<i>Tables and Figures</i>	vii
<i>Preface</i>	xi
Part I A Descriptive Approach to Postformal Thought	
1 Postformal Cognitive Theory and Developmental Stages of Musical Composition <i>Joel D. Funk</i>	3
Part II Studies That Correlate Developmental Measures	
2 A Multidomain Study of Adult Development <i>Michael L. Commons, Cheryl Armon, Francis A. Richards, Dawn E. Schrader, with Edwin W. Farrell, Mark B. Tappan, and Nancy F. Bauer</i>	33
3 Relationships Across Developmental Domains: A Longitudinal Study of Intellectual, Moral, and Ego Development <i>Patricia M. King, Karen Strohm Kitchener, Phillip K. Wood, and Mark L. Davison</i>	57
4 Postformal Reasoning in a Socioemotional Context <i>Fredda Blanchard-Fields</i>	73
5 Dialectical Thinking and Relativistic Epistemology: Their Relation in Adult Development <i>Suzanne Benack and Michael A. Basseches</i>	95
Part III Application of Postformal Reasoning in Diverse Domains	
6 Problems in the Proposal for a "Stage" of Dialectical Thinking <i>Ronald R. Irwin and Ronald L. Sheese</i>	113

7	Development of an Awareness of Contradiction Across the Life Span and the Question of Postformal Operations <i>Deirdre A. Kramer</i>	133
8	Dialectical Thinking as an Organized Whole: Comments on Irwin and Kramer <i>Michael A. Basseches</i>	161
9	Individuality and Autonomy in Adult Ethical Reasoning <i>Cheryl Armon</i>	179
10	Problem Solving and Problem Finding in Young Artists and Young Scientists <i>Patricia Kennedy Arlin</i>	197
11	Making Decisions about Health-Care Problems: A Comparison of Formal and Postformal Modes of Competence <i>John M. Rybash and Paul A. Roodin</i>	217
 Part IV Postformal Reasoning and Aspects of Adolescent and Adult Life		
12	Life-Span Relativistic Postformal Thought: Methodology and Data from Everyday Problem-Solving Studies <i>Jan D. Sinnott</i>	239
13	Being Aware of Issues and Biases: Directions for Research on Postformal Thought <i>John C. Cavanaugh and Helene Stafford</i>	279
14	Cognitive Change as a Function of Knowledge Access <i>William J. Hoyer, John M. Rybash, and Paul A. Roodin</i>	293
15	Expertise in Life Planning: A New Research Approach to Investigating Aspects of Wisdom <i>Jacqui Smith, Roger A. Dixon, and Paul B. Baltes</i>	307
	<i>Index</i>	333
	<i>About the Editors and Contributors</i>	345

Tables and Figures

Tables

1.1	Koplowitz's Stages of Adult Cognitive Development	4
1.2	Probable Correlation of Wilber's Stages with Those of Other Developmental Stage Theorists	8
1.3	Probable Correlation of Higher Stages of Wilber, Koplowitz, Fowler, and Eastern Thought	10
1.4	Probable Correlation of Higher Stages of Wilber, Koplowitz, Keen, Kierkegaard, and Thompson/Vico	12
1.5	Developmental Stage and Metamusical Structure	17
1.6	Developmental Stage and Musical Structure	22
1.7	Probable Correlation of Life Stage and Level of Consciousness with Stages of Musical Composition	25
2.1	Descriptive Statistics for Distal (Background) Variables	38
2.2	Descriptive Statistics for Interest Scales	39
2.3	Descriptive Statistics for Developmental Measures	40
2.4	Descriptive Statistics for Success Measures	41
2.5	Correlations Between Background and Interest Variables	42
2.6	Background Variables Predicting Development in the Full Equations	44
2.7	Background Variables Predicting Development in the Restricted Equation	45
2.8	Factor Loadings of Outcome Variables	47
2.9	Correlations Between Outcome Measures	48
2.10	Predictive Relations Between Outcome Variables in the Full Equation	49
2.11	Predictive Relations Between Outcome Variables in the Restricted Equation	50
2.12	First-Order and Partial Developmental Correlations	51
3.1	Mean Age and Educational Levels of Subjects in 1977, 1979, and 1983	60
3.2	Means and Standard Deviations for the RJI, DIT, CMT, and SCT by Group and Time	64
3.3	Correlations between Measures (RJI, DIT, CMT, SCT) Including and Removing the Effects of Age and Education	65
3.4	Summary of Time and Group Differences for Each Measure,	

	With and Without the Effects of Other Measures Removed (using 2-way ANOVAs and ANACOVAs)	67
4.1	Models of Postformal Development in Contrast with the Present Scoring Scheme	76
5.1	Possible Phases in the Development of Dialectical Thinking	97
5.2	Means of Education Groups on General Measures of Dialectical Thinking	100
5.3	Frequency in Each Epistemological Level, by Education Group	101
5.4	The Relations of Dialectical Measures to Type of Epistemology	102
5.5	Use of Schemata at Phases of Dialectical Development, by Epistemology Groups	105
5.6	Number of Dualists and Relativists Showing Development of Each Phase of Dialectical Thinking	106
5.7	Parallels Among Dialectical, Epistemological, and Structural Development	108
6.1	Distribution of Schemata (#1–12)	120
6.2	Distribution of Schemata (#13–24)	120
6.3	Schemata That Clearly Demonstrate Increased Use with Age	122
6.4	Schemata That Have a Questionable Pattern of Emergence	123
6.5	Schemata That Do not Appear to Have a Developmental Pattern	124
7.1	Assumptions of Each Style of Thinking	137
7.2	A Taxonomy of Contradiction	145
8.1	Analysis of Functions of Dialectical Schemata	162
9.1	Good-Life Stages 4 and 5	193
10.1	Interview Questions	204
10.2	Experimental Studio/Lab Tasks	205
10.3	Intercorrelations for Formal and Postformal Reasoning Variables	211
11.1	Kohlberg's Levels of Moral Development: An Overview	226
11.2	How Individuals at Different Moral Levels Understand the Nature of the Patient/Health-Care Professional Relationship and the Patient's Right to Self-Determination	229
12.1	Summary of the Relativistic Postformal Position—Necessary and Sufficient Conditions: Self-Referential Thought and Formal Operations	242
12.2	Patterns of Living System Change Over Time in Six Types of Systems	243
12.3	Expected Relations of Perceived Goal Clarity and Availability of Heuristic to Some Dimensions of Strategy, Problem Space, Performance on Well-Structured Problems, and Skills Needed	247
12.4	General Steps in the Everyday Problem-Solving Process	250
12.5	Effect of Age and Problem Type on Steps to Solution	254
12.6	Age Differences in Success, Crucial Errors, and Number of Solutions, Goals, Essences, by Problem	255
15.1	Wisdom: A Working Framework	312

15.2	Life Planning Tasks: A Fictitious Person Faces a Decision Between Two Future Options	320
------	--	-----

Figure

4.1	Probed Reasoning Score as a Function of Age Group and Task Condition	87
5.1	Dialectical Index of Dualists and Relativists at Each Educational Level	103
7.1	A Life-Span Sequence of Seven Levels of Development Toward Relativistic and Dialectical Reasoning	153
10.1	Proposed Model of the Relationships Between Formal and Postformal Reasoning Variables	200
10.2	Selected Drawings from the Studio Task	206
10.3	Stimuli for the Displacement-of-Concepts Task	208
10.4	Contingency Tables of the Form: Formal \times Postformal Reasoning	213
12.1	Basic Components in Solution of Ill-Structured Problems	248
12.2	Model System State Early in Problem 1	249
12.3	A Living System—Potential/Actual Balance	257
12.4	Proportion of Respondents with Two or More Solutions, by Problem and Age	259
12.5	Variability in Quantity of Adults' Self-Referential Statements	260
14.1	Influences of Knowledge Representation, and Access and Contextual Cues on Cognitive Processing	298
15.1	Multidimensionality/Multidirectionality	309
15.2	Nonnormative Problems	324
