to Childbirth	129
Maturity at Birth	136
7. NEONATAL AND EARLY-INFANT BEHAVIOR AND CAPACITIES	139
General Appearance and Physical Characteristics	140
Behavioral Organization at Birth	140
Major Neonatal Behavioral Patterns	145
The Development of the Neonatal Sensory-Response Apparatus	149
Diagnostic and Prognostic Implications of the Neonatal Sensory-Response System	152
Emotions	153
Learning	154
Origin and Nature of Drives	156
Infant Care Practices in the Neonatal and Infancy Periods	161
Infant Training and Personality	162

PART III. PERSONALITY DEVELOPMENT

8. EGO DEVELOPMENT	169
Definition of Concepts	169
Predeterministic Approaches to Ego Development	170
An Interactional Approach to Ego Development	171
Normative Sequences in Ego Development	176
Some Aspects of Ego Functioning	193
Self-critical Capacity	198
9. PARENT-CHILD RELATIONSHIPS	200
General Determinants of Parental Attitudes	201
Characteristics of Parental Attitudes	204
Impact of Parental Attitudes on Personality Development	209
Dimensions of Parental Attitudes	211
Origin of Specific Parental Attitudes	212
Early Social Development in the Family	214
Discipline	218
10. RELATIONSHIPS WITH PEERS	221
Origin of Peer Groups	221
Developmental Functions of the Peer Group	222
Developmental Trends in Peer Relationships	224
Perception of Peer Attitudes and Relationships	230
Aggression and Conflict	230
Competition and Cooperation	232
Acceptance and Rejection	235
Leadership	240
Age and Sex Cleavage	242
Conformity Behavior	243

11. PSYCHOSOCIAL ASPECTS OF PERSONALITY DEVELOPMENT	245
Indirect Mediation of Cultural Influences	246
Sources of Psychosocial Traits	246
Transmission of Psychosocial Traits	248
Impact of Social Stratification and Socializing Agencies	250
Impact of the School on Personality Development	261
The Significance of Sex in Child Development	269
12. EMOTIONAL DEVELOPMENT	277
The Nature of Emotion	277
General Trends in Emotional Development	280
Fear	282
Anxiety	285
Anger and Aggression	291
Jealousy and Envy	295
Affection	297
Deprivation of Affection	299
Joy and Boredom	307
Sympathy	307
Humor	308
13. MORAL DEVELOPMENT	310
The Transmission of Values	310
Developmental Trends in Value Assimilation	312
Moral Development	313
Individual Differences in Moral Development	326
Cultural Factors Influencing Moral Development	330
Mass Media	335
Other Aspects of Moral Development	336

PART IV. COGNITIVE DEVELOPMENT

14. THE DEVELOPMENT OF LANGUAGE	343
Distinctive Role of Language in Human Development	343
Nature of Language	344
Phonology	346
Semantics	348
Syntax	357
General Factors Influencing Language Development	364
Language and Other Aspects of Development	371
15. GENERAL ASPECTS OF PERCEPTUAL AND COGNITIVE DEVELOPMENT	374
Interpreting the Infant's Cognitive Experience	374
Perceptual Development	375
General Trends in the Attainment of Cognitive Sophistication	378
General Stages of Intellectual Development	385
The Concrete-Abstract Dimension of Cognitive Development	388
The Effects of Environmental Deprivation on Cognitive Development	404
Motivational Factors in Learning	407

16. SPECIFIC ASPECTS OF COGNITIVE DEVELOPMENT	410
Developmental Trends in Memory	410
Intellectual Curiosity	416
The Role of Play in Cognitive Development	417
Concept Acquisition	419
Problem Solving	432
Logic and Thought	436
Language and Cognitive Functioning	437
17. THE GROWTH OF INTELLIGENCE	441
The Nature of Intelligence	441
Developmental Changes in Intelligence	444
Constancy of Individual Rates of Growth	450
Nature and Nurture	455

PART V. PHYSICAL AND MOTOR DEVELOPMENT

18. PHYSICAL GROWTH AND MOTOR DEVELOPMENT	467
Physical Growth in Children	467
Motor Development in Infancy and Early Childhood	475
Motor Development in Later Childhood	482
REFERENCES	484
INDEX	597
