	28	The High School Curriculum	611
<i>PART 7</i>		CONCLUSION	629
	29	The End of Adolescence	631
		Index	653

List of Illustrations

1-1	Student "sit-in," blocking executive offices	9
2-1	Growth in height, ages 2 to 18	20
2-2	Increases in weight, ages 2 to 18	21
2-3	Relation between size of family and (A) height, and (B) weight of eleven-year-old children in these families	25
2-4	Relation between nutrition and weight for boys, ages 7 to 17, 1935 to 1953	27
2-5	Developmental patterns in height for individual boys and girls	30
2-6	Developmental patterns in weight for individual boys and girls	31
2-7	Three types of bodily build among boys, age 18	32
2-8	Three types of bodily build among girls, age 18	33
2-9	Changes in the <i>bodily proportions of one boy</i> from babyhood to maturity	36
3-1	Diagram showing growth of bones and epiphyses	40
3-2	X-ray of a girl's hand, age 2 years 3 months	42
3-3	X-ray of a boy's hand, age 2 years 3 months	42
3-4	X-ray of a girl's hand, age 6 years 9 months	42
3-5	X-ray of a boy's hand, age 6 years 9 months	42
3-6	X-ray of a girl's hand, age 12 years 9 months	43
3-7	X-ray of a boy's hand, age 12 years 9 months	43
3-8	X-ray of a girl's hand, age 14 years 9 months	43
3-9	X-ray of a boy's hand, age 14 years 9 months	43
3-10	Maturation rate (SA relative to CA)	45
3-11	Eruption of teeth	47

3-12	Changes in the facial proportions of one boy	48
4-1	Development of the sense of balance	51
4-2	Growth in aiming	51
4-3	Growth in rapid passing of a basketball	52
4-4	Development of speed in handwriting	53
4-5	Growth in strength	54
4-6	Changes in four athletic skills	56
5-1	Systolic blood pressure during adolescence	62
5-2	Pulse rate during adolescence	63
5-3	Systolic blood pressure and pulse rate of girls before and after puberty	64
5-4	Vital capacity	65
5-5	Age of sexual maturity in girls	70
5-6	Age of sexual maturity in boys	72
5-7	Early and late maturing girls	73
5-8	Early and late maturing boys	73
5-9	Change in age of menarche, 1840-1950	75
5-10	Growth of the breasts	77
6-1	Death from various causes among adolescents	91
6-2	Results over a decade for two venereal diseases and for paralytic poliomyelitis	97
6-3	Reported sources of information concerning sex	99
7-1	Percentage of total defects falling into each of five classifications for two age groups	115
8-1	A normal curve	151
8-2	IQ variations in the same individuals	153
8-3	Variations in IQ as related to background factors	154
8-4	Growth curve in general intelligence	158
8-5	Chronological age and mental ability	159
8-6	General curve of mental growth in verbal comprehension	160
8-7	Adult intelligence	160
8-8	Individual growth curves in intelligence	162
9-1	Memory for a motion picture	165
9-2	Memory for poetry	166
9-3	Smoothed developmental curve for composite suggestibility scores	173
9-4	Growth in the understanding of mechanical phenomena	175
9-5	Average scores in generalization and symbolic reasoning	177
9-6	Growth in the comprehension of the parables and sayings of Jesus	178

9-7	Relation of age to awareness of emotions, traits of personality, and motives	179
10-1	Hours per week spent in watching television	188
10-2	Relation of maturity to degree of acceptance or rejection	191
11-1	School retardation of dull pupils	238
12-1	Simplified diagram of the autonomic nervous system	253
12-2	Curves of emotional maturity among boys and girls, ages 11-18	266
14-1	Diagram of Lewin's Theory	292
14-2	Rating scale, showing one girl's profile	297
14-3	Picture for the thematic apperception test	299
14-4	Picture for the thematic apperception test for Southwest African natives	301
14-5	The type of ink-blot used in the Rorschach test	302
16-1	Popular and unpopular girls	352
17-1	Cultural differences in degrees of intimacy at successive stages from acquaintance to marriage	368
18-1	Parental attitudes	392
18-2	Conflicts in different types of homes	400
18-3	Mean ratings of degree of conformity in three situations as a function of age	402
18-4	Percentage of companionship choices given to parents	403
19-1	Occupations of the labor force, 1900, 1930, 1960	416
19-2	The "cluster" community as an effort to conserve human and land values	420
20-1	Regional crime rates by type of community	441
20-2	Increase in juvenile delinquency, 1940-1964	445
20-3	Distribution of IQ's for a delinquent group	449
20-4	Homes of delinquent and nondelinquent boys	454
20-5	Delinquent spot map of Cambridge, Massachusetts	457
21-1	Changes in various types of value over a four-year period in college	482
22-1	Acceptance or rejection of unmarried friends known to have been sexually intimate, 1952 and 1965	510
22-2	Orthodoxy scores	515
23-1	High school and college enrollments, 1869-1965	529
23-2	Increase in the number of students on one university campus, 1952-1966	531
23-3	Adolescent drop-outs from school	535
24-1	First five worries of high school boys and girls, 1935 and 1957	548

25-1	Typical results from sociometric studies	562
25-2	First arrangement of class into committees	564
25-3	Second arrangement of class into committees	565
25-4	Development of activities in a girl's school, 1881-1951	569
27-1	Vocational choice versus vocational opportunities	598
29-1	Age distribution of population in the United States, 1840-1960	649

List of Tables

1-1	Developmental tasks of children and adolescents	11
2-1	Increases in height and weight from 1902 to 1952	28
6-1	Total number of arrests by age groups for selected offenses, 1963	104
7-1	Number and percents of children showing visual defects in on-school population	116
7-2	Provision for special classes for the handicapped in urban centers	141
10-1	Activities of adolescents	185
10-2	Use of various media by children and adolescents	187
10-3	Selection and IQ	190
10-4	Types of books withdrawn from libraries by adolescents	204
10-5	Themes of books read by 1500 adolescents	204
10-6	Percents of individuals reading comics at different ages	206
11-1	Social status and subsequent educational level of those students in the highest fourth intellectually of a high school class	213
11-2	The frequency of superior children in the general population	214
11-3	Characteristics of gifted students	215
11-4	Median scores on the concept mastery test for various groups	220
11-5	Comparison of occupational classification in 1940, 1950, and 1955 (men)	221
11-6	Methods of dealing with superior children	223

11-7	Degrees of mental retardation	233
13-1	Escapes and adjustments	276
16-1	Three categories of social maturity	345
16-2	List of traits	354
17-1	Percentages of boys and girls at various school grades in 1942 and 1965 who chose the opposite sex, were chosen by the opposite sex, or were chosen by no one	363
17-2	Percentage of boys and girls indicating a trait as being very desirable for a future mate	366
17-3	Groupings on the basis of popularity	374
17-4	Leadership in college and community	379
18-1	Patterns occurring in 93 homes	397
18-2	List of conflicts between college students and their parents	401
20-1	Distribution of delinquent individuals and emotional disturbance	439
20-2	Comparison of high school students and delinquents as to minor delinquencies	446
20-3	TAT themes of juvenile delinquents	452
20-4	Maternal attitudes and delinquency	456
20-5	Factors contributing to delinquency	463
20-6	Prediction of delinquency	470
21-1	Characteristics imputed to Negroes and Jews	495
21-2	Identifications at different ages	498
22-1	Reasons for prayer	504
22-2	Context of references to fear	508
22-3	Religious and other sublimations of the death anxiety	509
22-4	Levels of moral development	516
23-1	Traits of underachievers in high school	534
23-2	Number and percent of university students re-enrolling for each term for 14 consecutive quarters	537
23-3	Reasons given for dropping out of college	538
24-1	Outstanding problems of adolescents	546
24-2	Misdemeanors in school	553
25-1	Size of school and participation	571
26-1	Characteristics of good and poor teachers	578
26-2	Personal problems encountered by teachers	580
27-1	Counseling problems presented by high school students	594
27-2	Two-way classification of occupations	604
27-3	A student evaluation of counseling	607

28-1	Daily schedule of college preparatory student (1908-1912)	613
28-2	Daily schedule of college preparatory student (1930-1934)	615
28-3	Daily schedule of college preparatory student (1960-1964)	617
28-4	Student opinion of values in high school courses	622
